

Correction to “The kinetics of inhibition of nicotinic acetylcholine receptors by (+)-tubocurarine and pancuronium”

In the above article [Wenningmann I and Dilger JP (2001) *Mol Pharmacol* **60**:790–796], there is an error in the abstract. Specifically, the dissociation (ℓ_{off}) value given for pancuronium should have been $2.1 \pm 0.7/\text{s}$.

We regret this error and apologize for any confusion or inconvenience it may have caused.
