## Aims and Scope

Original articles, communications and brief, selected reviews of broad interest to the organic, inorganic and biochemistry of sulfur, phosphorus, antimony, bismuth, selenium and tellurium will be considered for publication in *Phosphorus and Sulfur*. Regular papers may be sent to Cos Cob or Mainz. Communications and reviews will be the responsibility of the Associate Editors, to whom they should be sent directly.

Contributions will be refereed by members of the Editorial Board and other experts in this interrelated discipline. Requirements for acceptance include originality, breadth of scope, careful documentation of experimental results, and clarity and brevity of presentation. There are no page charges for papers published in *Phosphorus and Sulfur*.

The Editors and Publisher strive to provide rapid publication of accepted papers. Proofs for regular papers and reviews are provided within 4-6 weeks after acceptance and must be returned promptly. The journal is published on the basis of three issues per volume with an increased number of volumes per year where required to ensure rapid publication.

Notes for Contributors, including information on communications and reviews, can be found at the back of every issue.

## Subscription rates

Three issues per volume: Institutional subscription rate per volume: \$352.00 (including postage). Individual subscription rate per volume: \$141.00\* (including postage). University and academic libraries in North America, Western Europe and Australia receive a 20 percent academic discount from the institutional corporate rate. \*Individual subscription rates are available only to individuals who subscribe directly from the publisher and who pay through personal checks or credit cards.

This price applies in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Please write to the publisher for details. Send your order to your usual supplier or direct to Gordon and Breach, Science Publishers, Inc., c/o STBS Ltd., One Bedford Street, London WC2E 9PP, England. Journal subscriptions are sold on a volume basis only, single issues are not available separately. Claims for nonreceipt of issues should be made within three months of publication of the issue or they will not be honored without charge. Subscriptions are available for microform editions. Please write for details.

## License to Copy

The appearance of the code at the top of the first page of an article in this publication indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on condition the copier obtains a license directly from the publisher at the address above. Subscribers will be offered a license with each subscription renewal of the publication. The license will not be extended to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Nor does the license extend to any individual or company specifically advised by the publisher in writing that consent is being expressly withheld. It is expressly forbidden to any individual or company to copy any article as agent, either express or implied, of another individual or company.

## Reprints of Individual Articles

Copies of individual articles may be obtained from the publisher's own document delivery service. On-Demand Publishing, at appropriate fees. © 1986 Gordon and Breach, Science Publishers, Inc.
