THERMALLY PROCESSED FOODS

Editor: Veronika Somoza

Editorial

**Health Implications of Thermally Processed Foods –
COST Action 927**

Veronika Somoza 787

Research Article

**The fluorimetric FAST method, a simple tool for the optimization
of microwave pasteurization of milk**

Frederic J. Tessier, Pascale Gadonna-Widehem and Jean-Claude Laguerre .. 793

Research Article

**Study on fluorescence of Maillard reaction compounds in
breakfast cereals**

*Cristina Delgado-Andrade, José A. Rufián-Henares and
Francisco J. Morales* 799

Research Article

**Computer vision based analysis of potato chips –
A tool for rapid detection of acrylamide level**

Vural Gökmen, Hamide Z. Senyuva, Berkan Dülek and Enis Çetin 805

Research Article

**Screening of acrylamide contents in potato crisps using process variable
settings and near-infrared spectroscopy**

*Vegard H. Segtnan, Agnieszka Kita, Maria Mielnik, Kjetil Jørgensen and
Svein Halvor Knutsen* 811

Research Article

**Influence of rosemary (*Rosmarinus officinalis*, L.)
on plant sterol oxidation in extra virgin olive oil**

*Laura D'Evoli, Laura Huikko, Anna-Maija Lampi, Massimo Lucarini,
Ginevra Lombardi-Boccia, Stefano Nicoli and Vieno Piironen* 818

Research Article

Antioxidants in thermally treated buckwheat groats

*Henryk Zielinski, Anna Michalska, Mariusz K. Piskula and
Halina Kozłowska* 824

Research Article**Dose-dependent utilisation of casein-linked lysinoalanine, N(epsilon)-fructoselysine and N(epsilon)-carboxymethyllysine in rats***Veronika Somoza, Elisabeth Wenzel, Carola Weiß, Ingrid Clawin-Rädecker, Nadine Grübel and Helmut F. Erbersdobler* .. 833**Research Article****Analysis of 5-hydroxymethylfurfural in coffee, dried fruits and urine***Michael Murkovic and Nicole Pichler* .. 842**Review Article****Metabolism of Maillard reaction products by the human gut microbiota – implications for health***Kieran M. Tuohy, Davinia J. S. Hinton, Sarah J. Davies, M. James C. Crabbe, Glenn R. Gibson and Jennifer M. Ames* .. 847**Research Article****Association of metabolic syndrome risk factors with selected markers of oxidative status and microinflammation in healthy omnivores and vegetarians***Katarína Šebeková, Peter Boor, Martina Valachovičová, Pavol Blazíček, Vojtech Parrák, Katarína Babinská, August Heidland and Marica Krajčovičová-Kudláčková* .. 858**MNF Books** .. 869**MNF Meetings Diary** .. 870**Instructions to authors** .. 872
