

# Correction to Preparation of Imides via the Palladium-Catalyzed Coupling Reaction of Organoborons with Methyl *N*-[Methoxy(methylthio)methylene]carbamate as a One-Carbon Elongation Reaction

Takuhei Tomizawa, Kohei Orimoto, Takashi Niwa, and Masahisa Nakada\*

*Org. Lett.* **2012**, 14(24), 6294–6297. DOI: 10.1021/ol303062a

## **S** Supporting Information

In the Supporting Information, the  $^1\text{H}$  NMR spectra for compounds **6b**, **8a**, and **8c–e** were found to have been edited to remove solvents and impurities. The original FID of compound **6b** was located, and the spectrum was reprocessed and has been replaced for compound **6b** in the revised Supporting Information submitted with this correction. Compounds **8a** and **8c–e** were resynthesized, and the new spectra are provided in the revised Supporting Information submitted with this correction. The spectra editing did not affect any of the conclusions of the published paper. The yields were found to be correct.
