

Meeting Announcement

INTERNATIONAL WORKSHOP ON HETEROGENEITY OF CALCIUM MICRODOMAINS AND CELL ACTIVATION

Villa Olmo-Como, Italy, November 3–4, 1995

*Sponsored by the Calcium Club–European Chapter; Institute of Pharmacological Sciences, Milan Fondazione
Giovanni Lorenzini, Milan and Houston*

Program and Lectures

Friday, November 3, 1995, 14:00–18:00

T. Meyer (Durham, US): Source of Nuclear Calcium Signals

R. Rizzuto (Padua, Italy): Measuring Organelle Calcium with Recombinant Aequorin

A. Konnerth (Homburg, Germany): Dynamics and Localization of Calcium Microdomains During Synaptic Activity

W. Mason (Cambridge, UK): Real Time Confocal and Video Imaging of Spatial and Temporal Heterogeneity in Intracellular and Intranuclear Calcium Signalling

Saturday, November 4, 1995 9:00–12:30

A. Marty (Goettingen, Germany): Calcium-Induced Calcium Release in Cerebellar Purkinje Cells

K.-H. Krause (Genève, Switzerland): Ca^{2+} Microdomains and Site of Lysosomal Exocytosis in Neutrophils

Speaker to be announced

Selected Oral Communications

Saturday, November 4, 1995 13:30–18:30: POSTER SESSION

F. Grohovaz (Milan, Italy): Intracellular Calcium Mapping by Analytical Electron Microscopy

S. Bolsover (London, UK): Nuclear Calcium Dynamics in Nerve Cells

Round Table chaired by **Prof. E. Carafoli**: Independent Regulation of Ca^{2+} in the Nucleus: Yes or No?

Invited Discussants: **M. Mazzanti, T. Meyer, R. Rizzuto, L. Santella** (plus selected brief Communications)

REGISTRATION AND SUBMISSION OF POSTER COMMUNICATIONS

Information

Information regarding Program and registration form should be requested to Organizing Secretariat:

Daniela Galli

Information regarding scientific aspects of the program may be requested to the Scientific Secretary:

Simonetta Nicosia
