ERRATUM

In *Phosphorus*, *Sulfur*, *and Silicon* 177(6–7): 1677–1680, Yuri G. Golobov, Pavel V. Petrovskii, Olga V. Dovgan, Irina Y. Krasnova, Reinhard Schmutzler, Ludger Ernst, Peter G. Jones, Atilla Karacar, Matthias Freytag, and Sakir Okucu, Synthesis, Properties, and Atropisomerism of Arylcarbamates with a Phosphonium Group, the final sentence before the References was misprinted. The sentence is to read: The dependence between $\Delta G \neq \text{values}$ and the bulk of the substituents on the aromatic ring is evident. An increase of the size of the *ortho*-substituent is directly reflected by an increase in the barrier height.

In *Phosphorus, Sulfur, and Silicon* 178(1): 191–197, Ivanka Kraicheva, Synthesis and NMR Spectroscopic Study of a New Anthracene Derived Schiff Base and a Bis(Aminophosphonate) Obtained from It, an error was made in the abstract. The line in the abstract is to read: The NMR spectra reveal that the bis(aminophosphate) is one of the two diastereomeric forms—meso or racemic.

The publisher wishes to express its sincere regrets for any inconvenience these errors may have caused the authors and the readers of *Phosphorus*, *Sulfur*, *and Silicon*.
