GUEST EDITOR'S PREFACE

The 13th International Conference on the Chemistry of the Organic Solid State (ICCOSS XIII) was held from July 13–18, 1997 at the State University of New York at Stony Brook, Long Island, New York, USA. Prior conferences were held in the USA (1968), Israel (1970), Scotland (1972), France (1975), USA (1978), Germany (1982), Greece (1985), France (1987), Italy (1989), Canada (1991), Israel (1993), and Japan (1995).

The 39 oral and 46 poster presentations dealt with a wide variety of research topics in organic solid state chemistry. 47 of these papers appear in these proceedings.

As conference organizer I am grateful for assistance and advice regarding the scientific program from Prof. Mark D. Hollingsworth (Indiana University) and Prof. Bruce M. Foxman (Brandeis University). I would also like to acknowledge Ann Forkin, Ann Brody and Arlene Skala at the State University of New York at Stony Brook Office of Conferences and Special Events for a very professional job in making this conference run smoothly. Finally, the organizer gratefully acknowledges the financial support of:

- Gordon and Breach Publishers, the publishers of Molecular Crystals and Liquid Crystals
- Merck Research Laboratories
- The donors of the Petroleum Research Fund which is administered by the American Chemical Society
- The Dept. of Materials Science and Engineering at Stony Brook
- The College of Engineering and Applied Sciences at Stony Brook.
