STANLEY, B. G., D. H. SCHWARTZ, L. HERNANDEZ, S. F. LEIBOWITZ AND B. G. HOEBEL. *Patterns of extracellular 5-hydroxyindoleacetic acid (5-HIAA) in the paraventricular hypothalamus (PVN): Relation to circadian rhythm and deprivation-induced eating behavior*. PHARMACOL BIOCHEM BEHAV **33**(1) 257–260, 1989.—

Due to an editorial oversight, an incorrect reference number was cited in the last paragraph of p. 257. The appropriate sentence should read: “In a recent microdialysis study, primarily focused on daily rhythms of PVN NE (19), we also measured the serotonin metabolite . . .”

We regret any inconvenience caused by this error.
