Molecular BioSystems unzips ...

...to form its own strand of
interdisciplinary science

Since launch in 2005, *Molecular BioSystems* has been paired with *Chemical Communications*. This interaction with the host has resulted in an excellent channel of communication for the published content, which has reached a wide audience.

It is now time to unzip the two complementary journals, and from January 2008 *Molecular BioSystems* will assemble its very own strand of science as a solo publication, under the supervision of Sarah Thomas, Editor and Thomas Kodadek, Chair of the Editorial Board.

To ensure that you continue to read the very best in chemical biology research, with a focus at the interface between chemistry and the -omic sciences and systems biology, recommend *Molecular BioSystems* to your librarian today!
