

EARLY LIFE DEVELOPMENT AND HEALTH: IMPACT ON LATER LIFE

Sponsored by the Collège International de Recherche Servier
Madeleine Derôme-Tremblay, PhD, President

Theodore B. VanItallie, MD, and Madhu Kalia, MD, PhD, MBA
Guest Editors

CONTENTS

Early Life Development and Health: Impact on Later Life—Introduction <i>Madeleine Derôme-Tremblay</i>	S1
Brain Development: Anatomy, Connectivity, Adaptive Plasticity, and Toxicity <i>Madhu Kalia</i>	S2
Synapse Formation and Cognitive Brain Development: Effect of Docosahexaenoic Acid and Other Dietary Constituents <i>Richard J. Wurtman</i>	S6
Understanding the Potency of Stressful Early Life Experiences on Brain and Body Function <i>Bruce S. McEwen</i>	S11
Prenatal Exposure to Sex Steroid Hormones and Behavioral/Cognitive Outcomes <i>JoAnn E. Manson</i>	S16
Prenatal Imprinting of Postnatal Specific Appetites and Feeding Behavior <i>Stylianos Nicolaïdis</i>	S22
Impact of Genetic and Epigenetic Factors From Early Life to Later Disease <i>Johanne Tremblay and Pavel Hamet</i>	S27
Low Birth Weight and Blood Pressure <i>Claude Lenfant</i>	S32
Predisease Biological Markers: Early Diagnosis and Prevention of Arterial Hypertension <i>Gérard E. Plante</i>	S36
Autism, a Brain Developmental Disorder: Some New Pathophysiologic and Genetics Findings <i>Jorge Alberto Costa e Silva</i>	S40
Do Early-Life Insults Contribute to the Late-Life Development of Parkinson and Alzheimer Diseases? <i>Diane B. Miller and James P. O'Callaghan</i>	S44
Parkinson Disease: Primacy of Age as a Risk Factor for Mitochondrial Dysfunction <i>Theodore B. VanItallie</i>	S50
