

SUBJECT INDEX

- ACTH 1-24
 - ³H lysine brain incorporation, 139
- ACTH 1-39
 - enhancement of muscular function, 179
- ACTH 4-9
 - reversal of CO₂ amnesia, 53
- ACTH 4-10
 - analeptic effects, 135
 - memory in elderly humans, 73
 - neuromuscular function, 179
 - short-term memory in humans, 69
- ACTH 4-10-D-Phe-7
 - ³H lysine brain incorporation, 139
 - memory and avoidance learning, 41
- ACTH 4-10-L-Phe-7
 - ³H lysine brain incorporation, 139
 - memory and avoidance learning, 41
- ACTH analogues
 - attention and discrimination, 3
 - infant administration and adult effects, 3
 - passive avoidance, 3
 - sex differences, 3
- Active avoidance
 - ACTH 4-10-L and -D and memory, 41
 - α -MSH in chicks, 59
- Amnesia
 - CO₂ induction and reversal by ACTH 4-9, 53
- Analeptic properties
 - ACTH 4-10, LHRH and TRH, 135
- Angiotensin II
 - effects on induced drinking, 103
- Arousal
 - TRH in rabbits, 111
- Attention
 - ACTH 4-10 and memory in elderly humans, 73
 - ACTH 4-10 and short-term memory in humans, 69
 - MIF-I and visual discrimination, 11
 - α -MSH and visual discrimination, 11
 - MSH/ACTH 4-10 and attention in mentally retarded humans, 23
 - MSH/ACTH 4-10 and memory in man, 17
 - MSH/ACTH 4-10 and visual discrimination, 11
 - ventricular ACTH 4-9 and discrimination, 3
- Blood-brain barrier
 - uptake of peptides, 151
- Brain
 - cerebral ventricle, 3, 139
 - dorsal hippocampus, 29
- Brain blood flow
 - estradiol and α -MSH, 165
- Brattleboro strain
 - vasopressin absence and avoidance learning, 35
- Cyclic AMP
 - brain levels and α -MSH and MIF, 117
- Development
 - TRH in infant rats, 65
- Dimensional attention
 - MIF-I and visual discrimination, 11
 - α -MSH and visual discrimination, 11
 - MSH/ACTH 4-10 and visual discrimination, 11
- Discrimination learning
 - infant ACTH 9-10 and adult effects, 3
 - MIF-I and visual discrimination, 11
 - α -MSH and visual discrimination, 11
 - MSH/ACTH 4-10 and visual discrimination, 11
- DOPA potentiation test
 - MIF-I effects, 121
- Dopaminergic neurons
 - effects of MIF-I, 125
- Dorsal hippocampus
 - ACTH 4-10 and avoidance behavior, 29
 - vasopressin and avoidance behavior, 29
- Drinking
 - effects of angiotensin, II, 103
- Drug
 - ACTH 1-24, 139
 - ACTH 1-39, 179
 - ACTH 4-9 (Organon 2766), 3, 53
 - ACTH 4-10 (Organon OI 63), 69, 73, 135, 139, 179
 - ACTH 4-10-D-Phe-7, 41, 139
 - ACTH 4-10-L-Phe-7, 41, 139
 - Angiotensin, II, 103
 - DOPA, 121
 - estradiol, 165
 - LHRH, 89, 135, 171
 - β -LPH, 159
 - MIF, 11, 79, 89, 117, 125, 151
 - α -MSH, 11, 59, 117, 151, 159, 165, 179
 - β -MSH, 159, 179
 - MSH/ACTH 4-10, 11, 17, 23, 29, 159
 - SRIF, 171
 - TRH, 65, 79, 89, 95, 111, 129, 135, 171
 - vasopressin, 29, 151
- EEG
 - ACTH 4-10 and attention in man, 17
- Emotional behavior
 - LHRH, MIF and TRH in humans, 89
 - TRH in depressed human patients, 95
- Emotionality
 - TRH in infant rats, 65
- Estradiol
 - blood flow in rat brain, 165
- Hyperthermia
 - TRH in rabbits, 111
- Learning
 - ACTH 4-10-L and -D and long-term memory, 41
 - TRH and maze learning in rats, 65
 - vasopressin hereditary lack, 35
- β -lipotropic hormone (β -LPH)
 - effects on motor activity, 159
- Long-term memory
 - ACTH 4-10-L and -D and avoidance tasks, 41
- Luteinizing-hormone-releasing-hormone (LHRH)
 - analeptic effects, 135
 - emotional effects in humans, 89
 - regulatory action on central neurons, 171

- Memory
 - ACTH 4-9 and amnesia reversal, 53
 - ACTH 4-10 and elderly humans, 73
 - ACTH 4-10 and short-term memory in humans, 69
 - ACTH 4-10-L and -D, 41
- Mental depression
 - TRH effects in humans, 95
- Mentally retarded humans
 - MSH/ACTH 4-10 and improved attention, 23
- N-Methyltransferase inhibitor
 - opiate binding peptide, 147
- Motivation
 - α -MSH and avoidance behavior, 59
- Motor activity
 - β -LPH, 159
 - MIF and TRH in monkeys, 79
 - α -MSH, 159
 - β -MSH, 159
 - MSH/ACTH 4-10, 159
 - TRH and cyclic AMP in rats, 129
- α -MSH
 - avoidance behavior in chicks, 59
 - blood flow in rat brain, 165
 - cyclic AMP brain levels in rats, 117
 - effects on motor activity, 159
 - neuromuscular function, 179
 - sleep and brain respiration in rats, 59
 - visual discrimination and dimensional attention, 11
- β -MSH
 - effects on motor activity, 159
 - neuromuscular function, 179
- MSH/ACTH 4-10
 - attention and memory in man, 17
 - attention in mentally retarded humans, 23
 - dorsal hippocampus and avoidance behavior, 29
 - effects on motor activity, 159
 - visual discrimination and dimensional attention, 11
- MSH-release-inhibiting-factor (MIF)
 - Blood-brain barrier, 151
 - cyclic AMP brain levels in rats, 117
 - DOPA potentiation test effects, 121
 - effect on dopaminergic neurons, 125
 - emotional behavior in humans, 89
 - social and motor behavior in monkeys, 79
 - visual discrimination and dimensional attention, 11
- Muscular function
 - ACTH peptide effects, 179
- Opiate receptor
 - opiate binding peptide, 147
- Passive avoidance
 - ACTH 4-10-L and -D and memory, 41
 - infant ACTH 9-10 and adult effects, 3
- Prandial drinking
 - effects of angiotensin II, 103
- Protein synthesis
 - ACTH and 3 H lysine brain incorporation, 139
- Salt arousal of drinking
 - effects of angiotensin II, 103
- Schedule induced polydipsia
 - effects of angiotensin II, 103
- Sleep
 - α -MSH and rats, 59
- Social behavior
 - LHRH, MIF and TRH in humans, 89
 - MIF and TRH in monkeys, 79
- Somatostatin, growth hormone release inhibiting hormone (SRIF)
- Tachypnea
 - TRH in rabbits, 111
- Temperature regulation
 - TRH and cyclic AMP, 129
- Thyrotropin releasing hormone (TRH)
 - analeptic effects, 135
 - cyclic AMP and behavior in rats, 129
 - effects on CNS of rabbits, 111
 - emotional behavior in humans, 89, 95
 - learning, emotionality and development in rats, 65
 - regulatory action on central neurons, 171
 - social and motor behavior in monkeys, 79
- Vasopressin
 - blood-brain barrier, 151
 - dorsal hippocampus and avoidance behavior, 29
 - hereditary lack and avoidance behavior, 35
- Vigilance
 - ACTH 4-10 and learning in man, 17
 - α -MSH and avoidance behavior, 59
- Visual discrimination
 - MIF-L and dimensional attention, 11
 - α -MSH and dimensional attention, 11
 - MSH/ACTH 4-10 and dimensional attention, 11
- Water deprivation
 - effects of angiotensin II, 103
