

# ANNOUNCEMENTS

Once every two years the Netherlands Institute for Brain Research and the University of Amsterdam organize an International Summer School of Brain Research. The 13th Summer School, to be held in Amsterdam from August 22-26, 1983, is organized by G. J. de Vries, J. P. C. de Bruin, M. A. Corner, D. F. Swabb, H. H. Swanson and H. B. M. Uylings, and will take place at the building of the Royal Netherlands Academy of Sciences (Kloveniersburgwal 29). The school will be devoted to the theme "Sex Differences in the Brain—Relation between Structure and Function."

A National Institutes of Health Consensus Development Statement on Defined Diets and Childhood Hyperactivity now may be obtained from the NIH Office for Medical Applications of Research. The report was prepared by a panel of experts which considered scientific evidence presented at a Consensus Development Conference at the NIH. It contains recommendations and conclusions concerning the effect of defined diets on hyperactivity.

Free, single copies of the Consensus Statement on Defined Diets and Childhood Hyperactivity are available from:
