This article may be used for research, teaching and private study purposes. Any substantial or systematic reproduction, re-distribution, re-selling, loan or sub-licensing, systematic supply or distribution in any form to anyone is expressly forbidden.

The publisher does not give any warranty express or implied or make any representation that the contents will be complete or accurate or up to date. The accuracy of any instructions, formulae and drug doses should be independently verified with primary sources. The publisher shall not be liable for any loss, actions, claims, proceedings, demand or costs or damages whatsoever or howsoever caused arising directly or indirectly in connection with or arising out of the use of this material.

### EDITOR'S NOTE

We are saddened to report the recent deaths of two of our valued colleagues and long-time members of the Editorial Advisory Board of *Nucleosides & Nucleotides*. Karl-Heinz Scheit passed away on April 4, 1996, and Tsujiaki Hata on September 9, 1996.

Akira Matsuda, our regional editor for Japan, and Mitsuo Sekine of the Tokyo Institute of Technology are planning to put together an issue in honor of Dr. Hata. If you have an interest in contributing to this issue, details will be available soon from either of them or from this office.
