I-50127 Firenze, Italy

GENERAL INFORMATION

Aims and Scope

Molecular Simulation exists to bring together the most significant papers concerned with applications of simulation methods using statistical mechanics, and original contributions to the development of simulation methodology. The aim is to provide a forum in which cross-fertilization between application areas and methodologies can take place and new developments can be encouraged.

The number of application areas is continually increasing and *Molecular Simulation* will keep pace with events, welcoming papers on topics ranging from condensed matter physics and chemistry to biomolecules and rheological studies. Similarly, methodological papers are encouraged dealing with, for example, nonequilibrium methods or quantum simulations and new developments in languages and machines.

This journal will publish review articles and preliminary communications as well as full-length papers. Occasionally, reports of papers presented at meetings will be published.

Molecular Simulation will be of interest to all researchers using or developing simulation methods based on statistical mechanics. This will include academic and industrial researchers concerned with surfaces, liquids, phase transitions, rheology, materials and macromolecules, amongst others. Such workers will be concerned with methodological developments in dynamical simulations, the Monte Carlo method, nonequilibrium methods, and quantum simulations, as well as new computer architectures and languages.

Notes for contributors can be found at the back of the journal.

All rights reserved. No part of this publication may be reproduced or utilized in any form or by any means, electronic or mechanical, including photocopying and recording, or by any information storage or retrieval system, without permission in writing from the publisher.

Subscription rates. Six issues per volume. Subscription rates per volume: corporate, SF 826.00. Special reduced rates are available to university libraries and individuals; please write for details or see the journals checklist pertinent to your territory. Subscribers will be invoiced in the currency applicable to their geographical area at our current exchange rate.

Orders may be placed with your usual supplier or directly with Gordon and Breach Science Publishers S.A., c/o STBS Ltd., One Bedford Street, London, WC2E 9PP, U.K. Journal subscriptions are sold on a volume basis only; single issues are not available separately. Claims for nonreceipt of issues should be made within three months of publication of the issue or they will not be honored without charge. Subscriptions are available for microform editions. Details will be furnished upon request.

License to photocopy. This publication is registered for copyright in the United States of America and is protected under the Universal Copyright Convention and the Berne Convention. The Publisher is not a member of the Copyright Clearance Center, and has not entered into agreement with any other copyright payment centers in any part of the world. Accordingly, permission to photocopy beyond the 'fair use' provisions of the USA and most other copyright laws is available from the publisher by license only. Please note, however, that the licence does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, or for resale. It is also expressly forbidden for any individual or company to copy any article as agent, either express or implied, of another individual or company. For licensing information, please write to P.O. Box 161, 1820 Montreux 2, Switzerland.

Reprints of individual articles. Copies of individual articles may be obtained from the publisher's own document delivery service at the appropriate fees. Write to: Document Delivery Service, P.O. Box 786, Cooper Station, New York, NY 10276, USA or P.O. Box 197, London WC2E 9PX, U.K.

Distributed by STBS Ltd., 1 Bedford Street, London WC2E 9PP, England, UK.

Printed in the United Kingdom by Bell and Bain Ltd., Glasgow.
