Errata

Molecular Crystals and Liquid Crystals, Volume 51, Numbers 1 and 2, pp. 29–41. Figure 4 in the paper “Thermoanalytical Microscopy of Phase Transitions of Cholesteryl Acetate-Cholesteryl Octanoate Binary System” by K. S. Kuniyama, S. Tanaka and A. Katoh should have appeared in colour.

The loose colour insert in this issue may be pasted into the original paper between pages 32 and 33.

Molecular Crystals and Liquid Crystals, Volume 53, Numbers 1 and 2, pp. 127–136. In the text of the paper “Study on the Surface Alignment of Nematic Liquid Crystals: Determination of the Easy Axis and Temperature Dependence of its Field Energy” by Hitoshi Mada, the word permeability should be read as permittivity.

Molecular Crystals and Liquid Crystals, Volume 53, Numbers 3 and 4, pp. 229–252. In the paper entitled “Synthesis and Mesomorphic Properties of the Homologous Series of *trans*-1,4-Cyclohexane-di-4'-*n*-Alkoxybenzenes” the correct chemical name for the diastereomers discussed is: Di(4'-*n*-alkoxyphenyl)-*trans*-cyclohexanedicarboxylates.
