

An important resource for everyone  
involved in research on the  
metabolism of drugs and chemicals

# DRUG METABOLISM AND DISPOSITION

The Biological Fate of Chemicals

Editor: Raymond F. Novak, Ph.D., Wayne State University, Detroit, Michigan

**DRUG METABOLISM AND DISPOSITION** publishes experimental results from *in vitro* and *in vivo* systems that bring readers significant and original information on the metabolism and disposition of endogenous and exogenous compounds, including the metabolism of therapeutic agents and environmental chemicals. The journal also invites timely reviews, short communications and letters to the Editor. All submissions are refereed to ensure a high standard of publication. The areas covered are:

- metabolism, metabolite identification and mechanisms of metabolite formation
- expression of drug metabolizing enzymes
- regulation of drug metabolizing enzyme gene expression
- toxicological consequences of xenobiotic metabolism
- pharmacokinetics
- pharmacodynamics

This journal should be a standard reference in all pharmacology and toxicology departments. It is also a valuable resource for all medicinal chemists involved in drug design and all biochemists with interest in drug metabolism, expression or drug metabolizing enzymes and regulation of drug metabolizing enzyme gene expression. *Monthly*

Discounts available to members on all ASPET publications. SAVE 10% when ordering two. SAVE 15% when ordering three. SAVE 20% when ordering all four.

Newsworthy and timely  
articles in your field

# MOLECULAR PHARMACOLOGY

Editor: **T. Kendall Harden, PhD**, University of North Carolina  
School of Medicine, Chapel Hill, North Carolina

Is your special interest receptors and neurotransmitters... drug  
metabolism... antibiotic and anticancer drug actions... or other  
areas related to the molecular basis of drug action? If so, you  
should be subscribing to **MOLECULAR PHARMACOLOGY**.

The editor's and editorial board's high standards ensure that the  
papers you read in **MOLECULAR PHARMACOLOGY** are on the  
cutting edge of research on drug action and selective toxicity at the  
molecular level. Original applications of biochemistry, biophysics,  
genetics, and molecular biology are juxtaposed with innovative  
pharmacologic research to elucidate basic problems in pharma-  
cology and toxicology, including such areas as molecular mecha-  
nisms involved in drug receptor-effector coupling, xenobiotic  
metabolism, and antibiotic and anticancer drug action. Start your  
subscription today to ensure access to the most newsworthy papers  
in your field. **Monthly**

Call toll-free to start your subscription immediately, **1-800-638-6423**  
from anywhere in the U.S. or Canada.

## REVIEWS

A Publication of the American Society for  
Pharmacology and Experimental Therapeutics, Inc.

**Robert E. Stitzel, PhD, Editor**  
West Virginia University Medical Center

**P**harmacological Reviews is a show-case for important review articles in your field, featuring more comprehensive papers on topics of high current interest.

The Journal continues to publish the important, longer papers of interest to pharmacologists, physiologists, toxicologists, and biological chemists. No library serving the pharmacologist should be without a subscription.
