## Aims and Scope

Primarily fundamental in tenor, MCLC publishes original research papers of both an experimental and theoretical nature in three areas of specialization: molecular crystals (spectroscopy, energy, and charge transfer, solid state reactions, photo and radiation effects); low dimensional solids (structure, electronic, magnetic, and optical properties, transport mechanisms); and liquid crystals (electro- and magneto-optical phenomena, thermodynamics, phase transitions, structure, NMR and orientation controlled spectroscopy). In all three areas, experimental manuscripts describing both preparation and properties will be considered.

Notes for contributors can be found at the back of the journal.

## Subscription Rates

Subscription rates per volume: corporate, \$430.00; academic library, \$264.00; individual, \$132.00. Rates include airmail postage and handling charges. Individual subscription rates are available only to individuals who subscribe directly from the publisher and who pay through personal checks or credit cards. Volumes are published monthly. Subscriptions are renewed on an annual basis. 1987 volume block: Volumes 142-153.

Prices apply in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Send your order to your usual supplier or directly to Gordon and Breach Science Publishers S.A., c/o STBS Ltd., One Bedford Street, London WC2E 9PP, U.K. Journal subscriptions are sold on a volume block basis only; single volumes are not available separately. Claims for nonreceipt of volumes should be made within three months of publication of the volume or they will not be honored without charge. Subscriptions are available for microform editions.
