GENERAL INFORMATION

Aims and Scope

Molecular Simulation exists to bring together the most significant papers concerned with applications of simulation methods using statistical mechanics, and original contributions to the development of simulation methodology. The aim is to provide a forum in which cross-fertilization between application areas and methodologies can take place and new developments can be encouraged.

The number of application areas is continually increasing and *Molecular Simulation* will keep pace with events, welcoming papers on topics ranging from condensed matter physics and chemistry to biomolecules and rheological studies. Similarly, methodological papers are encouraged dealing with, for example, nonequilibrium methods or quantum simulations and new developments in languages and machines.

As well as full-length papers, this journal will publish review articles and preliminary communications. Occasionally, reports of papers presented at meetings will be published.

Molecular Simulation will be of interest to all researchers using or developing simulation methods based on statistical mechanics. This will include academic and industrial researchers concerned with surfaces, liquids, phase transitions, rheology, materials and macromolecules, amongst others. Such workers will be concerned with methodological developments in dynamical simulations, the Monte Carlo method, nonequilibrium methods, and quantum simulations, as well as a new computer architectures and languages.

Notes for Contributors can be found at the back of the journal.

Subscription Rates. Six issues per volume. Subscription rates per volume: corporate, \$356.00; university library, \$238.00; individual, \$40.00. Rates include air mail postage and handling charges. Individual subscription rates are available only to individuals who subscribe directly from the publisher and who pay through personal checks or credit card.

Prices apply in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Send your order to your usual supplier or directly to Gordon and Breach Science Publishers S.A., c/o STBS Ltd., 1 Bedford Street, London WC2E 9PP, England, UK. Journal subscriptions are sold on a volume basis only; single issues are not available separately. Claims for nonreceipt of issues should be made within three months of publication of the issue or they will not be honored without charge. Subscriptions are available for microform editions. Please write for details.

License to Photocopy. Photocopying is only permitted by license, obtainable from the Publisher (P.O. Box 161, 1820 Montreux 2, Switzerland) and payment of relevant fee. This publication is registered for copyright in the United States of America under the Universal Copyright Convention, and is protected under United States copyright law worldwide. The Publisher is not a member of the Copyright Clearance Center, and has not entered into agreement with any copyright payment centers in any part of the world. Accordingly the license from the Publisher includes the right to photocopy beyond the fair use provisions of the US and most other copyright laws. Please note however that the license does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. It is also expressly forbidden to any individual or company to copy any article as agent, either express or implied of another individual or company.

Reprints of Individual Articles. Copies of individual articles may be obtained from the Publisher's own document delivery service, On-Demand Publishing, at appropriate fees. Write to: P.O. Box 786 Cooper Station, New York, NY 10276, USA, or P.O. Box 197, London WC2E 9PP, U.K.
