Review

The effect of taurine on cholesterol metabolism

Wen Chen, Jun-Xia Guo and Ping Chang 681

Research Article

Molecular mechanism of curcumin on the suppression of cholesterol accumulation in macrophage foam cells and atherosclerosis

Jing-Feng Zhao, Li-Chieh Ching, Yu-Chu Huang, Chien-Yu Chen, An-Na Chiang, Yu Ru Kou, Song-Kun Shyue, and Tzong-Shyuan Lee

Research Article

Lycopene induces retinoic acid receptor transcriptional activation in mice

Gamze Aydemir, Harald Carlsen, Rune Blomhoff and Ralph Rühl

702

 Supporting information see www.mnf-journal.com

Research Article

Annatto prevents retinal degeneration induced by endoplasmic reticulum stress in vitro and in vivo

Kazuhiro Tsuruma, Hiroki Shimazaki, Ken-ichi Nakashima, Mika Yamauchi, Sou Sugitani, Masamitsu Shimazawa, Munekazu Iinuma and Hideaki Hara 713

Research Article

Lycopene attenuates LPS-induced TNF- α secretion in macrophages and inflammatory markers in adipocytes exposed to macrophage-conditioned media

Julie Marcotorchino, Beatrice Romier, Erwan Gouranton, Celine Riollet, Beatrice Gleize, Christiane Malezet-Desmoulins and Jean-François Landrier 725

Research Article

Squalene ameliorates atherosclerotic lesions through the reduction of CD36 scavenger receptor expression in macrophages

Sergio Granados-Principal, Jose L. Quiles, Cesar L. Ramirez-Tortosa, Julio Ochoa-Herrera, Patricia Perez-Lopez, Mario Pulido-Moran and MCarmen Ramirez-Tortosa 733

Research Article

Leucine induces myofibrillar protein accretion in cultured skeletal muscle through mTOR dependent and -independent control of myosin heavy chain mRNA levels

Astrid Haegens, Annemie M. Schols, Anon L. van Essen, Luc J. van Loon and Ramon C. Langen 741

 Supporting information see www.mnf-journal.com

Research Article

Calcium-sensing receptor mediates dietary peptide-induced CCK secretion in enteroendocrine STC-1 cells

Shingo Nakajima, Tohru Hira and Hiroshi Hara 753

Research Article

2'-Hydroxyflavanone induces apoptosis through Egr-1 involving expression of Bax, p21, and NAG-1 in colon cancer cells

Soon Young Shin, Ji Ho Kim, Jung Ho Lee, Yoongho Lim and Young Han Lee 761

Research Article

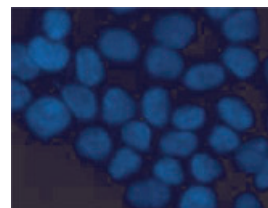

Dietary intake of rosmarinic acid by Apc^{Min} mice, a model of colorectal carcinogenesis: levels of parent agent in the target tissue and effect on adenoma development

Ankur Karmokar, Timothy H. Marczyklo, Hong Cai, William P. Steward, Andreas J. Gescher and Karen Brown 775

Research Article

Ellagitannin metabolites, urolithin A glucuronide and its aglycone urolithin A, ameliorate TNF- α -induced inflammation and associated molecular markers in human aortic endothelial cells

Juan A. Giménez-Bastida, Antonio González-Sarriás, Mar Larrosa, Francisco Tomás-Barberán, Juan C. Espín and María-Teresa García-Conesa

784

Research Article

Capsaicin induces CYP3A4 expression via pregnane X receptor and CCAAT/enhancer-binding protein β activation

Eun Hee Han, Hyung Gyun Kim, Jae Ho Choi, Yin-Jin Jang, Sang Seop Lee, Kwang-il Kwon, Eunyoung Kim, Kyeumhan Noh, Tae Cheon Jeong, Yong Pil Hwang, Young Chul Chung, Wonku Kang and Hye Gwang Jeong . . . 797

Research Article

Consumption of a grape extract supplement containing resveratrol decreases oxidized LDL and ApoB in patients undergoing primary prevention of cardiovascular disease: A triple-blind, 6-month follow-up, placebo-controlled, randomized trial

Joao Tomé-Carneiro, Manuel González, Mar Larrosa, Francisco J. García-Almagro, Francisco Avilés-Plaza, Soledad Parra, María J. Yáñez-Gascón, José A. Ruiz-Ros, Maréa T. García-Conesa, Francisco A. Tomás-Barberán and Juan Carlos Espín 810

 Supporting information see www.mnf-journal.com

Research Article

β -Glucans are involved in immune-modulation of THP-1 macrophages

Wasaporn Chanput, Marit Reitsma, Lennart Kleinjans, Jurriaan J. Mes, Huub F. J. Savelkoul and Harry J. Wichers 822

Food & Function

Impact of dietary fibre-enriched ready-to-eat extruded snacks on the postprandial glycaemic response of non-diabetic patients

Margaret A. Brennan, Emma J. Derbyshire, Charles S. Brennan, Brijesh K. Tiwari 834
