

Correction to Catalytic Asymmetric [4 + 2] Cycloadditions and Hosomi–Sakurai Reactions of α -Alkylidene β -Keto Imides

Kohei Orimoto, Harufumi Oyama, Yuki Namera, Takashi Niwa, and Masahisa Nakada*

Org. Lett. **2013**, 15(4), 768–771. DOI: 10.1021/ol303381c

S Supporting Information

In the Supporting Information of this paper, the ^1H NMR spectra for compounds **1a**, *ent*-**5aa**, **5ab-1**, **1d**, **3d**, **7aa**, **7aa-1**, **7ab-1**, **7ba-1**, and **8bb** were found to have been edited to remove solvents and impurities. All of the above compounds were resynthesized, and the new spectra are provided in the revised Supporting Information submitted with this correction. The spectra editing did not affect any of the conclusions of the published paper. The yields were found to be correct.
