

Correction to “Resveratrol Protects Dopamine Neurons against Lipopolysaccharide-Induced Neurotoxicity through Its Anti-Inflammatory Actions”

In the above article [Zhang F, Shi JS, Zhou H, Wilson B, Hong JS, and Gao HM (2010) *Mol Pharmacol* **78**:466–477], the grant footnote on the first page contained text not intended for publication. This was the result of a copyediting error. The correct grant footnote reads:

This work was supported by the Intramural Research Program of the National Institutes of Health National Institute of Environmental Health Sciences; the National Natural Science Foundation of China [Grant 30960447]; and the Science and Technology Foundation of Guizhou Province of China [Grant 2010INT].

The online version of this article has been corrected in departure from the print version.
