

Correction to Beyond Benzoin Condensation: Trimerization of Aldehydes via Metal-Free Aerobic Oxidative Esterification of Aldehydes with Benzoin Products in the Presence of Cyanide

Yoo-Jin Kim, Na Yeun Kim, and Cheol-Hong Cheon*

Org. Lett. **2014**, *16* (9), 2514–2517. DOI: 10.1021/ol5008845

Page 2517, ref 15. The following citations should be added to ref 15, concerning the important prior works of the similar oxidative esterification of benzaldehyde using a NHC catalyst and elucidation of reaction mechanism for this transformation with the NHC catalyst: (c) Delany, E. G.; Fagan, C.-L.; Gundala, S.; Mari, A.; Broja, T.; Zeitler, K.; Connon, S. J. *Chem. Commun.* **2013**, *49*, 6510. (d) Delany, E. G.; Fagan, C.-L.; Gundala, S.; Zeitler, K.; Connon, S. J. *Chem. Commun.* **2013**, *49*, 6513.
