

PHYTOCHEMISTRY, BIOCHEMICAL SYSTEMATICS AND ECOLOGY

WEDNESDAY 6 JULY 1988

In association with the publication of this issue a Memorial Meeting is to be held at the Royal Botanic Gardens, Kew, Richmond, Surrey, U.K.

IN TRIBUTE TO PROFESSOR TONY SWAIN, 1922-1987

founder editor of the journals *Phytochemistry* and *Biochemical Systematics and Ecology*. Speakers will review Tony's major contributions to research in these fields.

- 10.00-10.30 Coffee in the Jodrell Laboratory
- 10.30-10.50 Keith Jones (Kew)
A personal tribute
- 10.50-11.30 Jeffrey Harborne (Reading)
Phytochemical Methods—the bases of systematic and ecological investigations
- 11.30-12.10 Dave Phillipson (London)
Plant Chemosystematics—the micromolecules
- 12.10-12.50 Peter Waterman (Glasgow)
Biochemical ecology in action—plant tannins
- 12.50-2.20 Buffet lunch
- 2.20-3.00 Arthur Bell (Kew)
The link between systematics and ecology—nitrogen compounds
- 3.00-3.45 Tour of Princess Diana Glasshouse
- 3.45-4.00 Tea and dispersal

Two additional papers should be included with this Memorial Issue. They are:

T. A. Smith and J. H. A. Marshall (1988) 'Oxidation of amino acids by manganous ions and pyridoxal phosphate' **27**, 1611.

F. Bertelsen, G. Gissel-Nielsen, A. Kjaer and T. Skrydstrup (1988) 'Selenoglucosinolates in nature: fact or myth?' **27** (in press).
