Asok K. Dikshit and Arun K. Nandi*: Thermo-reversible Gelation of Poly(vinylidene fluoride) in Diethyl Adipate: A Concerted Mechanism. Volume 31, No. 25, December 15, 1998, pp 8886–8892.

In Figure 8 the ordinate should be read as t_{gel}^{-1} instead of $\log t_{\text{gel}}^{-1}$. The figure caption also should be read as t_{gel}^{-1} vs the concentration plot of PVF₂/diethyl adipate gel at the indicated temperatures.
