Martin Piech, Timothy M. Long, Gregory M. Jamison, C. Steven Yun, and Nelson S. Bell*: Controlled Synthesis of Photochromic Polymer Brushes by Atom Transfer Radical Polymerization. Volume 39, Number 3, February 7, 2006, pp 915–922.

The authors of this work wish to acknowledge material synthesis, methodology, and development contributions from colleagues who were erroneously omitted from our initial manuscript submission. It is our intent and desire that the scientific community use the amended author list for all future literature citations, which we reprint below in corrected form (note that the bibliographic information above also reflects these changes).
