

'I wish the others were as easy to use.'

'ReSource is the best online submission system of any publisher.'

'It leads the way for online submission and refereeing.'

ReSource

A selection of comments received from just a few of the thousands of satisfied RSC authors and referees who have used ReSource to submit and referee manuscripts. The online portal provides a host of services, to help you through every step of the publication process.

**authors** benefit from a user-friendly electronic submission process, manuscript tracking facilities, online proof collection, free pdf reprints, and can review all aspects of their publishing history

**referees** can download articles, submit reports, monitor the outcome of reviewed manuscripts, and check and update their personal profile

**NEW!!** We have added a number of enhancements to ReSource, to improve your publishing experience even further. New features include:

- the facility for authors to save manuscript submissions at key stages in the process (handy for those juggling a hectic research schedule)
- checklists and support notes (with useful hints, tips and reminders)
- and a fresh new look (so that you can more easily see what you have done and need to do next)

A class-leading submission and refereeing service, top quality high impact journals, all from a not-for-profit society publisher ... is it any wonder that more and more researchers are supporting RSC Publishing? Go online today and find out more.

Registered Charity No. 207890

**No time to keep up with your reading?**

Let *Chem Soc Rev* do the hard work for you. Our mission is to provide authoritative, accessible, succinct and reader-friendly reviews on carefully selected topics of broad and specialist interest in the chemical sciences. Highly cited and engaging to read, *Chem Soc Rev* articles are designed to highlight important primary research papers, provide concise updates of technological progress and give insight into emerging industry trends. Don't waste time scouring the literature – pick up a copy of *Chem Soc Rev* and regain back some of your precious time.

# An international, high quality journal covering the full breadth of synthetic, physical and biomolecular organic chemistry.

See for yourself - examples of forthcoming papers are listed below.

## Communications

Practical access to the polymer incarcerated platinum (PI Pt) catalyst and its application to hydrogenation

*Shu Kobayashi, Japan*

Highly efficient hydrazination of conjugated nitroalkenes *via* imidazole or DMAP mediated Morita-Baylis-Hillman reaction

*Irishi Namboothiri, India*

## Articles

Oxazinanones as chiral auxiliaries: synthesis and evaluation in enolate alkylations and aldol reactions

*Steven Davies, UK*

Inotilone and related phenylpropanoid polyketides from *Inonotus* sp. and their identification as potent COX and XO Inhibitors

*Christian Hertweck, Germany*

Synthesis and self-assembly of dichalcone substituted carbazole-based low-molecular mass organogel

*Ran Lu, China*

Stabilisation of transition states prior to and following eudesmane cation in aristolochene synthase

*Rudolf Allemann, UK*

Design and activity of cationic fullerene derivatives as inhibitors of acetylcholinesterase

*Alberto Bianco, Italy*

On-bead synthesis and binding assay of chemoselectively template-assembled multivalent neoglycopeptides

*Pascal Dumy, France*

FluoRuGel: a versatile catalyst for aerobic alcohol oxidation in dense phase carbon dioxide

*Mario Pagliaro, Italy*
