

ANNOUNCEMENT

PHARMACOLOGY BIOCHEMISTRY AND BEHAVIOR

1st European Meeting

Morzine, France
January 7–14, 1996

Organised by Sandra E. File, European Editor-in-Chief

Conference theme:
SEX, STRESS, AND ANXIETY

Symposia topics:

1. Genetic selection and innate fear responses
2. Sexually differentiated behaviours
3. Relationship between stress, anxiety and depression
4. Psychoneuroimmunology
5. Methodological issues

Contributors will include: Enrico Alleva, Lembit Allikmets, Bela Bohus, Michel Bourin, Julia Buckingham, Lex Cools, Ronald de Kloet, Colin Dourish, Colin Hendrie, Francesca Farabollini, Sandra File, Gilles Fillion, Jonathan Fry, Marion Kendall, Brian Leonard, Charles Marsden, Pierre Mormede, Roger Porsolt, John Rodgers, Rosario Samanin, Jon Shepherd, Clare Stanford, Jean de Vry, and Catherine Wilson.

The conference will be limited to a maximum of 150. Applications to Professor S.E. File (Fax: 44 171 955 4627; E-mail: pbbeuro@umds.ac.uk; Psychopharmacology Research Unit, Guy's Hospital Medical School, P.O. Box 3448, London SE1 9QH) stating present position and date of Ph.D. We would particularly welcome Ph.D. students and recent post-docs whose registration fee will be waived if they have an abstract accepted. We are also able to offer a limited amount of free accommodation in shared apartments.

Those wishing to present a free communication (10 min oral presentation) pertinent to the theme of the meeting should send 3 copies of a one-page abstract (that includes data & statistics) and should state the most appropriate symposium for their contribution.

Closing date for applications: 30th April 1995

ANNOUNCEMENTS

FOURTH INTERNATIONAL BEHAVIORAL NEUROSCIENCE SOCIETY CONFERENCE

Santiago de Compostela, Spain
May 18–21, 1995

The Fourth INTERNATIONAL BEHAVIORAL NEUROSCIENCE SOCIETY CONFERENCE will be held in conjunction with the celebration of the 500th Anniversary of the University of Santiago de Compostela, the host institution. Scientific program will include plenary lectures, oral communications and poster sessions. The aim of the IBNS meeting is to facilitate communication among scientists engaged in understanding the neural basis of behavior. The meeting will focus on a number of basic science and clinical areas. For meeting information, including satellite symposia, registration material, call for abstracts, and membership application, please contact: Marianne Van Wagner, IBNS Central Office, Division of Life Sciences, The University of Texas at San Antonio, San Antonio, TX 78249-0662; Tel: (210) 691-4481; FAX: (210) 691-4510; Internet: editoff@lonestar.utsa.edu

OFFICIAL SATELLITE SYMPOSIUM of the 15th International Society for Neurochemistry Meeting

Neuromediators and Brain Dysfunction
Hotel Kayu-Kaikan
Tokyo, Japan
June 27–28, 1995

This Symposium will summarize recent data on the mechanism of action of known and potential neurotoxins. Major topics will include:

- Synthesis, storage, and release of neural transmitters
- Receptor interactions
- Inter and intra-cellular signal transduction
- Extracellular signal transmission particularly diffusible substances, e.g., nitric oxide, glutamate, etc.
- General metabolism with emphasis on metabolic activators, e.g., glucose, mitochondria, etc.
- Cerebral dysfunctions

Participants will be limited to the first 100 who register.

Additional information can be obtained from the organizers:

YUJI MARUYAMA (Japan)
Dept. of Neuropsychopharmacology (Tsumura)
