Neuropsychopharmacology (2012) **37**, 1972; doi:10.1038/npp.2012.21

Correction to: *Neuropsychopharmacology* (2012) **37**, 1455–1464; doi:10.1038/npp.2011.331; published online 11 January 2012

In this article, there is an error on page 8, right column, line 3. The sentence should read as follows: Nonetheless, these

transcripts also correctly classified 77.3% of the dexamethasone suppressor patients, indicating that they suffer from a GR-resistance that is not evident in the DST, but observable in the dexamethasone-stimulated gene expression pattern.
