The corresponding author hereby submit a retraction email of the above articles. The corresponding author failed to inform Professor CT Chang that his graduate students, C. Y. Lin and V.S.K. Adi, were listed as the co-authors and the NSC project number was quoted in the acknowledgement without his permission. An almost identical

paper had been published on-line in Chemical Engineering Journal and withdrawn by the same corresponding author and there were also some mistakes in KJChE manuscript. The corresponding author deeply regrets the uncaredful publication.

**Correction: “Characterization of thiourea-formaldehyde chelating resin
by sorption of chromium(III) in water”
[Korean J. Chem. Eng., 26(6), 1717 (2009)]**

Ki Young Kim, Ki-Taek Byun, and Ho-Young Kwak[†]

Mechanical Engineering Department, Chung-Ang University, seoul 156-756, Korea

The title of this article should be corrected to “**Mesoscopic simulation for the structural change of a surfactant solution using**

dissipative particle dynamics” because of an error in the editing process.
