- Acetylcholine, conformation:** The Conformation of Acetylcholine and Related Compounds in Aqueous Solution as Studied by Nuclear Magnetic Resonance Spectroscopy, *Partington, Feeney, and Burgen*, 269
- Acetylcholine, conformation:** On the Conformation of Acetylcholine and Acetylthiocholine, *Pullman and Courrière*, 371
- Acetylcholine, conformation:** Further Molecular Orbital Studies on the Conformation of Acetylcholine and Its Derivatives, *Pullman and Courrière*, 612
- Acetylcholine release:** Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: an Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowicka, and Stern*, 264
- Acetylcholinesterase:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Acetylcholinesterase:** Acetylcholinesterase. I. A Study by Nuclear Magnetic Resonance of the Binding of Inhibitors to the Enzyme, *Kato*, 575
- Acetylcholinesterase:** Acetylcholinesterase. II. A Study by Nuclear Magnetic Resonance of the Acceleration of Acetylcholinesterase by Atropine and Inhibition by Eserine, *Kato*, 582
- Acetylcholinesterase:** Purification and Fractionation of Acetylcholinesterase into Subspecies by Affinity Chromatography on a *d*-Tubocurarine-Sepharose Column, *Jung and Belleau*, 589
- N-Acetylhydrazole,** Reaction of *N*-Acetylhydrazole with L-Asparaginase, *Shifrin and Solis*, 561
- Acrylamide gels, double-labeling:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Actinomycin D:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Activation energy:** The Effects of Temperature and Substrates on Component Reactions of the Hepatic Microsomal Mixed-Function Oxidase, *Schenkman*, 178
- Adenine nucleotides:** Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Adenosine:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Adenosine analogues:** Kinetics of Adenosine Uptake by Erythrocytes, and the Influence of Dipyridamole, *Roos and Pfeiffer*, 417
- Adenosine diphosphate analogues:** Analogues of Adenosine 5'-Diphosphate—New Platelet Aggregators: Influence of Purine Ring and Phosphate Chain Substitutions on the Platelet-Aggregating Potency of Adenosine 5'-Diphosphate, *Gough, Maguire, and Penglis*, 170
- Adenosine triphosphatase, Mg<sup>++</sup>-dependent:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the Mg<sup>++</sup>-Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Adenosine triphosphatase, isolation:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the Mg<sup>++</sup>-Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Adenosine triphosphatase (Na<sup>+</sup> + K<sup>+</sup>):** Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase. VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Hellebrigenin, *Yoda and Hokin*, 30
- Adenosine triphosphatase (Na<sup>+</sup> + K<sup>+</sup>):** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Digoxin Cova-

- lently Bound to Sepharose, *Okarma, Tramell and Kalman*, 476
- Adenosine triphosphatase ( $\text{Na}^+ + \text{K}^+$ ):** Evidence for Two Forms of Fluoride-Treated Sodium- and Potassium-Dependent Adenosine Triphosphatase, *Penzotti and Titus*, 149
- Adenosine triphosphatase ( $\text{Na}^+ + \text{K}^+$ ):** Nucleotide Specificity of the  $\text{Na}^+$ -Stimulated Phosphorylation and  $[^3\text{H}]$ Ouabain-Binding Reactions of ( $\text{Na}^+ + \text{K}^+$ )-Dependent Adenosine Triphosphatase, *Tobin, Baskin, Akera, and Brody*, 256
- Adenosine triphosphatase ( $\text{Na}^+ + \text{K}^+$ ):** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. I. Effects on Sodium-Sensitive Phosphorylation and Potassium-Sensitive Dephosphorylation, *Banerjee, Wong, Khanna, and Sen*, 8
- Adenosine triphosphatase ( $\text{Na}^+ + \text{K}^+$ ):** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. II. Effects on Sodium-Activated Transphosphorylation, *Banerjee, Wong, and Sen*, 18
- Adenosine triphosphate-catecholamine interaction:** Interactions of Catecholamines with Adenosine Triphosphate in Solutions and Adrenal Medullary Granules, *Pai and Maynert*, 82
- Adenosine triphosphate-norepinephrine complexes:** Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Adenosine triphosphate-serotonin complex:** Investigation into the Association between Serotonin and Adenosine Triphosphate *in Vitro* by Nuclear Magnetic Resonance and Ultraviolet Spectroscopy, *Nogrady, Hrdina, and Ling*, 565
- S-Adenosylmethionine, metabolism:** The Enzymatic Formation of Methanol from S-Adenosylmethionine by Various Tissues of the Rat, *Ciaranello, Dankers, and Barchas*, 311
- S-Adenosylmethionine, methyl transfer:** Catechol *O*-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- Adrenal corticosteroids:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras and Piras*, 780
- Adrenalectomy, aryl hydroxylase activity:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Adrenal gland, denervation:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Adrenal medulla:** Electrophoretic Properties of Dopamine  $\beta$ -Hydroxylase in Several Tissues from Three Species, *Ross, Weinshilboum, Molinoff, Vesell, and Axelrod*, 50
- Adrenal medulla:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the  $\text{Mg}^{++}$ -Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Adrenal medulla:** Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: an Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowicka, and Stern*, 264
- Adrenal medullary granules:** Interactions of Catecholamines with Adenosine Triphosphate in Solutions and Adrenal Medullary Granules, *Pai and Maynert*, 82
- Adrenal phenylethanolamine *N*-methyltransferase:** Regulation of Adrenal Phenylethanolamine *N*-Methyltransferase Activity in Three Inbred Mouse Strains, *Ciaranello, Dornbusch, and Barchas*, 511
- Adrenalectomy:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- $\beta$ adrenergic antagonists:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Adrenergic receptors:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fiszer de Plazas, and De Robertis*, 215
- Affinity chromatography:** Purification and Fractionation of Acetylcholinesterase into Subspecies by Affinity Chromatography on a *d*-Tubocurarine-Sepharose Column, *Jung and Belleau*, 589
- Affinity labelling:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Albumin-novobiocin binding:** Induced Conformational Changes in Novobiocin, *Brand and Toribara*, 751
- Albumin, penicillamine and Cu complex:** Evidence for a Ternary Complex Containing Al-

- bumin. Copper, and Penicillamine, *Sugiura and Tanaka*, 249
- Alloxan:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- Amethopterin resistance:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Amiloride:** The Role of Calcium Ions in the Interaction of Amiloride with Membrane Receptors, *Cuthbert and Wong*, 222
- Amino acid decarboxylase:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Amino acid sequence:** The Amino Acid Sequence of Cytotoxin II from the Venom of the Indian Cobra (*Naja naja*), *Takechi, Hayashi, and Sasaki*, 446
- Amino group modification:** Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin, and Ng*, 426
- Aminophylline:** Adenosine 3',5'-Monophosphate Concentrations and Isoproterenol-Induced Synthesis of Deoxyribonucleic Acid in Mouse Parotid Gland, *Guidotti, Weiss, and Costa*, 521
- Anthracycline:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Antibiotics, bleomycin:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Antibody, phenylalanine hydroxylase:** Production of Antibodies to Rat Liver Phenylalanine Hydroxylase Cross-reactivity with Other Pterin-Dependent Hydroxylases, *Friedman, Lloyd, and Kaufman*, 501
- Anticoagulants:** Warfarin Binding to Microsomes Isolated from Normal and Warfarin-Resistant Rat Liver, *Lorusso and Suttie*, 197
- Antihistamines:** Histamine Methyltransferase: Inhibition and Potentiation by Antihistamines, *Taylor and Snyder*, 300
- Anti-inflammatory agents:** Physicochemical Properties and Uncoupling Activity of 3'-Substituted Analogues of *N*-Phenylanthranilic Acid, *Terada and Muraoka*, 95
- Antimetabolites:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Antimetabolites:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Antimetabolites:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylcytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Momparler*, 362
- Antimetabolites:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- Antimetabolites:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Antimetabolites:** Isohomoaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavik, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Anti-neoplastic agents:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Antineoplastic agents:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylecytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Momparler*, 362
- Antineoplastic agents:** The Amino Acid Sequence of Cytotoxin II from the Venom of the Indian Cobra (*Naja naja*), *Takechi, Hayashi, and Sasaki*, 446
- Antineoplastic agents:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Antitumor, antibiotic:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Arabinofuranosylcytosine 5'-triphosphate:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylcytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Momparler*, 362
- Artificial lipid membranes:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fiszler, de Plazas, and De Robertis*, 215
- Aryl hydrocarbon hydroxylase:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Aryl hydrocarbon hydroxylase:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of

- n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Aryl hydrocarbon hydroxylase:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Ascites cells:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- Ascites cells:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Ascorbic acid:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- L-Asparaginase, quarternary structure:** Modification of L-Asparaginase by Subunit Cross-Linking with Dimethylsuberimidate, *Handschumacher and Gaumont*, 59
- L-Asparaginase, inhibition:** Reaction of *N*-Acetylimidazole with L-Asparaginase, *Shifrin and Solis*, 561
- L-Asparaginase, tyrosyl modification:** Reaction of *N*-Acetylimidazole with L-Asparaginase, *Shifrin and Solis*, 561
- Atropine, binding to acetylcholinesterase:** Acetylcholinesterase. II. A Study by Nuclear Magnetic Resonance of the Acceleration of Acetylcholinesterase by Atropine and Inhibition by Eserine, *Kato*, 582
- Aurintricarboxylic acid:** Effects of Aurintricarboxylic Acid on Ribosomes and the Biosynthesis of Globin in Rabbit Reticulocytes, *Huang and Grollman*, 111
- B**
- Bacillus megaterium:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Bacteriophage viability:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lotlikar, Fukuda, and Yamamoto*, 645
- Benzo[a]pyrene:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Benzo[a]pyrene hydroxylation:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction. IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- 3,4-Benzpyrene hydroxylase, properties:** Reconstituted Liver Microsomal Enzyme System That Hydroxylates Drugs, Other Foreign Compounds, and Endogenous Substrates. III. Properties of the Reconstituted 3,4-Benzpyrene Hydroxylase System, *Lu and West*, 490
- Biogenic amines, oxidation:** Kinetic Studies on Rat Brain Monoamine Oxidase *Husztli*, 385
- Bleomycin, DNA degradation:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Brain slices:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- C**
- Calcium, acetylcholinesterase antagonism:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Calcium, relation to amiloride:** The Role of Calcium Ions in the Interaction of Amiloride with Membrane Receptors, *Cuthbert and Wong*, 222
- Camptothecin:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Cancer chemotherapy:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Cancer chemotherapy:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Cancer chemotherapy:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylecytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Mompalmer*, 362
- Cancer chemotherapy:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- Cancer chemotherapy:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Cancer chemotherapy:** Isohomooaminopterin and Isohomofolic Acid Synthesis and Basic

- Biochemical and Biological Properties, *Slavík, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Cancer chemotherapy**: Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Carbachol**: Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 637
- Carbon monoxide, oxidase sensitivity**: An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- Carcinogens**: Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[a]-anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, Gielen, Oesch, and Daly*, 374
- Carcinogens**: Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lollikar, Fukuda, and Yamamoto*, 645
- Cardiac glycosides, covalent coupling**: Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Digoxin Covalently Bound to Sepharose, *Okarma, Tramell, and Kalman*, 476
- Cardiotonic steroids, fluorescent derivatives**: Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase. VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Hellebrigenin, *Yoda and Hokin*, 30
- Catecholamine-adenosine triphosphate interaction**: Interactions of Catecholamines with Adenosine Triphosphate in Solutions and Adrenal Medullary Granules, *Pai and Maynert*, 82
- Catecholamine release**: Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: an Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowecka, and Stern*, 264
- Catecholamines, biosynthetic enzymes**: Regulation of Adrenal Phenylethanolamine N-Methyltransferase Activity in Three Inbred Mouse Strains, *Ciaranello, Dornbusch, and Barchas*, 511
- Catecholamines, cyclic AMP levels**: Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Catecholamine storage**: Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the  $Mg^{++}$ -Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Catecholamine storage**: Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Catecholamines**: Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman, and Udenfriend*, 293
- Catecholamines**: Inhibition of a Cyclic Nucleotide Phosphodiesterase from Beef Heart by Catecholamines and Related Compounds, *Goren and Rosen*, 380
- Catechol O-methyltransferase**: Catechol O-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- Catechol-O-methyltransferase**: Chemical Structure-Activity Correlation in the O-Methylation of Substituted Catechols by Catechol O-Methyltransferase, *Katz and Jacobson*, 594
- Catechols, O-methylation**: Catechol O-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- Catechols, O-methylation**: Chemical Structure-Activity Correlation in the O-Methylation of Substituted Catechols by Catechol O-Methyltransferase, *Katz and Jacobson*, 594
- Cell cultures, fetal rat brain**: Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Cell cultures, L1210**: Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Chain termination**: Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylecytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Mompalmer*, 362
- p-Chlorophenylalanine**: Effect of *p*-Chlorophenylalanine on Hydroxylation of Tryptophan in Pineal and Brain of Rats, *Deguchi and Barchas*, 770
- Chlorpromazine**: Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin and Ng*, 426
- Cholinergic receptors**: Blockade of Acetylcholine Receptors by Cobra Toxin: Electrophysiological Studies, *Lester*, 623

- Cholinergic receptors:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetylcholine Receptor in the Electrophax, *Prives, Reiter, Cowburn, and Karlin*, 786
- Cholinergic receptors:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Chromaffin granule ATPase:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the  $Mg^{++}$ -Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Chromomycin A<sub>1</sub>:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Circular dichroism, deoxyribonucleic acid complexes:** Binding and Circular Dichroism Studies on Interactions of Lysergic Acid Diethylamide with Deoxyribonucleic Acid, *Bush, Pesce, Gaizutis, and Nair*, 104
- Circular dichroism, novobiocin:** Induced Conformational Changes in Novobiocin, *Brand and Toribara*, 751
- Cobra neurotoxin:** Blockade of Acetylcholine Receptors by Cobra Toxin: Electrophysiological Studies, *Lester*, 623
- Cobra neurotoxin:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetylcholine Receptor in the Electrophax, *Prives, Reiter, Cowburn, and Karlin*, 786
- Cobra neurotoxin:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Cobra toxin:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Colchicine, anticholinergic activity:** Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: an Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowecka, and Stern*, 264
- Conformational changes, fluorescence probes:** Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase. VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Helbrigenin, *Yoda, and Hokin*, 30
- Conformation, cholinergic agents:** The Conformation of Acetylcholine and Related Compounds in Aqueous Solution as Studied by Nuclear Magnetic Resonance Spectroscopy, *Partington, Feeney, and Burgen*, 269
- Conformation, cholinergic agents:** On the Conformation of Acetylcholine and Acetylthiocholine, *Pullman and Courrière*, 371
- Conformation, cholinergic agents:** Further Molecular Orbital Studies on the Conformation of Acetylcholine and Its Derivatives, *Pullman and Courrière*, 612
- Conformation, local anesthetics:** Quantum-Mechanical Study of the Conformational Properties of Drugs with Local Anesthetic Action, *Coubeils and Pullman*, 278
- Conformation, synthetic estrogens:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438
- Conformational changes ATPase:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. II. Effects on Sodium-Activated Transphosphorylation, *Banerjee, Wong, and Sen*, 18
- Conformational changes, ATPase:** Evidence for Two Forms of Fluoride-Treated Sodium- and Potassium-Dependent Adenosine Triphosphatase, *Penzotti and Titus*, 149
- Copper, penicillamine and albumin complex:** Evidence for a Ternary Complex Containing Albumin, Copper, and Penicillamine, *Sugiura and Tanaka*, 249
- Cordycepin:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Cyclic nucleotide phosphodiesterase, inhibition:** Inhibition of a Cyclic Nucleotide Phosphodiesterase from Beef Heart by Catecholamines and Related Compounds, *Goren and Rosen*, 380
- Cyclic adenosine 3',5'-monophosphate:** Increase of Hepatic L-Phenylalanine: Pyruvate Aminotransferase by Glucagon in Rats: Possible Role of Adenosine Cyclic 3',5'-Monophosphate as a Mediator, *Fuller, Snoddy, and Bromer*, 345
- Cyclic adenosine 3',5'-monophosphate:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Cyclic adenosine 3',5'-monophosphate, DNA synthesis:** Adenosine 3',5'-Monophosphate Concentrations and Isoproterenol-Induced Synthesis of Deoxyribonucleic Acid in Mouse Parotid Gland, *Guidotti, Weiss, and Costa*, 521
- Cyclic adenosine 3',5'-monophosphate:** Inhibition of a Cyclic Nucleotide Phosphodiesterase from Beef Heart by Catecholamines and Related Compounds, *Goren and Rosen*, 380
- Cytochrome c reductase:** The Effect of Pheno-

- barbital on the Synthesis of Nascent Protein on Free and Membrane-Bound Polyribosomes of Normal and Regenerating Liver, *Glazer and Sartorelli*, 701
- Cytochrome P-420:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Cytochrome P-420:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 711
- Cytochrome P-448:** Reconstituted Liver Microsomal Enzyme System That Hydroxylates Drugs, Other Foreign Compounds, and Endogenous Substrates. III. Properties of the Reconstituted 3,4-Benzpyrene Hydroxylase System, *Lu and West*, 490
- Cytochrome P-450:** The Effect of Piperonyl Butoxide Concentration on the Formation of Cytochrome P-450 Difference Spectra in Hepatic Microsomes from Mice, *Philpot and Hodgson*, 204
- Cytochrome P-450:** Altered Microsome Function during Acute Thioacetamide Poisoning, *Barker and Smuckler*, 318
- Cytochrome P-450:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Cytochrome P-450:** Inhibition by Deuterated Water of the Mixed-Function Oxidases of Hepatic Microsomes of the Male Rat, *Holtzman and Carr*, 481
- Cytochrome P-450:** Reconstituted Liver Microsomal Enzyme System That Hydroxylates Drugs, Other Foreign Compounds, and Endogenous Substrates. III. Properties of the Reconstituted 3,4-Benzpyrene Hydroxylase System, *Lu and West*, 490
- Cytochrome P-450:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction. III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Cytochrome P-450:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction. IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, Gielen*, 667
- Cytochrome P-450:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 711
- Cytochrome P-450:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 723
- Cytochrome P-450 reductase:** The Effects of Temperature and Substrates on Component Reactions of the Hepatic Microsomal Mixed-Function Oxidase, *Schenkman*, 178
- Cytotoxins:** The Amino Acid Sequence of Cytotoxin II from the Venom of the Indian Cobra (*Naja naja*), *Takechi, Hayashi, and Sasaki*, 446
- D**
- Daunomycin:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Daunomycin:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- N-dealkylation:** Altered Microsome Function during Acute Thioacetamide Poisoning, *Barker and Smuckler*, 318
- Decamethonium:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Decamethonium:** Purification and Fractionation of Acetylcholinesterase into Subspecies by Affinity Chromatography on a *d*-Tubocurarine-Sepharose Column, *Jung and Belleau*, 589
- Desensitization:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Deoxyribonucleic acid, degradation:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Deoxyribonucleic acid, drug binding:** Binding and Circular Dichroism Studies on Interactions of Lysergic Acid Diethylamide with Deoxyribonucleic Acid, *Bush, Pesce, Gaizutis, and Nair*, 104
- Deoxyribonucleic acid, intercalation:** Binding and Circular Dichroism Studies on Interactions of Lysergic Acid Diethylamide with Deoxyribonucleic Acid, *Bush, Pesce, Gaizutis, and Nair*, 104
- Deoxyribonucleic acid, intercalation:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Deoxyribonucleic acid polymerase:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosylcytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Momparker*, 362
- Deoxyribonucleic acid synthesis:** Adenosine 3',5'-Monophosphate Concentrations and Isoproterenol-Induced Synthesis of Deoxyribonucleic Acid in Mouse Parotid Gland, *Guidotti, Weiss, and Costa*, 521

- Deoxyribonucleic acid templates:** Kinetic and Template Studies with 1- $\beta$ -D-Arabinofuranosyleytosine 5'-Triphosphate and Mammalian Deoxyribonucleic Acid Polymerase, *Momparker*, 362
- Deuterated water, oxidase inhibition:** Inhibition by Deuterated Water of the Mixed-Function Oxidases of Hepatic Microsomes of the Male Rat, *Holtzman and Carr*, 481
- Dialuric acid:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- Diethylstilbestrol:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438
- Diffusion of drugs:** The Kinetics of the Interaction between Tetrodotoxin and Mammalian Nonmyelinated Nerve Fibers, *Colquhoun and Ritchie*, 285
- Difference spectra, types I, II, and III:** The Effect of Piperonyl Butoxide Concentration on the Formation of Cytochrome P-450 Difference Spectra in Hepatic Microsomes from Mice, *Philpot and Hodgson*, 204
- Digoxin-sepharose beads:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Digoxin Covalently Bound to Sepharose, *Okarma, Tramell, and Kalman*, 476
- Dihydro- $\beta$ -erythroidine:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Dihydrofolate reductase:** Isohomoaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavik, Čihák, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Dihydrofolate reductase:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Dihydrohomofolic acid:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Dihydroxyphenylalanine:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Dimethyl suberimidate:** Modification of L-Asparaginase by Subunit Cross-linking with Dimethylsuberimidate, *Handschumacher and Gaumond*, 59
- 7,12-dimethylbenz[a]anthracene:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[a]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Dipyridamole, transport inhibition:** Kinetics of Adenosine Uptake by Erythrocytes, and the Influence of Dipyridamole, *Roos and Pfeleger*, 417
- Dopamine  $\beta$ -hydroxylase:** Electrophoretic Properties of Dopamine  $\beta$ -Hydroxylase in Several Tissues from Three Species, *Ross, Weinshilboum, Molinoff, Vesell, and Axelrod*, 50
- Dopamine, uptake:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- Drug kinetics, biophase model:** The Kinetics of the Interaction between Tetrodotoxin and Mammalian Nonmyelinated Nerve Fibers, *Colquhoun and Ritchie*, 285
- Drug metabolism:** The Effect of Piperonyl Butoxide Concentration on the Formation of Cytochrome P-450 Difference Spectra in Hepatic Microsomes from Mice, *Philpot and Hodgson*, 204
- Drug metabolism, CO sensitive:** An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- Drug metabolism, control:** The Effects of Temperature and Substrates on Component Reactions of the Hepatic Microsomal Mixed-Function Oxidase, *Schenkman*, 178
- Drug metabolism, control:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Drug metabolism, control:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339

## E

- Electron paramagnetic resonance:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 711
- Electron paramagnetic resonance:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 722
- Electroplax, affinity labeling:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetylcholine Receptor in the Electroplax, *Prives, Reiter, Cowburn, and Karlin*, 786

- Ellipticene:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- End Plate Potentials:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Epinephrine:** Increase of Hepatic L-Phenylalanine:Pyruvate Aminotransferase by Glucagon in Rats: Possible Role of Adenosine Cyclic 3',5'-Monophosphate as a Mediator, *Fuller, Snoddy, and Bromer*, 345
- Epinephrine:** Inhibition of a Cyclic Nucleotide Phosphodiesterase from Beef Heart by Catecholamines and Related Compounds, *Goren and Rosen*, 380
- Epinephrine:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Epithelial cells, frog:** <sup>3</sup>H-Oxytocin Binding Sites in the Isolated Frog Skin Epithelium: Relation to the Physiological Response, *Bockaert, Imbert, Jard, and Morel*, 230
- Epoxide hydrazase:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrazase, and 7,12-Dimethylbenz[a]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Equilibrium dialysis:** Binding Properties of Bovine Neurophysins I and II: An Equilibrium Dialysis Study, *Breslow and Walter*, 75
- Erythrocytes, adenosine uptake:** Kinetics of Adenosine Uptake by Erythrocytes, and the Influence of Dipyrindamole, *Roos and Pfeiffer*, 417
- Erythrocyte isozymes:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Eserine, binding to acetylcholinesterase:** Acetylcholinesterase. II. A Study by Nuclear Magnetic Resonance of the Acceleration of Acetylcholinesterase by Atropine and Inhibition by Eserine, *Kato*, 582
- Estrogen receptors:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438
- Ethidium:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Ethylisocyanide:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Ethylmorphine N-demethylase:** Inhibition by Deuterated Water of the Mixed-Function Oxidases of Hepatic Microsomes of the Male Rat, *Holtzman and Carr*, 481
- F**
- Fetal brain cell cultures:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Flavones:** Genetic Expression of Aryl Hydrocarbon hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Flavones:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Flufenamic acid:** Physicochemical Properties and Uncoupling Activity of 3'-Substituted Analogues of *N*-Phenylanthranilic Acid, *Terada and Muraoka*, 95
- Fluorene derivatives:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lottikar, Fukuda, and Yamamoto*, 645
- Fluorescent probes, site directed:** Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase. VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Hellebrigenin, *Yoda and Hokin*, 30
- Fluoride, ATPase inhibition:** Evidence for Two Forms of Fluoride-Treated Sodium- and Potassium-Dependent Adenosine Triphosphatase, *Penzotti and Titus*, 149
- Fluorinated nucleotides:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- Fluorinated pyrimidines:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- 5-Fluorodeoxyuridine 5'-monophosphate:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberg*, 465
- Fluoromalate:** Studies with Specific Enzyme Inhibitors. XIV. The Effects of Enzymatically Synthesized (-)-erythro-Fluoromalic Acid on Malate Dehydrogenase and on Anion

- Carriers of Liver Mitochondria, *Skilleter, Dummel, and Kun*, 139
- 5-Fluorouracil:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- 5-Fluorouridine 5'-diphosphate.** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberger*, 465
- Folic acid analogues:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Folic acid analogues:** Isohomoaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavik, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Frog myoneural junction:** Blockade of Acetylcholine Receptors by Cobra Toxin: Electrophysiological Studies, *Lester*, 623
- Frog myoneural junction:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Frog skin:** The Role of Calcium Ions in the Interaction of Amiloride with Membrane Receptors, *Cuthbert and Wong*, 222
- Frog skin:** <sup>3</sup>H-Oxytocin Binding Sites in the Isolated Frog Skin Epithelium: Relation to the Physiological Response, *Bockaert, Imbert, Jard, and Morel*, 230
- G**
- Gallamine:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Gene expression:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Genetic regulation of enzymes:** Regulation of Adrenal Phenylethanolamine *N*-Methyltransferase Activity in Three Inbred Mouse Strains, *Ciaranello, Dornbusch, and Barchas*, 511
- Genomes:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lotlikar, Fukuda, and Yamamoto*, 645
- Globin synthesis:** Effects of Aurintricarboxylic Acid on Ribosomes and the Biosynthesis of Globin in Rabbit Reticulocytes, *Huang and Grollman*, 111
- Globin synthesis:** Mode of Action of Tylocerebrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Glucagon:** Increase of Hepatic L-Phenylalanine: Pyruvate Aminotransferase by Glucagon in Rats: Possible Role of Adenosine Cyclic 3',5'-Monophosphate as a Mediator, *Fuller, Snoddy, and Bromer*, 345
- Glucose, insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Glucose oxidation:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Glucose receptor:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Glucose transport:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Glycogen metabolism:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Glycogen phosphorylase:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Glycogen synthetase:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Guanylate kinase:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- H**
- HeLa cells:** Isohomoaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavik, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- HeLa cells:** Mode of Action of Tylocerebrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Hellebrigenin sulfonaphthyl hydrazone:**

- Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase. VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Hellebrigenin, *Yoda and Hokin*, 30
- Hepatic organelle interaction:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Hepatic organelle interaction:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Hepatocyte nuclei, nucleic acids:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Histamine:** Histamine Methyltransferase: Inhibition and Potentiation by Antihistamines, *Taylor and Snyder*, 300
- Histamine methyltransferase:** Histamine Methyltransferase: Inhibition and Potentiation by Antihistamines, *Taylor and Snyder*, 300
- Homofolic acid:** Lack of Intracellular Conversion of Dihydrohomofolate to Tetrahydrohomofolate in Leukemia Cells with High Levels of Dihydrofolate Reductase, *Nahas and Friedkin*, 353
- Hydrogen peroxide:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- N*-Hydroxy-2-acetylaminofluorene:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lollikar, Fukuda, and Yamamoto*, 645
- N*-Hydroxy-2-aminofluorene:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lollikar, Fukuda, and Yamamoto*, 645
- 5-Hydroxydopamine:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- 6-Hydroxydopamine:** Further Studies on the Generation of Hydrogen Peroxide by 6-Hydroxydopamine: Potentiation by Ascorbic Acid, *Heikkila and Cohen*, 241
- Hypophysectomy:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Hypophysectomy, hydroxylase activity:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- I
- Induction of microsomal oxidases:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[*a*]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Induction of microsomal oxidases:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Induction of microsomal oxidases:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Induction, prophase:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lollikar, Fukuda, and Yamamoto*, 645
- Infrared spectroscopy:** Interactions of Catecholamines with Adenosine Triphosphate in Solutions and Adrenal Medullary Granules, *Pai and Maynert*, 82
- Infrared spectroscopy:** Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Islets of Langerhans:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Isocitrate:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Isoelectrofocusing:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Isohomoaminopterin:** Isohomoaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavik*,

- Čihař, Souček, Hermanová, Přistoupilová, and Slavíková, 740
- Isohomofolic acid:** Isohomooaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavík, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Isoproterenol, parotid hyperplasia:** Adenosine 3',5'-Monophosphate Concentrations and Isoproterenol-Induced Synthesis of Deoxyribonucleic Acid in Mouse Parotid Gland, *Guidotti, Weiss, and Costa*, 521
- Isozymes, dopamine  $\beta$ -hydroxylase:** Electrophoretic Properties of Dopamine  $\beta$ -Hydroxylase in Several Tissues from Three Species, *Ross, Weinshilbom, Molinoff, Vesell, and Axelrod*, 50
- Isozymes, electrophoretic behavior:** Electrophoretic Properties of Dopamine  $\beta$ -Hydroxylase in Several Tissues from Three Species, *Ross, Weinshilbom, Molinoff, Vesell, and Axelrod*, 50
- Isozymes, guanylate kinase:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV. Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Isozymes, monoamine oxidase:** Kinetic Studies on Rat Brain Monoamine Oxidase, *Husztí*, 385
- K**
- Kinetics, tetrodotoxin:** The Kinetics of the Interaction between Tetrodotoxin and Mammalian Nonmyelinated Nerve Fibers, *Colquhoun and Ritchie*, 285
- L**
- Levorphanol, affinity label:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Liver growth:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Liver hypertrophy:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Liver mitochondria:** Studies with Specific Enzyme Inhibitors. XIV. The Effects of Enzymatically Synthesized (–)-erythro-Fluoromalic Acid on Malate Dehydrogenase and on Anion Carriers of Liver Mitochondria, *Skilleter, Dummel, and Kun*, 139
- Liver, nucleic acid content:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Liver, regeneration:** The Effect of Phenobarbital on the Synthesis of Nascent Protein on Free and Membrane-Bound Polyribosomes of Normal and Regenerating Liver, *Glazer and Sartorelli*, 701
- Local anesthetics:** Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin and Ng*, 426
- Local anesthetics, conformation:** Quantum-Mechanical Study of the Conformational Properties of Drugs with Local Anesthetic Action, *Coubeils and Pullman*, 278
- Lysergic acid diethylamide, intercalation:** Binding and Circular Dichroism Studies on Interactions of Lysergic Acid Diethylamide with Deoxyribonucleic Acid, *Bush, Pesce, Gaizutis, and Nair*, 104
- M**
- Magnesium-adenosine triphosphate interaction:** Interactions of Catecholamines with Adenosine Triphosphate in Solutions and Adrenal Medullary Granules, *Pai and Maynert*, 82
- Malate dehydrogenase:** Studies with Specific Enzyme Inhibitors. XIV. The Effects of Enzymatically Synthesized (–)-erythro-Fluoromalic Acid on Malate Dehydrogenase and on Anion Carriers of Liver Mitochondria, *Skilleter, Dummel, and Kun*, 139
- Mannoheptulose:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Mannoheptulose, insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Membrane-bound ATPase:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the  $Mg^{++}$ -Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159
- Membranes, lipid-protein interaction:** Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin and Ng*, 426
- Membrane probe:** Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin and Ng*, 426
- Membrane proteins, chromaffin granule:** Membranes of Adrenal Chromaffin Granules: Solubilization and Partial Characterization of the  $Mg^{++}$ -Dependent Adenosine Triphosphatase, *Trifaró and Warner*, 159

- Membrane transport:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Mercurial sulfhydryl reagent:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 711
- Mersalyl:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Mersalyl:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 722
- Methanol, enzymatic formation:** The Enzymatic Formation of Methanol from S-Adenosylmethionine by Various Tissues of the Rat, *Ciaranello, Dankers, and Barchas*, 311
- O-Methyl catechols:** Chemical Structure-Activity Correlation in the O-Methylation of Substituted Catechols by Catechol O-Methyltransferase, *Katz and Jacobson*, 594
- O-Methyl catechols:** Catechol O-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- 3-Methylcholanthrene:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Methylation, enzyme specificity:** Catechol O-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- Micellar complexes:** Investigation into the Association between Serotonin and Adenosine Triphosphate *in Vitro* by Nuclear Magnetic Resonance and Ultraviolet Spectroscopy, *Nogrady, Hrdina, and Ling*, 565
- Microsomal enzyme induction, cell culture:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Microsomal oxidases:** The Effect of Piperonyl Butoxide Concentration on the Formation of Cytochrome P-450 Difference Spectra in Hepatic Microsomes from Mice, *Philpot and Hodgson*, 204
- Microsomal oxidases:** Reconstituted Liver Microsomal Enzyme System That Hydroxylates Drugs, Other Foreign Compounds, and Endogenous Substrates. III. Properties of the Reconstituted 3,4-Benzpyrene Hydroxylase System, *Lu and West*, 490
- Microsomal oxidases:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Microsomal oxidases:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 711
- Microsomal oxidases, D<sub>2</sub>O inhibition:** Inhibition by Deuterated Water of the Mixed-Function Oxidases of Hepatic Microsomes of the Male Rat, *Holtzman and Carr*, 481
- Microsomal oxidases, rate limitation:** The Effects of Temperature and Substrates on Component Reactions of the Hepatic Microsomal Mixed-Function Oxidase, *Schenkman*, 178
- Microsomal oxidases, stoichiometry:** An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- Microsomal oxidases, temperature:** The Effects of Temperature and Substrates on Component Reactions of the Hepatic Microsomal Mixed-Function Oxidase, *Schenkman*, 178
- Microsomal oxidases:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[a]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Microsomal oxidases:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Microsomes, reconstitution:** Reconstituted Liver Microsomal Enzyme System That Hydroxylates Drugs, Other Foreign Compounds, and Endogenous Substrates. III. Properties of the Reconstituted 3,4-Benzpyrene Hydroxylase System, *Lu and West*, 490
- Microsomes, thioacetamide effects:** Altered Microsome Function during Acute Thioacetamide Poisoning, *Barker and Smuckler*, 318
- Microsomes, warfarin binding:** Warfarin Binding to Microsomes Isolated from Normal and Warfarin-Resistant Rat Liver, *Lorusso and Suttie*, 197
- Microtubules, catecholamine release:** Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: an Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowecka, and Stern*, 264
- Mithramycin:** Breakdown of Pulse-Labeled

- Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Mitochondria, control of drug metabolism:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Mitochondria, control of drug metabolism:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Mitochondria, fluoromaleate transport:** Studies with Specific Enzyme Inhibitors. XIV. The Effects of Enzymatically Synthesized (–)-erythro-Fluoromaleic Acid on Male Dehydrogenase and on Anion Carriers of Liver Mitochondria, *Skilleter, Dummel, and Kun*, 139
- Mitochondrial hemoproteins:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Molecular orbital calculations:** Quantum-Mechanical Study of the Conformational Properties of Drugs with Local Anesthetic Action, *Coubeils and Pullman*, 278
- Molecular orbital calculations:** On the Conformation of Acetylcholine and Acetylthiocholine, *Pullman and Courrière*, 371
- Molecular orbital calculations:** Further Molecular Orbital Studies on the Conformation of Acetylcholine and Its Derivatives, *Pullman and Courrière*, 612
- Monoamine oxidase, inhibition:** Kinetic Studies on Rat Brain Monoamine Oxidase, *Husztli*, 385
- Mouse genetics:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[*a*]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Mouse genetics:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[*a*]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- N**
- NADPH oxidation, CO sensitive:** An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- NADPH oxidation, stoichiometry:** An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- Neostigmine, binding to acetylcholinesterase:** Acetylcholinesterase. II. A Study by Nuclear Magnetic Resonance of the Acceleration of Acetylcholinesterase by Atropine and Inhibition by Eserine, *Kato*, 582
- Neurophysin, hormone binding:** Binding Properties of Bovine Neurophysins I and II: An Equilibrium Dialysis Study, *Breslow and Waller*, 75
- Nicotine:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- 2-Nitrosofluorene:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lotlikar, Fukuda, and Yamamoto*, 645
- Nogalamycin:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Norepinephrine:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fiszler de Plazas, and De Robertis*, 215
- Norepinephrine-adenosine triphosphate complexes:** Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Novobiocin-albumin binding:** Induced Conformational Changes in Novobiocin, *Brand and Toribara*, 751
- Novobiocin conformation:** Induced Conformational Changes in Novobiocin, *Brand and Toribara*, 751
- Nuclear magnetic resonance:** Insoluble Solid Complexes of Norepinephrine and Adenosine Triphosphate, *Maynert, Moon, and Pai*, 88
- Nuclear magnetic resonance:** The Conformation of Acetylcholine and Related Compounds in Aqueous Solution as Studied by Nuclear Magnetic Resonance Spectroscopy, *Partington, Feeney, and Burgen*, 269
- Nuclear magnetic resonance:** Investigation into the Association between Serotonin and Adenosine Triphosphate *in Vitro* by Nuclear

- Magnetic Resonance and Ultraviolet Spectroscopy, *Nogrady, Hrdina, and Ling*, 565
- Nuclear magnetic resonance:** Acetylcholinesterase. I. A Study by Nuclear Magnetic Resonance of the Binding of Inhibitors to the Enzyme, *Kato*, 575
- Nuclear magnetic resonance:** Acetylcholinesterase. II. A Study by Nuclear Magnetic Resonance of the Acceleration of Acetylcholinesterase by Atropine and Inhibition by Eserine, *Kato*, 582
- Nuclear RNA, synthesis:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Nucleotide bases:** Release of Free Bases from Deoxyribonucleic Acid after Reaction with Bleomycin, *Haidle, Weiss, and Kuo*, 531
- Nucleotides, ATPase specificity:** Nucleotide Specificity of the  $\text{Na}^+$ -Stimulated Phosphorylation and  $[\text{H}]\text{Ouabain}$ -Binding Reactions of  $(\text{Na}^+ + \text{K}^+)$ -Dependent Adenosine Triphosphatase, *Tobin, Baskin, Akera, and Brody*, 256
- O
- N-octylamine binding:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Opiate receptors:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Orotic acid metabolism:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Ouabain binding:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. II. Effects on Sodium-Activated Transphosphorylation, *Banerjee, Wong, and Sen*, 18
- Ouabain binding:** Nucleotide Specificity of the  $\text{Na}^+$ -Stimulated Phosphorylation and  $[\text{H}]\text{Ouabain}$ -Binding Reactions of  $(\text{Na}^+ + \text{K}^+)$ -Dependent Adenosine Triphosphatase, *Tobin, Baskin, Akera, and Brody*, 256
- Oxidases, mixed-function:** An Approach Measurement of the Stoichiometric Relationship between Hepatic Microsomal Drug Metabolism and the Oxidation of Reduced Nicotinamide Adenine Dinucleotide Phosphate, *Stripp, Zampaglione, Hamrick, and Gillette*, 189
- Oxidases, mixed-function:** Altered Microsome Function during Acute Thioacetamide Poisoning, *Barker and Smuckler*, 318
- Oxidases, mixed-function:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Biotransformation, *Cinti and Schenkman*, 327
- Oxidases, mixed-function:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Oxidases, mixed-function:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[a]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Oxidases, mixed-function:** Inhibition by Deuterated Water of the Mixed-Function Oxidases of Hepatic Microsomes of the Male Rat, *Holtzman and Carr*, 481
- Oxidases, mixed-function:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Oxidases, mixed-function:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[a]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Oxidative phosphorylation, uncoupling activity:** Physicochemical Properties and Uncoupling Activity of 3'-Substituted Analogues of *N*-Phenylanthranilic Acid, *Terada and Muraoka*, 95
- Oxytocin:**  $^3\text{H}$ -Oxytocin Binding Sites in the Isolated Frog Skin Epithelium: Relation to the Physiological Response, *Bockaert, Imbert, Jard, and Morel*, 230
- Oxytocin analogues:**  $^3\text{H}$ -Oxytocin Binding Sites in the Isolated Frog Skin Epithelium: Relation to the Physiological Response, *Bockaert, Imbert, Jard, and Morel*, 230
- Oxytocin, neurophysin binding:** Binding Properties of Bovine Neurophysins I and II: An Equilibrium Dialysis Study, *Breslow and Waller*, 75
- P
- Pancreatic  $\beta$ -cells:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues. I. Transport of Mannoheptulose and the Dynamics of Insulin Release, *Hellman, Idahl, Lernmark, Sehlin, Simon, and Täljedal*, 1
- Pancreatic  $\beta$ -cells:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding

- and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Pancreatic islets:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Parotid gland hyperplasia:** Adenosine 3',5'-Monophosphate Concentrations and Isoproterenol-Induced Synthesis of Deoxyribonucleic Acid in Mouse Parotid Gland, *Guidotti, Weiss, and Costa*, 521
- Partition coefficient:** Physicochemical Properties and Uncoupling Activity of 3'-Substituted Analogues of *N*-Phenylanthranilic Acid, *Terada and Muraoka*, 95
- Partition coefficients, catechols:** Chemical Structure-Activity Correlation in the *O*-Methylation of Substituted Catechols by Catechol *O*-Methyltransferase, *Katz and Jacobson*, 594
- Penicillamine, albumin binding:** Evidence for a Ternary Complex Containing Albumin, Copper, and Penicillamine, *Sugiura and Tanaka*, 249
- Pharmacogenetics:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Phenanthrene alkaloids:** Mode of Action of Tylocresbrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Phenobarbital:** Evidence for Post-transcriptional Stabilization of Ribosomal Precursor Ribonucleic Acid by Phenobarbital, *Smith, Hill, Gleeson, and Vesell*, 691
- Phenobarbital:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Phenobarbital:** The Conversion of Hepatic Cytochrome P-450 to P-420 in Normal and Phenobarbital- and 3-Methylcholanthrene-Treated Animals, *Franklin*, 722
- Phenobarbital:** The Effect of Phenobarbital on the Synthesis of Nascent Protein on Free and Membrane-Bound Polyribosomes of Normal and Regenerating Liver, *Glazer and Sartorelli*, 701
- Phenobarbital induction:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Phentolamine:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fiszer de Plazas, and De Robertis*, 215
- Phenylalanine aminotransferase:** Increase of Hepatic *L*-Phenylalanine:Pyruvate Aminotransferase by Glucagon in Rats: Possible Role of Adenosine Cyclic 3',5'-Monophosphate as a Mediator, *Fuller, Snoddy, and Bromer*, 345
- Phenylalanine hydroxylase, antibodies:** Production of Antibodies to Rat Liver Phenylalanine Hydroxylase Cross-reactivity with Other Pterin-Dependent Hydroxylases, *Friedman, Lloyd, and Kaufman*, 501
- N*-Phenylanthranilic acid:** Physicochemical Properties and Uncoupling Activity of 3'-Substituted Analogues of *N*-Phenylanthranilic Acid, *Terada and Muraoka*, 95
- 2-Phenylbenzothiazoles:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Phenylethanolamine *N*-methyltransferase regulation:** Regulation of Adrenal Phenylethanolamine *N*-Methyltransferase Activity in Three Inbred Mouse Strains, *Ciaranello, Dornbusch, and Barchas*, 511
- Phloretin, insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Phlorizin, insulin release:** The Pancreatic  $\beta$ -Cell Recognition of Insulin Secretagogues V. Binding and Stimulatory Action of Phlorizin, *Hellman, Lernmark, Sehlin, and Täljedal*, 759
- Phorbol ester:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[*a*]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Phosphodiesterase:** Inhibition of a Cyclic Nucleotide Phosphodiesterase from Beef Heart by Catecholamines and Related Compounds, *Goren and Rosen*, 380
- Phosphoribosyltransferase:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731
- Phosphorylation of ATPase:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. I. Effects on Sodium-Sensitive Phosphorylation and Potassium-Sensitive Dephosphorylation, *Banerjee, Wong, Khanna, and Sen*, 8
- Phosphorylation of ATPase:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. II.

- Effects on Sodium-Activated Transphosphorylation, *Banerjee, Wong, and Sen*, 18
- Phosphorylation of ATPase:** Nucleotide Specificity of the Na<sup>+</sup>-Stimulated Phosphorylation and [<sup>3</sup>H]Ouabain-Binding Reactions of (Na<sup>+</sup> + K<sup>+</sup>)-Dependent Adenosine Triphosphatase, *Tobin, Baskin, Akera, and Brody*, 256
- Photochemical affinity labels:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Pineal gland:** Effect of *p*-Chlorophenylalanine on Hydroxylation of Tryptophan in Pineal and Brain of Rats, *Deguchi and Barchas*, 770
- Piperonyl butoxide:** The Effect of Piperonyl Butoxide Concentration on the Formation of Cytochrome P-450 Difference Spectra in Hepatic Microsomes from Mice, *Philpot and Hodgson*, 204
- Platelet aggregation:** Analogues of Adenosine 5'-Diphosphate—New Platelet Aggregators: Influence of Purine Ring and Phosphate Chain Substitutions on the Platelet-Aggregating Potency of Adenosine 5'-Diphosphate, *Gough, Maguire, and Penglis*, 170
- Polycyclic hydrocarbons:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction III. Changes in the Binding of *n*-Octylamine to Cytochrome P-450, *Nebert, Gielen, and Goujon*, 651
- Polycyclic hydrocarbons:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[*a*]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen*, *Oesch and Daly*, 374
- Polycyclic hydrocarbons:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[*a*]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Post synaptic end plate:** Blockade of Acetylcholine Receptors by Cobra Toxin: Electrophysiological Studies, *Lester*, 623
- Post-transcriptional stabilization:** Evidence for Post-transcriptional Stabilization of Ribosomal Precursor Ribonucleic Acid by Phenobarbital, *Smith, Hill, Gleeson, and Vesell*, 691
- Proflavin:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Prophage induction:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lotlikar, Fukuda, and Yamamoto*, 645
- Prostaglandin E:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Protein synthesis:** The Effect of Phenobarbital on the Synthesis of Nascent Protein on Free and Membrane-Bound Polyribosomes of Normal and Regenerating Liver, *Glazer and Sartorelli*, 701
- Protein synthesis, inhibition:** Effects of Aurintricarboxylic Acid on Ribosomes and the Biosynthesis of Globin in Rabbit Reticulocytes, *Huang and Grollman*, 111
- Protein synthesis, inhibition:** Mode of Action of Tylocerebrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Proteolipids:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fiszer de Plazas, and De Robertis*, 215
- Pterin-dependent hydroxylases:** Production of Antibodies to Rat Liver Phenylalanine Hydroxylase Cross-reactivity with Other Pterin-Dependent Hydroxylases, *Friedman, Lloyd, and Kaufman*, 501
- Pulse-labeled ribonucleic acid:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Pyrimidine metabolism:** Some Properties of a Pyrimidine Phosphoribosyltransferase from Murine Leukemia Cells, *Kessel, Deacon, Coffey, and Bakamjian*, 731

## Q

- Quantum mechanical calculations:** Further Molecular Orbital Studies on the Conformation of Acetylcholine and Its Derivatives, *Pullman and Courrière*, 612

## R

- Rat brain tryptophan:** Effect of *p*-Chlorophenylalanine on Hydroxylation of Tryptophan in Pineal and Brain of Rats, *Deguchi and Barchas*, 770
- Receptors, affinity labelling:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Receptors, cholinergic:** Blockade of Acetylcholine Receptors by Cobra Toxin: Electrophysiological Studies, *Lester*, 623
- Receptors, cholinergic:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- Receptors, cholinergic:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetyl-

- choline Receptor in the Electrophax, *Prives, Reiter, Cowburn, and Karlin*, 786
- Receptors, estrogen:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438
- Receptors, neurotoxin binding:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetylcholine Receptor in the Electrophax, *Prives, Reiter, Cowburn, and Karlin*, 786
- Receptors, opiate:** A Photochemical Affinity-Labeling Reagent for the Opiate Receptor(s), *Winter and Goldstein*, 601
- Receptors, oxytocin:** <sup>3</sup>H-Oxytocin Binding Sites in the Isolated Frog Skin Epithelium: Relation to the Physiological Response, *Bockaert, Imbert, Jard, and Morel*, 230
- Receptors, platelet ADP:** Analogues of Adenosine 5'-Diphosphate—New Platelet Aggregators: Influence of Purine Ring and Phosphate Chain Substitutions on the Platelet-Aggregating Potency of Adenosine 5'-Diphosphate, *Gough, Maguire, and Penglis*, 170
- Regeneration, sodium dependent:** Evidence for Two Forms of Fluoride-Treated Sodium- and Potassium-Dependent Adenosine Triphosphatase, *Penzotti and Titus*, 149
- Regulation of glycogenolysis:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Ribonuclease, nuclear:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Ribonucleic acid, nuclear:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Ribonucleic acid, nucleolar:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Ribonucleic acid, nucleoplasmic:** Effects of Deoxyribonucleic Acid-Reactive Drugs on Ribonucleic Acid Synthesis in Leukemia L1210 Cells, *Kann and Kohn*, 551
- Ribonucleic acid polymerase:** Effects of Polycyclic Hydrocarbons on Ribonucleic Acid Synthesis in Rat Liver Nuclei and Hamster Embryo Cells, *Younger, Salomon, Wilson, Peacock, and Gelboin*, 452
- Ribonucleic acid, preribosomal:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Ribonucleic acid, pulse-labeled:** Breakdown of Pulse-Labeled Ribonucleic Acid in *Bacillus megaterium*, Revealed by Exposure to the Antibiotics Mithramycin, Chromomycin, and Nogalamycin, *Fok and Waring*, 65
- Ribonucleic acid, 45 S species:** Evidence for Post-transcriptional Stabilization of Ribosomal Precursor Ribonucleic Acid by Phenobarbital, *Smith, Hill, Gleeson, and Vesell*, 691
- Ribonucleic acid, synthesis:** Alterations in Liver Nuclear Ribonucleic Acid of Rats Treated with Phenobarbital, *Wold and Steele*, 681
- Ribonucleotide reductase:** Fluorinated Pyrimidines. XL. The Reduction of 5-Fluorouridine 5'-Diphosphate by Ribonucleotide Reductase, *Kent and Heidelberger*, 465
- Ribosomal ribonucleic acid:** Evidence for Post-transcriptional Stabilization of Ribosomal Precursor Ribonucleic Acid by Phenobarbital, *Smith, Hill, Gleeson, and Vesell*, 691
- Ribosome breakdown:** Mode of Action of Tylocrebrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Ribosomes, reticulocyte:** Effects of Aurintricarboxylic Acid on Ribosomes and the Biosynthesis of Globin in Rabbit Reticulocytes, *Huang and Grollman*, 111

## S

- Salmonella typhimurium mutants:** Effects of the Carcinogen 2-Acetylaminofluorene and Its Derivatives on Bacteria and Bacteriophages, *Lotlikar, Fukuda, and Yamamoto*, 645
- Sarcoma 180 cells:** Isohomomaminopterin and Isohomofolic Acid Synthesis and Basic Biochemical and Biological Properties, *Slavík, Čihař, Souček, Hermanová, Přistoupilová, and Slavíková*, 740
- Sephacrose, digoxin derivative:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by Digoxin Covalently Bound to Sepharose, *Okarma, Tramell, and Kalman*, 476
- Serotonin—ATP complexes:** Investigation into the Association between Serotonin and Adenosine Triphosphate *in Vitro* by Nuclear Magnetic Resonance and Ultraviolet Spectroscopy, *Nogady, Hrdina, and Ling*, 565
- Serotonin, pineal gland:** Effect of *p*-Chlorophenylalanine on Hydroxylation of Tryptophan in Pineal and Brain of Rats, *Deguchi and Barchas*, 770
- N<sup>1</sup>-(DL-seryl)-N<sup>3</sup>-(2,3,4-trihydroxybenzyl)hydrazine:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Short circuit current:** The Role of Calcium Ions in the Interaction of Amiloride with Membrane Receptors, *Cuthbert and Wong*, 222

- Skeletal muscle, electrical stimulation:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Skeletal muscle glycogen:** Adrenal Corticosteroids and the Response to Epinephrine or Electrical Stimulation of the Enzymes of Glycogen Metabolism in Rat Skeletal Muscle, *Vilchez, Piras, and Piras*, 780
- Sodium channel, tetrodotoxin block:** The Kinetics of the Interaction between Tetrodotoxin and Mammalian Nonmyelinated Nerve Fibers, *Colquhoun and Ritchie*, 285
- Sodium-potassium ATPase:** Evidence for Two Forms of Fluoride-Treated Sodium- and Potassium-Dependent Adenosine Triphosphatase, *Penzotti and Titus*, 149
- Sodium-potassium ATPase:** Studies on the Characterization of the Sodium-Potassium Transport Adenosine Triphosphatase, VIII. Effects of Ligands on Fluorescence Due to Interaction of the Enzyme with a Fluorescent Derivative of Hellebrigenin, *Yoda and Hokin*, 30
- Sodium-potassium ATPase, NEM inhibition:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. I. Effects on Sodium-Sensitive Phosphorylation and Potassium-Sensitive Dephosphorylation, *Banerjee, Wong, Khanna, and Sen*, 8
- Sodium-potassium ATPase, NEM inhibition:** Inhibition of Sodium- and Potassium-Dependent Adenosine Triphosphatase by *N*-Ethylmaleimide. II. Effects on Sodium-Activated Transphosphorylation, *Banerjee, Wong, and Sen*, 18
- Sodium transport:** The Role of Calcium Ions in the Interaction of Amiloride with Membrane Receptors, *Cuthbert and Wong*, 222
- Spin state of cytochromes:** The Incomplete Conversion of Hepatic Cytochrome P-450 to P-420 by Mercurials, *Franklin*, 711
- Spleen capsule proteolipids:** Conductance Changes Produced by *l*-Norepinephrine on Lipid Membranes Containing a Proteolipid from the Bovine Spleen Capsule, *Ochoa, Fischer de Plazas, and De Robertis*, 215
- Steroids, inhibition of drug oxidation:** Genetic Expression of Aryl Hydrocarbon Hydroxylase Induction IV. Interaction of Various Compounds with Different Forms of Cytochrome P-450 and the Effect of Benzo[*a*]pyrene Metabolism *in Vitro*, *Goujon, Nebert, and Gielen*, 667
- Structure activity correlations:** Catechol *O*-Methyltransferase. IV. Factors Affecting *m*- and *p*-Methylation of Substituted Catechols, *Creveling, Morris, Shimizu, Ong, and Daly*, 398
- Structure-activity correlations:** Chemical Structure-Activity Correlation in the *O*-Methylation of Substituted Catechols by Catechol *O*-Methyltransferase, *Katz and Jacobson*, 594
- Subunit cross-linkage:** Modification of L-Asparaginase by Subunit Cross-linking with Dimethylsuberimide, *Handschumacher and Gaumond*, 59
- Subunit interactions, asparaginase:** Reaction of *N*-Acetylimidazole with L-Asparaginase, *Shifrin and Solis*, 561
- Succinate:** Hepatic Organelle Interaction. I. Spectral Investigation During Drug Bio-transformation, *Cinti and Schenkman*, 327
- Succinate:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Succinyl choline binding:** Purification and Fractionation of Acetylcholinesterase into Subspecies by Affinity Chromatography on a *d*-Tubocurarine-Sepharose Column, *Jung and Belleau*, 589
- Synthetic estrogen conformation:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438

## T

- Tetraethylammonium:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Tetramethylammonium:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- Tetrodotoxin, kinetics:** The Kinetics of the Interaction between Tetrodotoxin and Mammalian Nonmyelinated Nerve Fibers, *Colquhoun and Ritchie*, 285
- Theophylline:** Increase of Hepatic L-Phenylalanine:Pyruvate Aminotransferase by Glucagon in Rats: Possible Role of Adenosine Cyclic 3',5'-Monophosphate as a Mediator, *Fuller, Snoddy, and Bromer*, 345
- Theophylline:** Adenosine Cyclic 3',5'-Monophosphate in Fetal Rat Brain Cell Cultures. I. Effect of Catecholamines, *Gilman and Schrier*, 410
- Thioacetamide:** Altered Microsome Function during Acute Thioacetamide Poisoning, *Barker and Smuckler*, 318
- 6-Thioguanine:** Adenosine Triphosphate-Guanosine 5'-Phosphate Phosphotransferase. IV.

- Isozymes in Human Erythrocytes and Sarcoma 180 Ascites Cells, *Agarwal and Parks*, 128
- Transport, erythrocytes:** Kinetics of Adenosine Uptake by Erythrocytes, and the Influence of Dipyrindamole, *Roos and Pfleger*, 417
- Transport Mechanisms:** Nucleotide Specificity of the Na<sup>+</sup>-Stimulated Phosphorylation and [<sup>3</sup>H]Ouabain-Binding Reactions of (Na<sup>+</sup> + K<sup>+</sup>)-Dependent Adenosine Triphosphatase, *Tobin, Baskin, Akera, and Brody*, 256
- Tricarboxylic acid carrier:** Studies with Specific Enzyme Inhibitors. XIV. The Effects of Enzymatically Synthesized (—)-*erythro*-Fluoromalic Acid on Malate Dehydrogenase and on Anion Carriers of Liver Mitochondria, *Skilleter, Dummel, and Kun*, 139
- Tricarboxylic acid cycle intermediates:** Hepatic Organelle Interaction. II. Effect of Tricarboxylic Acid Cycle Intermediates on *N*-Demethylation and Hydroxylation Reactions in Rat Liver, *Cinti, Ritchie, and Schenkman*, 339
- Trinitrobenzene sulfonic acid, membrane probe:** Trinitrobenzenesulfonic Acid: A Possible Chemical Probe to Investigate Lipid-Protein Interactions in Biological Membranes, *Godin and Ng*, 426
- Tryptophan hydroxylase:** Effect of *p*-Chlorophenylalanine on Hydroxylation of Tryptophan in Pineal and Brain of Rats, *Deguchi and Barchas*, 770
- d-Tubocurarine:** Relative Binding Sites of Pharmacologically Active Ligands on Bovine Erythrocyte Acetylcholinesterase, *Roufogalis and Quist*, 41
- d-Tubocurarine:** Vulnerability of Desensitized or Curare-Treated Acetylcholine Receptors to Irreversible Blockade by Cobra Toxin, *Lester*, 632
- d-Tubocurarine, receptor binding:** Interactions of a Cobra Neurotoxin and Affinity Labels of the Acetylcholine Receptor in the Electrophore, *Prives, Reiter, Cowburn, and Karlin*, 786
- d-Tubocurarine-sepharose:** Purification and Fractionation of Acetylcholinesterase into Subspecies by Affinity Chromatography on a d-Tubocurarine-Sepharose Column, *Jung and Belleau*, 589
- Tumorigenesis, skin:** Aryl Hydrocarbon Hydroxylase, Epoxide Hydrase, and 7,12-Dimethylbenz[*a*]anthracene-Produced Skin Tumorigenesis in the Mouse, *Nebert, Benedict, and Gielen, Oesch and Daly*, 374
- Tylocrebrine:** Mode of Action of Tylocrebrine: Effects on Protein and Nucleic Acid Synthesis, *Huang and Grollman*, 538
- Tyrosine hydroxylase:** Studies on the Mechanism of the L-3,4-Dihydroxyphenylalanine-Induced Decrease in Tyrosine Hydroxylase Activity, *Dairman and Udenfriend*, 293
- Tyrosine hydroxylase, cross reactivity:** Production of Antibodies to Rat Liver Phenylalanine Hydroxylase Cross-reactivity with Other Pterin-Dependent Hydroxylases, *Friedman, Lloyd, and Kaufman*, 501
- Tyrosine modification, L-asparaginase:** Reaction of *N*-Acetylimidazole with L-Asparaginase, *Shifrin and Solis*, 561

## U

- Ultraviolet spectroscopy:** Investigation into the Association between Serotonin and Adenosine Triphosphate *in Vitro* by Nuclear Magnetic Resonance and Ultraviolet Spectroscopy, *Nogrady, Hrdina, and Ling*, 565
- Ultraviolet spectroscopy:** Induced Conformational Changes in Novobiocin, *Brand and Toribara*, 751

## V

- Vasopressin, neurophysin binding:** Binding Properties of Bovine Neurophysins I and II: An Equilibrium Dialysis Study, *Breslow and Walter*, 75
- Vinblastine, anticholinergic activity:** Inhibition by Colchicine and by Vinblastine of Acetylcholine-Induced Catecholamine Release from the Adrenal Gland: An Anticholinergic Action, Not an Effect upon Microtubules, *Trifaró, Collier, Lastowecka, and Stern*, 264
- Vitamin K deficiency:** Warfarin Binding to Microsomes Isolated from Normal and Warfarin-Resistant Rat Liver, *Lorusso and Suttie*, 197

## W

- Warfarin binding:** Warfarin Binding to Microsomes Isolated from Normal and Warfarin-Resistant Rat Liver, *Lorusso and Suttie*, 197
- Warfarin resistant rats:** Warfarin Binding to Microsomes Isolated from Normal and Warfarin-Resistant Rat Liver, *Lorusso and Suttie*, 197
- Wilson's disease:** Evidence for a Ternary Complex Containing Albumin, Copper, and Penicillamine, *Sugiura and Tanaka*, 249

## X

- X-ray crystallography:** X-ray Crystallography of Estrogens and Their Binding to Receptor Sites, *Hospital, Busetta, Bucourt, Weintraub, and Baulieu*, 438
