EDITORIAL

MEMORIAL ISSUE HONORING ROLAND K. ROBINS

At a meeting of the Editorial Advisory Board of *Nucleosides & Nucleotides* held at the 10th International Round Table on Nucleosides, Nucleotides and Their Biological Applications, at Park City, Utah in September, 1992, it was decided that the journal should publish a memorial issue in honor of Dr. Roland K. Robins, who had died in August, 1992. A committee comprised of Dr. Leroy B. Townsend, Chairman, Dr. Arthur D. Broom, Dr. G. R. Revankar, and Dr. Morris J. Robins, was constituted to oversee the gathering of manuscripts. Through the efforts of this committee and the enthusiasm of the community of scientists that knew Roland and wished to contribute to the issue, we have compiled this triple issue of the journal. The issue begins with a tribute put together by Dr. Townsend based upon his remarks delivered at the 10th Round Table, followed by an up-to-date list of publications for Dr. Robins. The number and caliber of the contributions that follow testify to the esteem in which the scientific community held Roland. We hope that the issue will serve as a lasting tribute to the scientific contributions of Dr. Roland K. Robins.
