OXYDATION PRODUCTS OF SOME PYRIMIDINE - 2 - SULFIDES

D. Kolbah and N. Zambeli

Faculty of Pharmacy and Biochemistry, University of
Zagreb, Yugoslavien

In connection with our research in pyrimidine chemistry
we have studied the oxydation conditions for preparing
sulfoxyde and sulfone starting from 2 - benzylthio -
- 4, 6 - disubstituted pyrimidines:

In some cases products of oxydative desulfuration were
isolated.
