GENERAL INFORMATION

Aims and Scope

Molecular Simulation exists to bring together the most significant papers concerned with applications of simulation methods using statistical mechanics, and original contributions to the development of simulation methodology. The aim is to provide a forum in which cross-fertilization between application areas and methodologies can take place and new developments can be encouraged.

The number of application areas is continually increasing and *Molecular Simulation* will keep pace with events, welcoming papers on topics ranging from condensed matter physics and chemistry to biomolecules and rheological studies. Similarly, methodological papers are encouraged dealing with, for example, nonequilibrium methods or quantum simulations and new developments in languages and machines.

This journal will publish review articles and preliminary communications as well as full-length papers. Occasionally, reports of papers presented at meetings will be published.

Molecular Simulation will be of interest to all researchers using or developing simulation methods based on statistical mechanics. This will include academic and industrial researchers concerned with surfaces, liquids, phase transitions, rheology, materials and macromolecules, amongst others. Such workers will be concerned with methodological developments in dynamical simulations, the Monte Carlo method, nonequilibrium methods and quantum simulations, as well as new computer architectures and languages.

Notes for contributors can be found at the back of the journal.

No part of this publication may be reproduced or utilized in any form or by any means, electronic or mechanical, including photocopying and recording, or by any information storage or retrieval system, without permission in writing from the publisher.

Ordering Information. Six issues per volume. Current Volume Block: 12-14.

Orders may be placed with your usual supplier or directly with Gordon and Breach Science Publishers in care of the addresses shown below. Journal subscriptions are sold on a volume basis only; single issues of the current volume are not available separately. Claims for nonreceipt of issues will be honored free of charge if made within three months of publication of the issue. Subscriptions are available for microform editions; details will be furnished upon request.

All issues are dispatched by airmail throughout the world.

Subscription Rates. Base list subscription price per volume: ECU 75.00 (US\$90.00).* This price is available only to individuals whose library subscribes to the journal OR who warrant that the journal is for their own use and provide a home address for mailing. Orders must be sent directly to the Publisher and payment must be made by personal check or credit card.

Separate rates apply to academic and corporate institutions. These rates may also include photocopy license and postage and handling charges. Special discounts are also available to continuing subscribers through our Subscriber Incentive Plan (SIP).

* ECU (European Currency Unit) is the worldwide base list currency rate; payment can be made by draft drawn on ECU currency in the amount shown or in local currency at the current conversion rate. The US Dollar rate is based on the ECU rate and applies to North American subscribers only. Subscribers from other territories should contact their agents or one of the offices listed below.

License to Photocopy This publication and each of the articles contained herein are protected by copyright. The subscription rate for academic and corporate subscribers includes the Publisher's licensing fee which allows the subscriber photocopy privileges beyond the "fair use" provision of most copyright laws. Please note, however, that the licence does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotion purposes, for creating new collective works, for resale, or as agent, either express or implied, of another individual or company. A subscriber may apply to the Publisher for a waiver of the license fee. For licensing information, please write to Gordon and Breach Science Publishers SA, Y-Parc, Chemin de la Sallaz, 1400 Yverdon, Switzerland.

Reprints of Individual Articles Copies of individual articles may be obtained from the Publisher's own document delivery service at the appropriate fees. Write to: SCAN, P O Box 786, Cooper Station, New York, NY 10276, USA or Y-Parc, Chemin de la Sallaz, 1400 Yverdon, Switzerland. Special fax service - USA: (212) 645-2459 or Switzerland: (024) 239-671.

Permission to reproduce and/or translate material contained in this journal must be obtained in writing from the Publisher. Please contact Rights and Permissions Officer, Gordon and Breach Science Publishers SA, Y-Parc, Chemin de la Sallaz, 1400 Yverdon, Switzerland.
