

Erratum

Volume 16, No. 3 (1979), in the article, "Voltage- and Time-Dependent Actions of Piperocaine on the Ion Channel of the Acetylcholine Receptor," by Thomas N. Tiedt, Edson X. Albuquerque, Nabil M. Bakry, Mohyee E. Eldefrawi, and Amira T. Eldefrawi, pp. 909-921: Figures 10 and 11 should be replaced by the figures below.

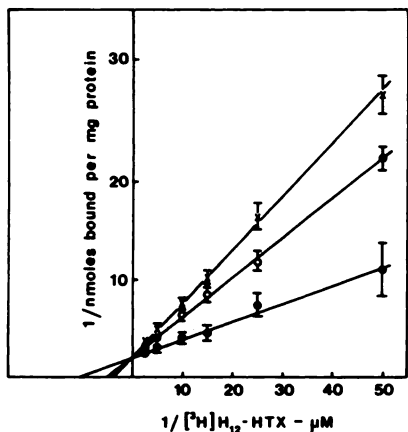

FIG. 10. Double reciprocal plot of the binding of $[^3\text{H}]\text{HTX}$ to Torpedo electric organ membranes in absence (●) and presence of piperocaine, 0.5 μM (○) and 1 μM (×)

Each bar represents \pm standard deviation of three experiments.

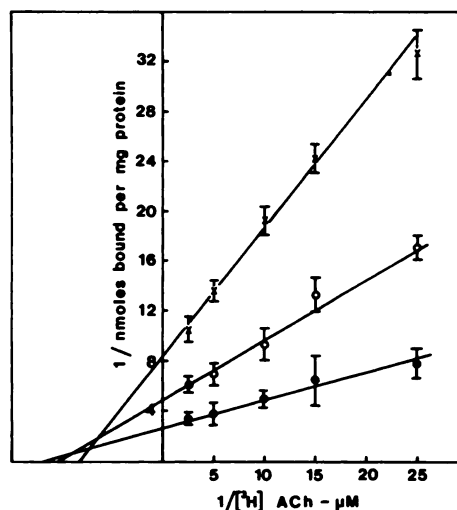

FIG. 11. Double reciprocal plot of the binding of $[^3\text{H}]\text{ACh}$ to Torpedo electric organ membranes in absence (●) and presence of piperocaine, 10 μM (○) and 100 μM (×)

Each bar represents \pm standard deviation of three experiments.
