

The *N*-Aryl Aminocarbonyl *ortho*-Substituent Effect in Cu-Catalyzed Aryl Amination and Its Application in the Synthesis of 5-Substituted 11-Oxo-dibenzodiazepines

Xiaoqiong Diao, Lanting Xu, Wei Zhu, Yongwen Jiang, Haoyang Wang, Yinlong Guo, and Dawei Ma*

Organic Letters **2011**, 13 (24), 6422–6245. DOI: 10.1021/ol202721h

The findings published by Yao et al. in *Adv. Synth. Catal.* **2012**, 354, 2229–2240 have alerted the authors of this work (DOI: 10.1021/ol202721h) that the structural assignments for the cyclization products **7a–n** and **4** are incorrect. Therefore, the authors have requested that this Letter be retracted.
