Erratum

In the article **New Methodologies for Solving Crystal Structures from Powder Diffraction Data** (pp. 1 – 14) by Kenneth D. M. Harris, Benson M. Kariuki, Maryjane Tremayne and Roy L. Johnston in Volume 313, the following statement should have published under References:

Note added in Proof:

After acceptance of the present paper, another paper describing the application of a Genetic Algorithm in the field of structure solution from powder diffraction data has been published [K. Shankland, W. I. F. Davis and T. Csoka, *Z. Kristall.*, **212**, 550 (1997)]. Our approach (described above) and the approach of Shankland *et al.* differ in the definition and handling of the fitness function as well as in other aspects concerning the way in which the Genetic Algorithm is implemented.
