## Index

*Note:* Page numbers of article titles are in **bold face** type.

### A

Aesculap neuroendoscopes, 23–26

Age factors, in third ventriculostomy outcome,  
74–76

Aqueduct of Sylvius, occlusion of  
CSF entrapment in, 84–85  
third ventriculostomy for, 49–51, 73–74

Arachnoid cysts, **9–17**  
clinical presentation of, 10  
complications of, 16  
diagnosis of, 10–11  
frameless stereotactic systems for, 13–14  
intraventricular, 10–11  
laterally projecting, 13  
locations of, 10  
pathology and pathogenesis of, 9–10  
shunting of, 15  
suprasellar, clinical presentation of, 10  
treatment of, 4, 11–16

Arachnoid granulations, obstruction of, 48

Asystole, in third ventriculostomy, 69

Auer Neuro-Endoscope, 23–24

### B

Basilar artery, in third ventricle  
anatomy of, 41  
injury of, in third ventriculostomy, 63, 69–70

Biopsy, of tumor, endoscopic, 4, 100–101

Bleeding. *See* Hemorrhage.

Bradycardia, in third ventriculostomy, 69

Brain, tumors of. *See* Tumor(s), brain.

Bugbee Wire, for hemostasis, 27

### C

Cameras, for endoscopy, 21

Catheter, peel-away, for endoscopy, 22

Cauterization, equipment for, 27–28

Cerebellum

anatomy of, 42–43  
developmental anatomy of, 35  
vermis of, agenesis of, 43

Cerebral aqueduct, anatomy of, 42

Cerebral arteries, injury of, in third  
ventriculostomy, 69–70

Cerebrospinal fluid  
hydraulics of, 45–47  
leakage of, in third ventriculostomy, 67

Channel neuroendoscope, 26

Chavantes-Zamorano Neuro-Endoscope, 23–24

Chiari II malformation, 43–44  
fourth ventricle malformation in, 43–44  
third ventricle malformation in, 42  
third ventriculostomy contraindicated in, 48–49

Chip cameras, for endoscopy, 21

Choroid plexus  
anatomy of, 37, 57–58  
endoscopy of, 3

Choroidal cysts, of lateral ventricle, 39–40

Choroidal fissure, developmental anatomy of, 34

Clarus neuroendoscopes, 26

Coagulation, endoscopic equipment for, 27–28

Codman & Shurtleff neuroendoscopes, 26

Colloid cysts, endoscopic removal of, 4, 103–106

Communicating arteries, posterior, injury of,  
in third ventriculostomy, 69–70

Computed tomography, in arachnoid cysts, 11

Cook & Codman, cauterization equipment of,  
27–28

Copocephaly, 39

Corpus callosum  
agenesis of, 39, 42  
developmental anatomy of, 34–35

Craniopharyngioma, versus arachnoid cyst, 11–12

CSF. *See* Cerebrospinal fluid.

#### Cyst(s)

- arachnoid. *See* Arachnoid cysts.
- choroidal, of lateral ventricle, 39–40
- colloid, endoscopic removal of, 4, 103–106
- Dandy Walker, 43
- ependymal, of lateral ventricle, 39–40
- solitary, drainage of, 88–89

#### D

---

Dandy classification, of hydrocephalus, 45

Dandy Walker cysts, 43

Decq Neuro-Endoscope, 23–24

Diverticula, of lateral ventricle, 39

#### E

---

Electrocauterization, equipment for, 27–28

Embryology, of ventricular system, 33–36

Endocrine disorders, in third ventriculostomy, 64

#### Endoscopy

- equipment for, **19–31**
- for arachnoid cysts, **9–17**
- for cancer, **95–109**
- for hydrocephalus, with loculated ventricles, **83–93**
- history of, **1–7**
- principles of, **19–31**
- third ventriculostomy. *See* Third ventriculostomy, endoscopic.
- ventricular anatomy for, **33–44**

Ependymal cysts, of lateral ventricle, 39–40

#### Equipment, endoscopic, **19–31**

- cameras, 21
- fiberoptic, 19–20, 25–26
- for arachnoid cyst endoscopy, 12–15
- for coagulation, 27–28
- for CSF entrapment, 87–88
- for shunt placement, 27
- for third ventriculostomy, 60–61, 71
- history of, 19–20
- instruments, 28–29
- lasers, 29, 62–63
- light sources for, 20–21
- optic angles in, 20
- peel-away catheter, 22
- rigid, 19, 22–26

- scope holders, 29
- syringomyeloscope, 27
- video monitors, 21–22

#### F

---

##### Fenestration

- of arachnoid cyst, 12–16
- of multiloculated ventricles, 89–90

Fiberoptic endoscopes, 19–20, 25–26

Fogarty balloon, for endoscopy, 28

Foramen of Monroe, anatomy of, 35–36

Forceps, for endoscopy, 28

Fornix, anatomy of, 58

##### Fourth ventricle

- anatomy of, 42–43
- CSF entrapment in, 84–86, 89
- malformations of, 43–44

#### G

---

Gaab Neuro-Endoscope, 23–24

#### H

---

##### Headache

- in arachnoid cyst, 10
- in slit ventricle syndrome, shunt removal in, third ventriculostomy for, 53–54

Hematoma, subdural, in third ventriculostomy, 68

##### Hemorrhage

- in arachnoid cyst endoscopy, 16
- in third ventriculostomy, 63, 69–70
- intraventricular, hydrocephalus in, third ventriculostomy for, 52
- subarachnoid, hydrocephalus in, third ventriculostomy for, 52
- ventricular, CSF entrapment in, 85–86

Hippocampus, developmental anatomy of, 33

Holoneural canal dilatation, in hydrocephalus, 85

Holoprosencephaly, 38

Hydranencephaly, 38–39

##### Hydrocephalus

- communicating, third ventriculostomy contraindicated in, 47–48
- Dandy classification of, 45
- double compartment, 85
- etiology of, third ventriculostomy outcome and, 73, 78
- hydromyelic, 85

in aqueduct of Sylvius occlusion, 49–51  
 in arachnoid cyst, 10  
 in brain tumors, 51–52  
 in fourth ventricle malformations, 43–44  
 in infants, third ventriculostomy for, 52–53  
 in intracranial hemorrhage, third ventriculostomy for, 52  
 in lateral ventricle malformations, 38–40  
 in third ventricle malformations, 41–42  
 isolated compartments in, **83–93**  
   multiloculated, 89–90  
   postinflammatory, 85–86  
   shunt-related, 83–85  
   solitary cysts in, 88–89  
   treatment of, 86–91  
 occlusive, in third ventriculostomy, 63  
 secondary, endoscopic treatment of, 96–99  
 third ventriculostomy for. *See* Third ventriculostomy.

Hypertension, intracranial, endoscopic treatment of, 3

Hypothalamus  
 anatomy of, 40–41, 58  
 injury of, in third ventriculostomy, 64, 68

## I

Infant(s), hydrocephalus in, third ventriculostomy for, 52–53

Infections, CSF entrapment in, 85–86

Inflammation, CSF entrapment in, 85–86

Instruments, for endoscopy, 28–29

Intracranial hypertension, endoscopic treatment of, 3

Intraventricular hemorrhage, hydrocephalus in, third ventriculostomy for, 52

## L

Lasers, for endoscopy, 29, 62–63

Lateral ventricle  
 anatomy of, 36–38  
 CSF entrapment in, 84  
 malformations of, 38–40

Light sources, for endoscopy, 20–21

Loculations  
 CSF entrapment in, **83–90**  
 of fourth ventricle, 43  
 of lateral ventricle, 40

Longstanding overt ventriculomegaly of the adult, 50–51

## M

Magnetic resonance imaging  
 in aqueduct of Sylvius occlusion, 50  
 in arachnoid cysts, 10–11  
 in third ventriculostomy outcome assessment, 77, 79

Mamillary bodies, anatomy of, 40

Microsurgery, endoscopic-assisted, for tumors, 106–107

MINOP Neuroendoscopy System, 23–25

MurphyScope, 26

Myeloscopy, 4

## N

Neuroendoscopy. *See* Endoscopy.

NeuroNavigational endoscopes, 26

NeuroPen endoscope, 26

Neuroview endoscope, 25–26

## O

Occipital pole, anatomy of, 38

## P

Pneumocephalus, in third ventriculostomy, 67

Porencephaly, 39

## R

Rigid endoscopes, 19, 22–26

## S

Schizencephaly, 38

Seizures, in arachnoid cyst, 10

Shunt

  CSF entrapment due to, 83–85  
   endoscopic equipment for, 27  
   existing, third ventriculostomy outcome with, 76  
   for arachnoid cyst, 15  
   removal of, third ventriculostomy for, 53–54

Slit ventricle syndrome

  entrapped CSF in, 83–85  
   shunt removal in, third ventriculostomy for, 53–54

Subarachnoid hemorrhage, hydrocephalus in, third ventriculostomy for, 52

Subdural hematoma, in third ventriculostomy, 68  
Syringomyeloscope, 27

## T

---

Temporal horn, anatomy of, 38  
Thalamostriate vein, anatomy of, 37  
Thalamus, anatomy of, 41  
Third ventricle  
  anatomy of, 40–41, 59  
  malformations of, 41–42  
    endoscopy contraindicated in, 48–49  
    small, endoscopy contraindicated in, 48–49  
Third ventriculostomy  
  endoscopic  
    anatomic considerations in, 57–59, 76–78  
    approaches to, 59–60  
    balloon dilatation in, 61  
    complications of, 63–64, **67–72**  
      asystole, 69  
      avoidance of, 70–71  
      bradycardia, 69  
      cerebrospinal fluid leak, 67  
      failure, 70  
      intraoperative management of, 71  
      periventricular injury, 68–69  
      pneumocephalus, 67  
      subdural hematoma, 68  
      vascular, 69–70  
      ventriculitis, 67–68  
    dissection in, 61  
    equipment for, 60, 71  
    failure of, 70, 79  
    for arachnoid cyst, 12  
    for secondary hydrocephalus, 96–99  
    goals of, 77  
    history of, 3–4, 57  
    patient selection for, **45–55**, 70–71  
      anatomic considerations in, 45–47  
      biophysical considerations in, 45–47  
      contraindications, 47–49  
      in aqueduct of Sylvius occlusion, 49–51  
      in hemorrhage, 52  
      in infant hydrocephalus, 52–53  
      in programmed shunt removal, 53–54  
      in tumors, 51–52  
    positioning for, 68, 71  
    postoperative management in, 71  
    results of, **73–81**  
      anatomic considerations in, 76–78  
      assessment of, 77, 79

    clinical features and, 74–78  
    factors affecting, 73–74  
    failure, 79  
    saline jet irrigation in, 61–62  
    saline torch use in, 62  
    stereotactic, 63, 79  
    technique for, 60–63, 68–69, 98–99  
    training for, 71  
    trajectories for, 59–60  
    with narrow ventricle, 68–69  
    stereotactic, versus endoscopic procedure, 79

Trigone, anatomy of, 38

Tumor(s), brain, endoscopy in, **95–109**  
  history of, 4  
  in biopsy, 100–101  
  in intraventricular tumor resection, 100–106  
  in microsurgery, 106–107  
  in secondary hydrocephalus, 51–52, 96–99  
  in ventriculoscopy, 96

## U

---

Ultrasonography, in third ventriculostomy, 63

## V

---

Ventricle(s). *See also specific ventricles.*

  anatomy of, **33–44**  
    cerebral aqueduct, 42  
    developmental, 33–36  
    fourth ventricle, 42–44  
    lateral ventricle, 36–40  
    third ventricle, 40–41, 59  
  loculated  
    CSF entrapment in, **83–93**  
      multiloculated, 89–90  
      postinflammatory, 85–86  
      shunt-related, 83–85  
      solitary cysts in, 88–89  
      treatment of, 86–91  
    fourth, 43  
    lateral, 40

Ventriculitis, in third ventriculostomy, 67–68

Ventriculomegaly, longstanding, of the adult, 50–51

Ventriculoscopy, for tumor evaluation, 4, 96

Ventriculostomy, third. *See* Third ventriculostomy.

Video monitors, for endoscopy, 21–22
