

C. Geraldine Bazuin* and Amir Tork: Generation of Liquid Crystalline Polymeric Materials from Non Liquid Crystalline Components via Ionic Complexation. Volume 28, Number 26, December 18, 1995, p 8877.

Labels (a) and (b) in Figure 2 were erroneously identified. The caption should read: Infrared spectra of (a) LC-1,12N, (b) the LC-1,12N/PAA complex, and (c) PAA.

Naoto Tsutsumi,* Osamu Matsumoto, Wataru Sakai, and Tsuyoshi Kiyotsukuri: Nonlinear Optical Polymers. 2. Novel NLO Linear Polyurethane with Dipole Moments Aligned Transverse to the Main Backbone. Volume 29, Number 2, January 15, 1996, pp 592–597.

The correct name of the T-AZODIOL monomer in the Abstract and in the Experimental Section should be 4-[(2-hydroxyethyl)amino]-2-(hydroxymethyl)-4'-nitroazobenzene (T-AZODIOL). Thus, the chemical struc-

ture of T-AZODIOL in Scheme 2 and Figures 1 and 2b in the published paper should be replaced by that in the following figure. However, this correction does not affect all results and conclusions.
