

## ERRATUM

H. C. Winter and E. E. Dekker (1987) *Phytochemistry* **26**, 2477. The publishers regret the following errors in the above paper. In Table 1, the numbers '4' and '7', indicating days of germination, should be directly over columns two and three respectively; the first number in the penultimate column should be 111, not 1110. On p. 2480, the last sentence in the first column should begin, "Initial conditions consisted of 85% solvent A (0.15 M  $\text{NH}_4\text{OAc}$ ) plus 15% solvent B (MeCN);".

## CORRIGENDA

H. Shimimura *et al.* (1987) *Phytochemistry* **26**, 2365. The authors regret a mistake in structure of compound **3**, the correct structure is given below.

**3**

M. Bokern *et al.* (1987) *Phytochemistry* **26**, 3229. The authors regret that ref. [21] should read Schulz, M. (1986) Doctoral thesis, University of Cologne, F.R.G., instead of Schulz, M. and Weissenböck, G. (1987) *Phytochemistry* **26**, 933.
