

## ANNOUNCEMENT

### THE A. C. NEISH MEMORIAL TRUST

The associates and friends of Dr. Arthur C. Neish have established a Memorial Trust in recognition of his life of outstanding service to science, especially to plant biochemistry (see (1973) *Phytochemistry* **12**, 1841). It is intended that the income from the Trust will finance a series of lectures, to be known as the A. C. Neish Memorial Lectures, which will be given annually or biennially in Canada by a distinguished scientist. Because Dr. Neish maintained close personal and professional ties with Nova Scotia, it is proposed that the lectures will normally be presented in his native province, but other areas of Canada may be included if adequate funds are available.

Those wishing to register their esteem for Dr. Neish are invited to send their donations to: The A. C. Neish Memorial Trust, c/o Mrs. I. M. Hilchie, Atlantic Regional Laboratory, National Research Council of Canada, 1411 Oxford Street, Halifax, N.S., Canada B3H 3Z1.

This Trust has been registered as a Canadian Charitable Organization and receipts for Canadian Income Tax purposes will be provided. A statement on the operation of the Trust will be issued from time to time.
