SUBJECT INDEX

A

- Acetaldehyde:** Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- N-acetylation:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Acetylcholine:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Acetylcholine:** The Effect of Fluoride on the Reaction of Acetylcholinesterase with Carbamates, *Greenspan and Wilson*, 266
- Acetylcholinesterase:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Acetylcholinesterase:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Acetylcholinesterase:** The Effect of Fluoride on the Reaction of Acetylcholinesterase with Carbamates, *Greenspan and Wilson*, 266
- Acetylcholinesterase:** The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, *Greenspan and Wilson*, 460
- Acetylcholinesterase:** Nuclear Magnetic Resonance Studies on Acetylcholinesterase, *Kato, Yung, and Ihnat*, 583
- O-acetyl-L-serine:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Acridine:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Actinomycin D:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Actinomycin D:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Adenosine:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Adenosine deaminase:** The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255
- Adenosine 5'-diphosphate:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Adenosine 5'-diphosphate:** A Kinetic Model of a Cyclic System for the Fluorometric Microdetermination of Adenosine Triphosphatase Activity, *Hart*, 31
- Adenosine kinase:** Effects of 6-N-Allyladenosine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Adenosine 5'-monophosphate:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Adenosine 5'-triphosphate:** A Kinetic Model of a Cyclic System for the Fluorometric Microdetermination of Adenosine Triphosphatase Activity, *Hart*, 31
- Adenosine 5'-triphosphate:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Adenosine triphosphatase:** A Kinetic Model of a Cyclic System for the Fluorometric Microdetermination of Adenosine Triphosphatase Activity, *Hart*, 31
- Adenosine triphosphatase:** Ouabain-Dependent Incorporation of ³²P from *p*-Nitrophenyl Phosphate into a Microsomal Phosphatase, *Inturrisi and Titus*, 99
- Adenosine triphosphatase:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Adenosine triphosphatase:** The Binding of

- Tritiated Ouabain to Sodium- and Potassium-Activated Adenosine Triphosphatase and Cardiac Relaxing System of Perfused Dog Heart, *Allen, Besch, Glick, and Schwartz*, 441
- Adenosine triphosphatase:** Inhibition of Calf Brain Membranal Sodium- and Potassium-Dependent Adenosine Triphosphatase by Cardioactive Sterols. A Binding Site Model, *Wilson, Sivitz, and Hanna*, 449
- Adenosine triphosphatase:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- Adenosine triphosphatase:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Ethacrynic Acid: Two Modes of Action, *Banerjee, Khanna, and Sen*, 680
- Adenosine triphosphatase:** Excitation-Contraction Coupling in Heart. III. Evidence against the Involvement of Adenosine Cyclic 3',5'-Monophosphate in Calcium Transport by Sarcotubular Vesicles of Canine Myocardium, *Sulakhe and Dhalla*, 659
- S-adenosyl-L-methionine:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Adenyl cyclase:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Adenyl cyclase:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Adenyl cyclase:** The Structure-Activity Relationships of Adrenergic Compounds That Act on the Adenyl Cyclase of the Frog Erythrocyte, *Rosen, Erlichman, and Rosen*, 524
- Adenyl cyclase:** Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, *Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman*, 597
- Adrenal gland:** Heterogeneity of N- and O-Methyltransferases, *Axelrod and Vesell*, 78
- Adrenal gland:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Adrenal gland:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Adrenal medulla:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Alpha-adrenergic blocking agent:** Increased Conversion of Tyrosine to Catecholamines in the Intact Rat Following Elevation of Tissue Tyrosine Hydroxylase Levels by Administered Phenoxybenzamine, *Dairman and Udenfriend*, 350
- Alpha-adrenergic blocking agent:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Beta-adrenergic blocking agents:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Adrenergic compounds:** The Structure-Activity Relationships of Adrenergic Compounds That Act on the Adenyl Cyclase of the Frog Erythrocyte, *Rosen, Erlichman, and Rosen*, 524
- Alanine aminotransferase:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- Albumin:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- Alcohol dehydrogenase:** Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, *Watkins, Goodman, and Tephly*, 567
- Aldehyde dehydrogenase:** Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- Aldehyde oxidase:** The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255
- N-alkanes:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Alkytrimethylammonium ions:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Allosteric effects:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Allosteric effects:** The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, *Greenspan and Wilson*, 460
- Allosteric effects:** Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- 6-N-Allyladenosine:** Effects of 6-N-Allyla-

- denosine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Amethopterin:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323
- Amethopterin:** 2-Amino-4-hydroxyquinazolines as Inhibitors of Thymidylate Synthetase, *Bird, Vaitkus, and Clarke*, 573
- Amino acids analogues:** Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- Amino acid analogues:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Amino acid transport:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Amino acid transport:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134
- Amino acid transport:** Effect of Levorphanol on Putrescine Transport in *Escherichia coli*, *Simon, Schapira, and Thomas*, 577
- γ -aminobutyric acid:** Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- 1-aminocyclopentanecarboxylic acid:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- L-2-amino-4-hexenoic acid:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- 2-amino-4-hydroxyquinazolines:** Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, *Bird, Vaitkus, and Clarke*, 573
- 1 - amino - 3 - methylcyclopentanecarboxylic acid:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Aminopyrine:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Aminoquinolines:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- 3-amino-1,2,4-triazole:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, *Raisfeld, Bacchin, Hutterer, and Schaffner*, 231
- 3-amino-1,2,4-triazole:** Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, *Watkins, Goodman, and Tephly*, 567
- Ammonia:** Kinetics of Carbonic Anhydrase in Whole Red Cells as Measured by Transfer of Carbon Dioxide and Ammonia, *Maren and Wiley*, 430
- 2,2' - (9,10 - anthrylenedimethylene)bis(2 - thiopseudourea):** Effect of 2,2'-(9,10-Anthrylenedimethylene)bis(2 - thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335
- Antibodies:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Anticholinergic drugs:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Bellet, DiTullio, and Tsai*, 41
- Antienzymes:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Antifolate:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Fölsch and Bertino*, 93
- Antifolates:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323
- Antihypertensive agents:** Electronic Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. I. Pharmacological Aspects of Tautomerism and Conformation, *Wohl*, 189
- Antihypertensive agents:** Electronic Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. II. Multiple Regression Analyses Relating Biological Potency and Electronic Structure, *Wohl*, 195
- Antimalarial agents:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- Antimalarial agents:** The Effect of Chloroquine on the Enzymatic Hydrolysis of Nucleic Acids, *Whichard and Holbrook*, 548
- Antischistosomal agents:** Relationship between

- Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604
- Antischistosomal agent:** Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532
- Antitumor agents:** Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Antitumor agents:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Antitumor agents:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Antiviral agents:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- Apurinic acid:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Arginase:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- Aryl hydrocarbon:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Aryl hydrocarbon hydroxylase:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Atropine:** The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluorescence, *Rodriguez, La Torre, and De Robertis*, 122
- Atropine:** Nuclear Magnetic Resonance Studies on Acetylcholinesterase, *Kato, Young, and Ihnat*, 583
- B**
- Bacillus stearothersophilus:** Effect of 2,2'-(9,10 - Anthrylenedimethylene)bis(2 - thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335
- Bacillus subtilis:** Effect of 2,2'-(9,10-Anthrylenedimethylene)bis(2-thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335
- Bacteriophage T4:** Determination of the Mutagenic Activity to Bacteriophage T4 of Carcinogenic and Noncarcinogenic Compounds, *Corbett, Heidelberger, and Dove*, 667
- Benz(a)anthracene:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Benz(a)anthracene:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Benzothiadiazine:** Electronic Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. I. Pharmacological Aspects of Tautomerism and Conformation, *Wohl*, 189
- Benzothiadiazine:** Electronic Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. II. Multiple Regression Analyses Relating Biological Potency and Electronic Structure, *Wohl*, 195
- D-benzphetamine:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- 3,4-benzpyrene:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3 - Methyl - 4 - methylaminoazobenzene N-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Brain:** Ouabain-Dependent Incorporation of ³²P from p-Nitrophenyl Phosphate into a Microsomal Phosphatase, *Inturrisi and Titus*, 99
- Brain:** The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluorescence, *Rodriguez, La Torre, and De Robertis*, 122
- Brain:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Brain:** The Effect of Chloroquine on the Enzymatic Hydrolysis of Nucleic Acids, *Akera and Brody*, 557
- Brain, calf:** Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- Brain, guinea pig:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Brain, rabbit:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- 2-bromo-2-chloro-1,1,1-trifluoroethane:** The

Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67

C

- Calcium carbimide:** Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- Calcium ion:** Study of the Mechanism of Renal Vacuologenesis Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- Calcium ion:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Calcium transport:** Excitation-Contraction Coupling in Heart. III. Evidence against the Involvement of Adenosine Cyclic 3',5'-Monophosphate in Calcium Transport by Sarcotubular Vesicles of Canine Myocardium, *Sulakhe and Dhalla*, 659
- Carbachol:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Carbachol:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- Carbamates:** The Effect of Fluoride on the Reaction of Acetylcholinesterase with Carbamates, *Greenspan and Wilson*, 266
- Carbamylation:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Carbamylation:** The Effect of Fluoride on the Reaction of Acetylcholinesterase with Carbamates, *Greenspan and Wilson*, 266
- S-carbamyl-L-cysteine:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- O-carbamyl-L-serine:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Carbon dioxide:** Kinetics of Carbonic Anhydrase in Whole Red Cells as Measured by Transfer of Carbon Dioxide and Ammonia, *Maren and Wiley*, 430
- Carbonic anhydrase:** Kinetics of Carbonic Anhydrase in Whole Red Cells as Measured by Transfer of Carbon Dioxide and Ammonia, *Maren and Wiley*, 430
- Carbonyl cyanide *m*-chlorophenylhydrazone:** Uncoupling Action of Sulfonylureas on Brown Fat Cells, *Chan and Fain*, 513
- Carcinogenesis:** Interaction of 4-Nitroquinoline 1-Oxide with Deoxyribonucleic Acid and Synthetic Polydeoxyribonucleotides, *Paul and Montgomery*, 315
- Carcinogenesis:** Determination of the Mutagenic Activity to Bacteriophage T4 of Carcinogenic and Noncarcinogenic Compounds, *Corbett, Heidelberger, and Dove*, 667
- Cardiac glycosides:** Inhibition of Calf Brain Membranal Sodium- and Potassium-Dependent Adenosine Triphosphatase by Cardioactive Sterols. A Binding Site Model, *Wilson, Sivitz, and Hanna*, 449
- Catecholamines:** Increased Conversion of Tyrosine to Catecholamines in the Intact Rat Following Elevation of Tissue Tyrosine Hydroxylase Levels by Administered Phenoxylbenzamine, *Dairman and Udenfriend*, 350
- Catecholamines:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Catecholamines:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Catecholamines:** The Structure-Activity Relationships of Adrenergic Compounds That Act on the Adenyl Cyclase of the Frog Erythrocyte, *Rosen, Erlichman, and Rosen*, 524
- Catecholamines:** Catechol *O*-Methyltransferase. II. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 691
- Catechol *O*-methyltransferase:** Heterogeneity of *N*- and *O*-Methyltransferase, *Azelrod and Vesell*, 78
- Catechol *O*-methyltransferase:** Catechol *O*-Methyltransferase. III. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 000
- Cerebral cortex:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Cerebral cortex:** The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluores-

- cence, *Rodriguez, La Torre, and De Robertis*, 122
- Chelation:** Study of the Mechanism of Renal Vacuologenesi Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- p-chloro-N-methylaniline:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Chloroquine:** The Effect of Chloroquine on the Enzymatic Hydrolysis of Nucleic Acids, *Whichard and Holbrook*, 548
- Chlorpromazine:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Chlorpromazine:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- Cholinergic agonists:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- Cholinergic agonist:** The Relationship between Desensitization and the Metaphilic Effect at Cholinergic Receptors, *Rang and Ritter*, 383
- Cholinergic receptors:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- Cholinergic receptors:** The Relationship between Desensitization and the Metaphilic Effect at Cholinergic Receptors, *Rang and Ritter*, 383
- Chromaffin granule:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Chromium ion:** Study of the Mechanism of Renal Vacuologenesi Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- Cortisol:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Cortisone:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- Cotton effects:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- Crystal violet:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Cyclic 3',5'-adenosine monophosphate:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Cyclic 3',5'-adenosine monophosphate:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase *b* Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Cyclic 3',5' adenosine monophosphate:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Cyclic 3',5' adenosine monophosphate:** Uncoupling Action of Sulfonyleureas on Brown Fat Cells, *Rosen, Erlichman, and Rosen*, 524
- Cyclic 3',5' adenosine monophosphate:** Excitation-Contraction Coupling in Heart. III. Evidence against the Involvement of Adenosine Cyclic 3',5'-Monophosphate in Calcium Transport by Sarcotubular Vesicles of Canine Myocardium, *Sulakhe and Dhalla*, 659
- Cyclic 3',5' adenosine monophosphate:** Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, *Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman*, 597
- Cyclic 3',5'-adenosine monophosphate analogues:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase *b* Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Cyclic 3',5'-nucleotide phosphodiesterase:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Cyclic 3',5'-nucleotide phosphodiesterase:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase *b* Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Cyclic 3',5'-phosphate phosphodiesterase:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Cycloheximide:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bauserman*, 304
- Cysteine:** Uncoupling Action of Sulfonyleureas on Brown Fat Cells, *Chan and Fain*, 513

- Cytochrome P-450:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Cytochrome P-450:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Cytochrome P-450:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Cytochrome P-450:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, *Raisfeld, Bacchin, Hutterer, and Schaffner*, 231
- Cytochrome P-450:** Ligand Interaction with Hemoprotein P-450. III. The Use of *n*-Octylamine and Ethyl Isocyanide Difference Spectroscopy in the Quantitative Determination of High- and Low-Spin P-450, *Jefcoate, Calabrese, and Gaylor*, 391
- Cytochrome P-450:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Cytochrome P-450:** Induction of Drug Metabolism. V. Independent Formation of Cytochromes P-450 and P₁-450 in Rats With Phenobarbital and 3-Methylcholanthrene Simultaneously, *Bidleman and Mannering*, 697
- Cytochrome P₁-450:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- D**
- Deamino-dicarba-oxytocin:** Crystalline Deamino-dicarba-oxytocin. Preparation and Some Pharmacological Properties, *Yamanaka, Hase, Sakakibara, Schwartz, Dubois, and Walter*, 474
- Decarbamylation:** The Effect of Fluoride on the Reaction of Acetylcholinesterase with Carbamates, *Greenspan and Wilson*, 266
- N*-decyltrimethylammonium:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- Dehydroheliotridine:** Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- N*-demethylase:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Demethylation:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- N*-demethylation:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- N*-demethylation:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- O*-demethylation:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- Deoxyribonucleic acid:** Thioxanthenes: Structural Differences between Lucanthone and Its *N*-Methyl Derivative, *Zilversmit*, 172
- Deoxyribonucleic acid:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whitchard, and Holbrook*, 240
- Deoxyribonucleic acid:** Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Deoxyribonucleic acid:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- Deoxyribonucleic acid:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Deoxyribonucleic acid metabolism:** The Effect of Chloroquine on the Enzymatic Hydrolysis of Nucleic Acids, *Whitchard and Holbrook*, 548
- Deoxyribonucleic acid metabolism:** Enzymatic Studies Relating to the Mode of Action of 5-Mercapto-2'-deoxyuridine, *Kalman and Barros*, 621
- Deoxyribonucleic acid synthesis:** Interaction of 4-Nitroquinoline 1-Oxide with Deoxyribonucleic Acid and Synthetic Polydeoxyribonucleotides, *Paul and Montgomery*, 315
- Deoxyribonucleic acid synthesis:** Effect of 2,2'-(9,10-Anthrylenedimethylene) bis(2-thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335
- O*,*O'*-diacetylmorphine:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- N*-[p-[(2,4-diamino-5-methyl-6-quinazolinyl)methyl]amino]benzoyl]-L-aspartic acid:** Folate Reductase of the

- Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323
- 4,6-diaminotriazine derivatives:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Folsch and Bertino*, 93
- Dicoumarol:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- 1 - diethylaminoethylamino - 4 - methylthio - xanthone:** Thioxanthones: Structural Differences between Lucanthone and Its *N*-Methyl Derivative, *Zilversmit*, 172
- 2-diethylaminoethyl 2,2-diphenylvalerate:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- 2 - diethylaminoethyl - 2,2 - diphenylvalerate:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Dihydrofolate:** Enzymatic Studies Relating to the Mode of Action of 5-Mercapto-2'-deoxyuridine, *Kalman and Bardos*, 621
- Dihydrofolate:** Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- Dihydrofolate reductase:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Folsch and Bertino*, 93
- Dihydrofolate reductase:** 2-Amino-4-hydroxyquinazolines as inhibitors of Thymidylate Synthetase, *Bird, Vaitkus, and Clarke*, 573
- Dihydrofolate reductase:** Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- Disulfiram:** Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- Dopamine:** Catechol *O*-Methyltransferase. III. *m*- and *p*-*O*-Methylamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 691
- Dopamine β -Hydroxylase:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Drug binding:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- Drug binding:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Drug binding:** The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluorescence, *Rodriguez, La Torre, and De Robertis*, 122
- Drug binding:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- Drug binding:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Drug binding:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Drug binding:** Interaction of 4-Nitroquinoline 1-Oxide with Deoxyribonucleic Acid and Synthetic Polydeoxyribonucleotides, *Paul and Montgomery*, 315
- Drug binding:** Effect of 2,2'-(9,10-Anthryl-enedimethylene)bis(2-thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335
- Drug binding:** Ligand Interaction with Hemoprotein P-450. III. The Use of *n*-Octylamine and Ethyl Isocyanide Difference Spectroscopy in the Quantitative Determination of High- and Low-Spin P-450, *Jefcoate, Calabrese, and Gaylor*, 391
- Drug binding:** The Binding of Tritiated Ouabain to Sodium- and Potassium-Activated Adenosine Triphosphatase and Cardiac Relaxing System of Perfused Dog Heart, *Allen, Besch, Glick, and Schwartz*, 441
- Drug binding:** Inhibition of Calf Brain Membranal Sodium- and Potassium-Dependent Adenosine Triphosphatase by Cardioactive Sterols. A Binding Site Model, *Wilson, Sivitz, and Hanna*, 449
- Drug binding:** The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, *Greenspan and Wilson*, 460
- Drug binding:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions

- Concerning the Conformation of Methionine, *Hackney, Gross, Aronow, and Pratt*, 500
- Drug binding:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- Drug binding:** Catechol *O*-Methyltransferase. III. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 691
- Drug binding:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Drug binding:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Drug binding:** Nuclear Magnetic Resonance Studies on Acetylcholinesterase, *Kato, Yung, and Ihnat*, 583
- Drug binding:** Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- Drug metabolism:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Fölsch and Bertino*, 93
- Drug metabolism:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Drug metabolism:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- Drug metabolism:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Drug metabolism:** Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- Drug metabolism:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Drug resistance:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Drug metabolism:** Induction of Drug Metabolism. V. Independent Formation of Cytochromes P-450 and P₁-450 in Rats with Phenobarbital and 3-Methylcholanthrene Simultaneously, *Bidleman and Mannering*, 697
- E**
- Electron transport:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation and Swelling in Rat Liver Mitochondria *Miller and Hunter*, 67
- Endoplasmic reticulum:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, *Raisfeld, Bacchin, Hutterer, and Schaffner*, 231
- Enzyme induction:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Enzyme induction:** Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Enzyme induction:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Enzyme induction:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Enzyme induction:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- Enzyme induction:** The Metabolism of Ribonucleic Acid in Rat Liver after Phenobarbital Administration, *Cohen and Ruddon*, 540
- Epinephrine:** Catechol *O*-Methyltransferase. III. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 691
- Erythrocytes:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Erythrocytes:** Kinetics of Carbonic Anhydrase in Whole Red Cells as Measured by Transfer of Carbon Dioxide and Ammonia, *Maren and Wiley*, 430
- Erythrocytes:** The Structure-Activity Relationships of Adrenergic Compounds That Act on the Adenyl Cyclase of the Frog Erythrocyte, *Rosen, Erlichman, and Rosen*, 524
- Escherichia coli:** Correlation of the Potencies of Tetracyclines *in Vitro* with a D-Ring Substituent Index, *Cammarata, Yau, Collett, and Martin*, 61
- Escherichia coli:** Effects of 6-*N*-Allyladenosine

- on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Escherichia coli***: Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
- Escherichia coli***: Effect of Levorphanol on Putrescine Transport in *Escherichia coli*, *Simon, Schapira, and Wurster*, 577
- Ethacrynic acid**: Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Ethacrynic Acid: Two Modes of Action, *Banerjee, Khanna, and Sen*, 680
- Ethanol metabolism**: Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- Ethanol metabolism**: Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, *Watkins, Goodman, and Tephly*, 567
- 2-ethylaminoethyl 2,2-diphenylvalerate**: Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- 6-N-(N-ethyl-N-2-chloroethyl)propyl-2,4,6-triamino-5-(dichlorophenylazo)-pyrimidines**: Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- Ethylenediaminetetraacetate**: Study of the Mechanism of Renal Vacuologenes Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- Ethyl isocyanide**: Ligand Interaction with Hemoprotein P-450. III. The Use of *n*-Octylamine and Ethyl Isocyanide Difference Spectroscopy in the Quantitative Determination of High- and Low-Spin P-450, *Jefcoate, Calabrese, and Gaylor*, 391
- Ethylmorphine**: Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- Ethylmorphine**: Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Ethylmorphine**: Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Eserine**: Nuclear Magnetic Resonance Studies on Acetylcholinesterase, *Kato, Yung, and Ihnat*, 583
- F**
- Fat cells, brown**: Uncoupling Action of Sulfonylureas on Brown Fat Cells, *Chan and Fain*, 513
- Fat cells, white**: Uncoupling Action of Sulfonylureas on Brown Fat Cells, *Chan and Fain*, 513
- Fibroblasts**: Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Hackney, Gross, Aronow, and Pratt*, 500
- α -fluoro- γ -aminobutyric acid**: Fluorinated γ -Aminobutyric Acid Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- Fluorometric methods**: A Kinetic Model of a Cyclic System for the Fluorometric Microdetermination of Adenosine Triphosphatase Activity, *Hart*, 31
- Fluorescence methods**: The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluorescence, *Rodriguez, La Torre, and De Robertis*, 122
- Fluoride**: The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, *Greenspan and Wilson*, 460
- Fluorinated amino acid**: Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- Fluorinated pyrimidines**: Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Fluorinated pyrimidines**: Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- 5-fluoro-2'-deoxyuridine**: Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- L- γ -fluoroglutamate**: Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- 5-fluoro-uracil**: Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Folate reductase**: Folate Reductase of the

- Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A₁. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323
- Folic acid:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Fölsch and Bertino*, 93
- Folic acid analogues:** 2-Amino-4-hydroxyquinazolines as Inhibitors of Thymidylate Synthetase, *Bird, Vaitkus, and Clarke*, 573
- Folic acid metabolism:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A₁. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchinson*, 323
- Formycins:** The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255
- Free radical:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- G**
- Gallamine:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, Di-Tullio, and Tsai*, 41
- Glucocorticoids:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- Glucocorticoids:** Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Hackney, Gross, Arnou, and Pratt*, 500
- Glucose oxidation:** Uncoupling Action of Sulfonyleureas on Brown Fat Cells, *Chan and Fain*, 513
- Glutamate decarboxylase:** Fluorinated γ -Aminobutyric Acid. Enzymatic Synthesis and Biological Activity of a Potentially Useful Analogue, *Unkeless and Goldman*, 46
- Glutamate dehydrogenase:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Glutamate-oxalacetate transaminase:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Glutamine synthetase:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Glyburide:** Uncoupling Action of Sulfonyleureas on Brown Fat Cells, *Chan and Fain*, 513
- Glycogen:** Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532
- Glycogen phosphorylase:** Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532
- Glycosidase:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Guanosine monophosphate synthetase:** Effects of 6-*N*-Allyladenosine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Guinea pig cerebral cortex:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- H**
- Halothane:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67
- Harmin:** Pineal Gland in Organ Culture. I. Inhibition by Harmin of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Heart, dog:** The Binding of Tritiated Ouabain to Sodium- and Potassium-Activated Adenosine Triphosphatase and Cardiac Relaxing System of Perfused Dog Heart, *Allen, Besch, Glick, and Schwartz*, 441
- Heart, dog:** Excitation-Contraction Coupling in Heart. III. Evidence against the Involvement of Adenosine Cyclic 3',5'-Monophosphate in Calcium Transport by Sarcotubular Vesicles of Canine Myocardium, *Sulakhe and Dhalla*, 659
- Heart, rat:** Purification and Properties of Rat Heart 5'-Nucleotidase, *Edwards and Maguire*, 641
- HeLa cells:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberger*, 281
- Heliotrine:** Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- Hepatotoxicity:** Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- Heroin:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Heroin:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134
- Hexobarbital:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-

- Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Hexobarbital**: Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Histamine**: The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Saltin and Rall*, 13
- Histamine**: Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Histamine**: Mechanism of Inhibition of Histamine Synthesis in the Rat: Two Specific Gastric Histidine Decarboxylases, *Leinweber and Braun*, 146
- Histidine decarboxylases**: Mechanism of Inhibition of Histamine Synthesis in the Rat: Two Specific Gastric Histidine Decarboxylases, *Leinweber and Braun*, 146
- Histamine *N*-methyltransferase**: Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Hormone receptors**: Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Hackney, Gross, Aronow, and Pratt*, 500
- Hydroxyindoleacetic acid**: Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Hydroxyindole *O*-methyltransferase**: Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Hydroxylase**: Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Hydroxylase**: Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- L-3-hydroxy-*N*-methylnorphinan**: Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Hydroxytryptophol**: Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Immunofluorescent**: Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Insulin**: Uncoupling Action of Sulfonyleureas on Brown Fat Cells, *Chan and Fain*, 513
- Isoproterenol**: The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Isozymes**: Mechanism of Inhibition of Histamine Synthesis in the Rat: Two Specific Gastric Histidine Decarboxylases, *Leinweber and Braun*, 146
- Isozymes**: Heterogeneity of *N*- and *O*-Methyltransferases. *Axelrod and Vesell*, 78
- K**
- Kidney**: Study of the Mechanism of Renal Vacuologenes Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- Kinetic studies**: A Kinetic Model of a Cyclic System for the Fluorometric Microdetermination of Adenosine Triphosphatase Activity, *Hart*, 31
- Kinetic studies**: Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- L**
- Lasiocarpine**: Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- Leptocurares**: Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Leukemia L 1210 cells**: Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Fölsch and Bertino*, 93
- Leukemia L5178Y**: Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Leukemias, mouse**: Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Leukemias, murine**: Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Levallorphan**: Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128

- Levallorphan:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, Gale, 134
- Livorphanol:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, Gale, 128
- Livorphanol:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, Gale, 134
- Livorphanol:** Effect of Levorphanol on Putrescine Transport in *Escherichia coli*, Simon, Schapira, and Wurster, 577
- Lipid metabolism:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, Gale, 134
- Lipid oxidation:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, Kupfer and Orrenius, 221
- Lipolysis:** Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman, 597
- Liver:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, Miller and Hunter, 67
- Liver:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, Kupfer and Orrenius, 221
- Lucanthone:** Thioxanthenes: Structural Differences between Lucanthone and Its *N*-Methyl Derivative, Zilversmit, 172
- Lysosomes:** Study of the Mechanism of Renal Vacuologensis Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, Schwartz, Johnson, and Doolan, 54
- Lysosomes:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, Bosmann and Kessel, 345
- M**
- Melatonin:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, Klein and Rowe, 164
- Membrane permeability:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, Miller and Hunter, 67
- Membrane permeability:** Ouabain-Dependent Incorporation of ³²P from *p*-Nitrophenyl Phosphate into a Microsomal Phosphatase, Inturrisi and Titus, 99
- Membrane permeability:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, Raisfeld, Bacchin, Hutterer, and Schaffner, 231
- Membrane permeability:** Kinetics of Carbonic Anhydrase in Whole Red Cells as Measured by Transfer of Carbon Dioxide and Ammonia, Maren and Wiley, 430
- Membrane permeability:** Inhibition of Calf Brain Membranal Sodium- and Potassium-Dependent Adenosine Triphosphatase by Cardioactive Sterols. A Binding Site Model, Wilson, Sivit, and Hanna, 449
- Membrane Permeability:** Effect of Levorphanol on Putrescine Transport in *Escherichia coli*, Simon, Schapira, and Wurster, 577
- 5-Mercapto-2'-deoxyuridine:** Enzymatic Studies Relating to the Mode of Action of 5-Mercapto-2'-deoxyuridine, Kalman and Bardos, 621
- Methanesulfonates:** The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, Greenspan and Wilson, 460
- Methanol metabolism:** Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, Watkins, Goodman, and Tephly, 567
- Methasquin:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A₁. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, Albrecht and Hutchison, 323
- Methionine adenosyltransferase:** Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, Lombardini, Coulter, and Talalay, 481
- Methionine analogues:** Analogues of Methionine as Substrate and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, Lombardini, Coulter, and Talalay, 481
- Methotrexate:** 2-Amino-4-hydroxyquinazolines as Inhibitors of Thymidylate Synthetase, Bird, Vaitkus, and Clarke, 573
- 3-methoxy-*N*-methylnorphinan:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, Alvares and Mannering, 206
- O-methylation:** Catechol *O*-Methyltransferase. II. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, Creveling, Dalgard, Shimizu, and Daly, 691
- 3-methylcholanthrene:** Induction of Drug metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazoben-

- zene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- 3-methylcholanthrene:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- 3-methylcholanthrene:** Induction of Drug Metabolism. V. Independent Formation of Cytochromes P-450 and P₁-450 in Rats with Phenobarbital and 3-Methylcholanthrene Simultaneously, *Bidleman and Mannering*, 697
- 3-methyl-4-methylaminoazobenzene *N*-Demethylase:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Methyltransferases:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- N*-methyltransferase:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- O*-methyltransferases:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- O*-methyltransferase:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Methylxanthine:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Methanesulfonylation:** Kinetic Effects of Lep-tocurares and Pachycurares on the Methane-sulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Microsomes:** Ouabain-Dependent Incorporation of ³²P from *p*-Nitrophenyl Phosphate into a Microsomal Phosphatase, *Inturrisi and Titus*, 99
- Microsomes:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Microsomes:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- Microsomes:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Microsomes:** Characteristics of Guinea Pig Liver and Adrenal Monooxygenase Systems, *Kupfer and Orrenius*, 221
- Microsomes:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, *Raisfeld, Bacchin, Hutterer, and Schaffner*, 231
- Microsomes:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Microsomes:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Microsomes:** Ligand Interaction with Hemoprotein P-450. III. The Use of *n*-Octylamine and Ethyl Isocyanide Difference Spectroscopy in the Quantitative Determination of High- and Low-Spin P-450, *Jefcoate, Calabrese, and Gaylor*, 391
- Microsomes:** Metabolic Conversion of Helio-tridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402
- Microsomes:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Microsomes:** The Metabolism of Ribonucleic Acid in Rat Liver after Phenobarbital Administration, *Cohen and Ruddon*, 540
- Microsomes:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- Microsomes:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Mitochondria:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67
- Mitochondria:** Effects of Chlorpromazine on Glutamate Dehydrogenase, *Fahien and Shemisa*, 156
- Mitochondria:** The Role of Adenosine Triphosphate and Adenosine Triphosphatase in the Release of Catecholamines from the Adrenal Medulla. IV. Adenosine Triphosphate-Activated Uptake of Calcium by Microsomes and Mitochondria, *Poisner and Hava*, 407
- Molecular orbital calculations:** Electronic

- Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. I. Pharmacological Aspects of Tautomerism and Conformation, *Wohl*, 189
- Molecular orbital calculations:** Electronic Molecular Pharmacology: The Benzothiadiazine Antihypertensive Agents. II. Multiple Regression Analyses Relating Biological Potency and Electronic Structure, *Wohl*, 195
- Monoamine oxidase:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Morphinans:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Morphine:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Morphine:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134
- Morphine:** Two-Substrate Kinetics of Drug-Metabolizing Enzyme Systems of Hepatic Microsomes, *Alvares and Mannering*, 206
- Morphine antagonists:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134
- Muscle:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- Muscle:** The Relationship between Desensitization and the Metaphilic Effect at Cholinergic Receptors, *Rang and Ritter*, 383
- Mutagenic agents:** Determination of the Mutagenic Activity to Bacteriophage T4 of Carcinogenic and Noncarcinogenic Compounds, *Corbett, Heidelberger, and Dove*, 667
- N**
- Naloxone:** Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134
- NADPH-cytochrome P-450 reductase:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Neostigmine:** On the Question: Is Acetylcholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Nicotinamide adenine dinucleotide dehydrogenases:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67
- Nicotinamide adenine dinucleotide phosphate:** Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- 4-Nitroquinoline 1-oxide:** Interaction of 4-Nitroquinoline 1-Oxide with Deoxyribonucleic Acid and Synthetic Polydeoxyribonucleotides, *Paul and Montgomery*, 315
- Nitrothiazole derivatives:** Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532
- Niridazole:** Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532
- Niridazole:** Relationship between Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604
- Nitroheterocyclic compounds:** Relationship between Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604
- 1-(5-nitro-2-thiazolyl)-2-imidazolidinone:** Relationship between Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604
- Norcodeine:** Properties of a Solubilized Form of the Cytochrome P-450-Containing Mixed-Function Oxidase of Liver Microsomes, *Lu, Strobel, and Coon*, 213
- Norepinephrine:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Norepinephrine:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Norepinephrine:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Norepinephrine:** Acetaldehyde Mediation in the Mechanism of Ethanol-Induced Changes in Norepinephrine Metabolism, *Walsh, Truitt, and Davis*, 416
- Norepinephrine:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Norepinephrine:** Catechol *O*-Methyltransferase. II. *m*- and *p*-*O*-Methylation of Catecholamines and Their Metabolites, *Creveling, Dalgard, Shimizu, and Daly*, 691
- Nuclear Magnetic Resonance:** Nuclear Magnetic Resonance Studies on Acetylcholinesterase, *Kato, Yung, and Ihnat*, 583
- Nucleic acid synthesis:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128

- 5'-Nucleotidase:** Purification and Properties of Rat Heart 5'-Nucleotidase, *Edwards and Maguire*, 641

O

- n-Octylamine:** Ligand Interaction with Hemoprotein P-450. III. The Use of *n*-Octylamine and Ethyl Isocyanide Difference Spectroscopy in the Quantitative Determination of High- and Low-Spin P-450, *Jefcoate, Calabrese, and Gaylor*, 391
- Optical rotary dispersion:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- Optical rotary dispersion:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Organ culture:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Ouabain:** Ouabain-Dependent Incorporation of ³²P from *p*-Nitrophenyl Phosphate into a Microsomal Phosphatase, *Inturrisi and Titus*, 99
- Ouabain:** The Binding of Tritiated Ouabain to Sodium- and Potassium-Activated Adenosine Triphosphatase and Cardiac Relaxing System of Perfused Dog Heart, *Allen, Besch, Glick, and Schwartz*, 441
- Ouabain:** Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557
- Oxidative phosphorylation:** The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67
- Oxytocin analogues:** Crystalline Deamino-dicarba-oxytocin. Preparation and Some Pharmacological Properties, *Yamanaka, Hase, Sakakibara, Schwartz, Dubois, and Walter*, 474
- Metabolizing Enzyme Systems of Hepatic Microsomes**, *Alvares and Mannering*, 206
- Phenobarbital:** The Effect of 3-Amino-1,2,4-triazole on the Phenobarbital-Induced Formation of Hepatic Microsomal Membranes, *Raisfeld, Bacchin, Hutterer, and Schaffner*, 231
- Phenobarbital:** The Metabolism of Ribonucleic Acid in Rat Liver after Phenobarbital Administration, *Cohen and Ruddon*, 540
- Phenobarbital:** Induction of Drug Metabolism. V. Independent Formation of Cytochromes P-450 and P₁-450 in Rats with Phenobarbital and 3-Methylcholanthrene Simultaneously, *Bidleman and Mannering*, 697
- Phenoxybenzamine:** Increased Conversion of Tyrosine to Catecholamines in the Intact Rat Following Elevation of Tissue Tyrosine Hydroxylase Levels by Administered Phenoxybenzamine, *Dairman and Udenfriend*, 350
- Phenylethanolamine N-methyltransferase:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Pineal gland:** Heterogeneity of *N*- and *O*-Methyltransferases, *Axelrod and Vesell*, 78
- Pineal gland:** Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164
- Phosphodiesterase:** Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, *Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman*, 597
- Phospholipase C:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Phospholipids:** Role of Phospholipids in the Hepatic Microsomal Drug-Metabolizing System, *Chaplin and Mannering*, 631
- Phosphorylase b kinase:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase b Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Phosphorylase phosphatase:** Relationship between Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604
- Phosphorylation:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Ethacrynic Acid: Two Modes of Action, *Banerjee, Khanna, and Sen*, 680
- Phosphatase, nucleotide:** Purification and Properties of Rat Heart 5'-Nucleotidase, *Edwards and Maguire*, 641
- Physostigmine:** On the Question: Is Acetyl-

P

- Pachycurares:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Pentaquine:** The Binding of Antimalarial Aminoquinoline to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- Phenobarbital:** Two-Substrate Kinetics of Drug-

- cholinesterase an Allosteric Protein? *Kitz, Braswell, and Ginsburg*, 108
- Pinocytosis:** Study of the Mechanism of Renal Vacuologenesi Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54
- Polycyclic hydrocarbons:** Induction of Drug Metabolism. IV. Relative Abilities of Polycyclic Hydrocarbons to Increase Levels of Microsomal 3-Methyl-4-methylaminoazobenzene *N*-Demethylase Activity and Cytochrome P₁-450, *Parli and Mannering*, 178
- Polycyclic hydrocarbon:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. I. Intracellular Entry, Binding, Distribution, and Metabolism, *Nebert and Bausserman*, 293
- Polycyclic hydrocarbon:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Polydeoxyribonucleotides:** Interaction of 4-Nitroquinoline 1-Oxide with Deoxyribonucleic Acid and Synthetic Polydeoxyribonucleotides, *Paul and Montgomery*, 315
- Polynucleotides:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- Primaquine:** The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240
- Prostaglandin E₂:** The Stimulation of Adenyl Cyclase of Rat Erythrocyte Ghosts, *Sheppard and Burghardt*, 425
- Protein synthesis:** Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128
- Protein synthesis:** Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304
- Proteolipids:** The Interaction between Atropine Sulfate and a Proteolipid from Cerebral Cortex Studied by Polarization of Fluorescence, *Rodriguez, La Torre, and De Robertis*, 122
- Purine analogues:** The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255
- Purine analogues:** Effects of 6-*N*-Allyladenosine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Purine metabolism:** Effects of 6-*N*-Allyladenosine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Purine metabolism:** Enzymatic Studies Relating to the Mode of Action of 5-Mercapto-2'-deoxyuridine, *Kalman and Bardos*, 621
- Purine metabolism:** Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, *Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman*, 597
- Purine nucleoside phosphorylase:** The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255
- Purine nucleotides:** The Effect of Adenosine and Adenine Nucleotides on the Cyclic Adenosine 3',5'-Phosphate Content of Guinea Pig Cerebral Cortex Slices, *Sattin and Rall*, 13
- Purine nucleotides:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase *b* Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Putrescine:** Effect of Levorphanol on Putrescine Transport in *Escherichia coli*, *Simon, Schapira, and Wurster*, 577
- Pyrazole:** Inhibition of Methanol and Ethanol Oxidation by Pyrazole in the Rat and Monkey *in Vivo*, *Watkins, Goodman, and Tephly*, 567
- Pyrimidine analogues:** Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Pyrimidine analogues:** Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Pyrimidine analogues:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- Pyrrolizidine alkaloids:** Metabolic Conversion of Heliotridine-Based Pyrrolizidine Alkaloids to Dehydroheliotridine, *Jago, Edgar, Smith, and Culvenor*, 402

Q

- Quinazoline derivatives:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Ame-

thopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323

R

Renal vacuologenesis: Study of the Mechanism of Renal Vacuologenesi Induced in the Rat by Ethylenediaminetetraacetate. Comparison of the Cellular Activities of Calcium and Chromium Chelates, *Schwartz, Johnson, and Doolan*, 54

Ribonucleic acid: The Binding of Antimalarial Aminoquinolines to Nucleic Acids and Polynucleotides, *Morris, Andrew, Whichard, and Holbrook*, 240

Ribonucleic acid: Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128

Ribonucleic acid metabolism: Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Cohen and Ruddon*, 540

Ribonucleic acid metabolism: The Metabolism of Ribonucleic Acid in Rat Liver after Phenobarbital Administration, *Whichard and Holbrook*, 548

Ribonucleic acid polymerase: Effect of 2,2'-(9,10-Anthrylenedimethylene)bis(2-thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335

Ribonucleic acid synthesis: Fate of Inducer during Induction of Aryl Hydrocarbon Hydroxylase Activity in Mammalian Cell Culture. II. Levels of Intracellular Polycyclic Hydrocarbon during Enzyme Induction and Decay, *Nebert and Bausserman*, 304

Ribonucleic acid synthesis: Effect of 2,2'-(9,10-Anthrylenedimethylene)bis(2-thiopseudourea) on Nucleic Acid Synthesis in Bacteria, *Saunders and Saunders*, 335

S

Schistosoma mansoni: Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532

Schistosoma mansoni: Relationship between Structure, Conformation, and Antischistosomal Activity of Nitroheterocyclic Compounds, *Robinson, Bueding, and Fisher*, 604

Schistosomes: Biochemical Effects of Niridazole on *Schistosoma mansoni*, *Bueding and Fisher*, 532

Serotonin: Heterogeneity of *N*- and *O*-Methyltransferases, *Azelrod and Vesell*, 78

Serotonin: Pineal Gland in Organ Culture. I. Inhibition by Harmine of Serotonin-¹⁴C Oxidation, Accompanied by Stimulation of Melatonin-¹⁴C Production, *Klein and Rowe*, 164

Spermidine: Effect of Levorphanol on Putrescine

Transport in *Escherichia coli*, *Simon, Schapira, and Wurster*, 577

Staphylococcus aureus: Effects of Diacetylmorphine and Related Morphinans on Some Biochemical Activities of *Staphylococcus aureus*, *Gale*, 128

Staphylococcus aureus: Effect of Morphine Derivatives on Lipid Metabolism in *Staphylococcus aureus*, *Gale*, 134

Steroid Receptor: Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Hackney, Gross, Aronow, and Pratt*, 500

Sterols, cardioactive: Inhibition of Calf Brain Membranal Sodium- and Potassium-Dependent Adenosine Triphosphatase by Cardioactive Sterols. A Binding Site Model, *Wilson, Sivit, and Hanna*, 449

Streptococcus faecium: Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323

Stomach: Mechanism of Inhibition of Histamine Synthesis in the Rat: Two Specific Gastric Histidine Decarboxylases, *Leinweber and Braun*, 146

Succinic acid: The Effect of Halothane on Electron Transport, Oxidative Phosphorylation, and Swelling in Rat Liver Mitochondria, *Miller and Hunter*, 67

Succinylcholine: Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41

Sulfhydryls: Inhibitory Sites on Sodium- and Potassium-Activated Adenosine Triphosphatase for Chlorpromazine Free Radical and Ouabain, *Akera and Brody*, 557

Sulfonylureas: Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Chan and Fain*, 513

T

Tetracycline analogues: Correlation of the Potencies of Tetracyclines *in Vitro* with a D-Ring Substituent Index, *Cammarata, Yau, Collett, and Martin*, 61

Tetracyclines: Correlation of the Potencies of Tetracyclines *in Vitro* with a D-Ring Substituent Index, *Cammarata, Yau, Collett, and Martin*, 61

Tetrahydrofolate: Reduced Nicotinamide Adenine Dinucleotide Phosphate-Dependent

- Binding of Competitive Inhibitors to Dihydrofolate Reductase, *Freudenthal, Lowe, and Hebborn*, 617
- Tetrahydrofolate dehydrogenase:** Folate Reductase of the Amethopterin-Resistant *Streptococcus faecium* var. *durans*/A_k. I. Inhibition by Amethopterin and Methasquin, a New Quinazoline Antifolate, *Albrecht and Hutchison*, 323
- Thiocholine:** The Effect of Fluoride on the Reactions of Methanesulfonates with Acetylcholinesterase, *Greenspan and Wilson*, 460
- Thioxanthenes:** Thioxanthenes: Structural Differences between Lucanthone and Its N-Methyl Derivative, *Zilversmit*, 172
- Thymidine analogue:** Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Thymidine kinase:** Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Thymidylate synthetase:** 2-Amino-4-hydroxyquinazolines as Inhibitors of Thymidylate Synthetase, *Bird, Vaitkus, and Clarke*, 573
- Thymidylate synthetase:** Enzymatic Studies Relating to the Mode of Action of 5-Mercapto-2'-deoxyuridine, *Kalman and Bardos*, 621
- Tolazamide:** Uncoupling Action of Sulfonylureas on Brown Fat Cells, *Chan and Fain*, 513
- Tolbutamide:** Uncoupling Action of Sulfonylureas on Brown Fat Cells, *Chan and Fain*, 513
- Triamcinolone acetonide:** Specific Glucocorticoid-Binding Macromolecules from Mouse Fibroblasts Growing *in Vitro*. A Possible Steroid Receptor for Growth Inhibition, *Hackney, Gross, Aronow, and Pratt*, 500
- Trypaflavin:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Tryptophan:** Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1
- Tryptophan oxygenase:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444
- 5-trifluoromethyl-2'-deoxyuridine:** Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- 5-trifluoromethyl-2'-deoxyuridine:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- Triphenylmethane dyes:** Competition for Polymeric Binding Sites between Acridine and Triphenylmethane Dyes, *Greenblatt, Sharpless, and Yamaoka*, 649
- Tubercidin 3',5'-cyclic phosphate:** Analogues of Adenosine 3',5'-Cyclic Phosphate as Activators of Phosphorylase *b* Kinase and as Substrates for Cyclic 3',5'-Nucleotide Phosphodiesterase, *Drummond and Powell*, 24
- Tubocurarine:** On the Mechanism of Desensitization at Cholinergic Receptors, *Rang and Ritter*, 357
- d-tubocurarine:** Kinetic Effects of Leptocurares and Pachycurares on the Methanesulfonylation of Acetylcholinesterase. A Correlation with Pharmacodynamic Properties, *Belleau, DiTullio, and Tsai*, 41
- Tumor cells:** Inactivation by Mouse Serum of a Tightly Bound Inhibitor of Dihydrofolate Reductase, *Fölsch and Bertino*, 93
- Tumor cells:** Thymidine Kinase as a Determinant of the Response to 5-Fluoro-2'-deoxyuridine in Transplantable Murine Leukemias, *Kessel and Wodinsky*, 251
- Tumor cells:** Fluorinated Pyrimidines. XXXVII. Effects of 5-Trifluoromethyl-2'-deoxyuridine on the Synthesis of Deoxyribonucleic Acid of Mammalian Cells in Culture, *Fujiwara, Oki, and Heidelberg*, 273
- Tumor cells:** Fluorinated Pyrimidines. XXXVIII. The Incorporation of 5-Trifluoromethyl-2'-deoxyuridine into the Deoxyribonucleic Acid of Vaccinia Virus, *Fujiwara and Heidelberg*, 281
- Tumor cells:** Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345
- Tumor cells:** Effects of 6-*N*-Allyladenine on Bacterial and Mammalian Cells, *Hill and Straight*, 468
- Tumor cells:** 2-Amino-4-hydroxyquinazolines as Inhibitors of Thymidylate Synthetase, *Bird, Vaitkus, and Clarke*, 573
- Tyrosine:** Immunofluorescent Localization of Dopamine β -Hydroxylase in Tissues, *Hartman and Udenfriend*, 85
- Tyrosine:** Increased Conversion of Tyrosine to Catecholamines in the Intact Rat Following Elevation of Tissue Tyrosine Hydroxylase Levels by Administered Phenoxylbenzamine, *Dairman and Udenfriend*, 350
- Tyrosine aminotransferase:** Kinetics of Induction of Rat Liver Enzymes by Glucocorticoids, *Haining*, 444

Tyrosine hydroxylase: Increased Conversion of Tyrosine to Catecholamines in the Intact Rat Following Elevation of Tissue Tyrosine Hydroxylase Levels by Administered Phenoxybenzamine, *Dairman and Udenfriend*, 350

U

Uterus, rat: Crystalline Deamino-dicarba-oxytocin Preparation and Some Pharmacological Properties, *Yamanaka, Hase, Sakakibara, Schwartz, Dubois, and Walter*, 474

V

Vasodilation: Purification and Properties of Rat Heart 5'-Nucleotidase, *Edwards and Maguire*, 641

Vincristine: Altered Glycosidase Levels in Drug-Resistant Mouse Leukemias, *Bosmann and Kessel*, 345

W

Warfarin: Optical Studies of Drug-Protein Complexes. IV. The Interaction of Warfarin and Dicoumarol with Human Serum Albumin, *Chignell*, 1

X

Xanthine derivatives: Effects of Xanthine Derivatives on Lipolysis and on Adenosine 3',5'-Monophosphate Phosphodiesterase Activity, *Beavo, Rogers, Crofford, Hardman, Sutherland, and Newman*, 597

Xanthine oxidase: The Interaction of the Nucleoside Analogues, Formycins A and B, with Xanthine Oxidase and Hepatic Aldehyde Oxidase, *Sheen, Martin, and Parks*, 255

Z

Yeast: Analogues of Methionine as Substrates and Inhibitors of the Methionine Adenosyltransferase Reaction. Deductions Concerning the Conformation of Methionine, *Lombardini, Coulter, and Talalay*, 481
