

CONTENTS OF NEXT ISSUE

PMM Vol. 26, No. 2, 1962

- I.L. KHMELEVSKII: On a Chaplygin problem
- S.I. GORSHIN: On stability in large solutions of a system of differential equations for continuously acting disturbances
- N.N. KRASOVSKII: On a problem of pursuit
- V.A. TROITSKII: Variational optimization problems of control processes for equations with discontinuous right-hand sides
- L.Ia. ROITENBERG: Gyroscopic tracking systems in the presence of multi-dimensional random errors
- E.A. LIDSKII: On analytical construction of controls in systems with random properties
- M.I. SHLIOMIS: On the stability of a rotating fluid heated from below, with respect to time-periodic disturbances
- A.G. KULIKOVSKII: On the structure of shock waves in magneto-hydrodynamics for an arbitrary dissipation law
- V.M. ZHDANOV: Phenomena of transfer in a partially ionized gas
- M.D. LADYZHENSII: Analysis of hypersonic flow equations and the solution of Cauchy's problem
- B.M. BULAKH: Supersonic flow past an inclined circular cone
- N.N. MAKEEV: On mutual impact of gas jets
- O.S. RYZHOV: On energy of sound waves
- A.S. MONIN: On Lagrange's equations of hydrodynamics of an incompressible viscous fluid
- G.I. BARENBLATT, R.S. SALGANIK and G.P. CHEREPANOV: On nonsteady crack propagation
- V.V. PONIATOVSKII: On the theory of plates of medium thickness

- V.I. DOVNOROVICH: On the state of stress of an elastic body in the presence of a plane slit (cut)
- G.S. SHAPIRO: On motion of rigid-plastic bodies in a resisting medium
- I.G. TEREKULOV: On the construction of more rigorous theories of plates and shells
- K.I. OGURTSOV: On the analysis of wave fields in elastic homogeneous media with plane parallel separating boundaries
- A.M. SLOBODKIN: On the stability of equilibrium of a conservative system with an infinite number of degrees of freedom
- A.P. PROSKURIAKOV: On the construction of periodic solutions of quasi-linear autonomous systems with several degrees of freedom
- S.A. KHARLAMOV: On the motion of a gyroscope, mounted on gimbals with roller bearings
- V.F. LIASHENKO: On reduction of equations of motion of a gyrohorizon compass and a two-gyroscope vertical
- F.L. CHERNOUS'KO: On the motion of an ideal fluid with a pressure jump along the boundary
- S.S. NOVIKOV and Iu.S. RIASANTSEV: On the reflection of a plane sound wave from the open end of a circular pipe
- A.F. SIDOROV: Some exact solutions of nonstationary two-dimensional gas dynamics
- Iu.L. ZHILIN: Similarity parameters for large hypersonic speeds
- V.V. LUNEV: Hypersonic flow past slender blunt bodies having a power function shape
- A.I. LUR'E: A remark concerning the paper by G. Leitmann "On optimum rocket trajectories"
- V.V. BOLOTIN: Correction of the paper "Edge Effect in vibrations of elastic shells"
