Cover: The CBPol conference has been organized every two years by the Brazilian Polymer Association (ABPol) since 1991 and is a scientific and technical forum for discussion of matters related to polymer production and applications, counting on the strong support of the Brazilian and Latin American scientific and technical communities. The 12th Brazilian Polymer Conference was held in Florianópolis, State of Santa Catarina, Brazil, in September 2013.

This is the first part of the Brazilian Polymer Conference. Part II will be published in *Macromol. Symp.* 2014, 344.
