

CHALLENGES IN ORGANIC CHEMISTRY

E I G H T H TETRAHEDRON SYMPOSIUM

27-29 JUNE 2007, BERLIN, GERMANY

IN CELEBRATION OF 50 YEARS OF TETRAHEDRON (1957 - 2007)

SPEAKERS

The following renowned experts have agreed to present at the symposium.

Sam Danishefsky *USA*
Peter B. Dervan *USA*
Albert Eschenmoser *Switzerland*
Bernd Giese *Switzerland*
Bob Grubbs *USA*
Henri B. Kagan *France*
Yoshito Kishi *USA*
Koji Nakanishi *USA*
K.C. Nicolaou *USA*
Stuart L. Schreiber *USA*
A. Ian Scott *USA*
Dieter Seebach *Switzerland*
K. Barry Sharpless *USA*

ORGANIZERS

Herbert Waldman (Chair) *Germany*
Léon Ghosez *France*
Masakatsu Shibasaki *Japan*
Richard Taylor *UK*
Chi-Huey Wong *USA*
John Wood *USA*

Conference Secretariat
Sophie Peters
Tel: +44 (0) 1865 843643
Email: s.peters@elsevier.com

Join a world-class line-up of international experts to address the challenges facing organic chemistry in the 21st Century.

Topics include:

- Organic Synthesis
- Bioorganic Chemistry
- Organic Chemistry of Materials
- Supramolecular Chemistry

CALL FOR POSTERS

Contributions are invited for poster presentation on the above topics and should be submitted online at **www.tetrahedron-symposium.elsevier.com** by **22 January 2007.**
