

PAPERS ACCEPTED FOR PUBLICATION IN JULY AND AUGUST

- J. A. ATTAWAY, A. P. PIERINGER and L. J. BARABAS: The origin of Citrus flavor components
—I
- E. ZAVARIN, N. T. MIROV and K. SNAJBERK: Turpentine chemistry and taxonomy of three pines of Southeastern Asia
- N. T. MIROV, E. ZAVARIN and K. SNAJBERK: Chemical composition of the turpentines of some Eastern Mediterranean pines in relation to their classification
- P. E. PILET: Effect of *p*-hydroxybenzoic acid oil on the growth, the auxin content and the auxin catabolism
- H. SCHRAUDOLF: Der stoffwechsel von Indolderivaten in *Sinapsis alba* L.—I
- G. PONSINET et G. OURISSON: Etudes chimio-taxonomique dans la famille des Euphorbiacées
—I
- G. PONSINET et G. OURISSON: Etudes chimio-taxonomique dans la famille des Euphorbiacées
—II
- W. BOTTOMLEY, H. SMITH and A. W. GALSTON: Flavonoid complexes in *Pisum Sativum*—III
- J. E. GANDER: Evidence for two phenolic glucosides derived from L-tyrosine in Sorghum seedlings
- K. W. GILES and A. MYERS: The effect of giberellic acid and light on RNA, DNA and growth of the three basal internodes of dwarf and tall peas
- D. H. G. CROUT, M. H. BENN, H. IMASEKI and T. A. GEISSMAN: Pyrrolizidine alkaloids. The biosynthesis of seneciophyllic acid
- L. HOUGH and B. E. STACEY: Variation in the allitol content of *Itea* plants during photosynthesis
- H. G. FLOSS and U. MOTHES: On the biosynthesis of furocoumarins in *Pimpinella magna*
- H. RÖSLER, U. RÖSLER, T. J. MABRY and J. KAGAN: The flavonoid pigments of *Opuntia lindheimeri*
- T. A. RICKETTS: On the chemical composition of some unicellular algae
- L. A. GARRARD and R. H. BIGGS: A study of thioamide-induced germination of seeds of *Prunus persica*
- B. H. KOEPPEN and D. S. BASSON: The anthocyanin pigments of Barlinka Grapes
- I. P. VARSHNEY and S. C. SHARMA: Saponins and sapogenins—XXIX
- J. B. HARBORNE: Comparative biochemistry of flavonoids—I. Distribution of chalcone and aurone pigments in plants
- M. RICHARDSON: Studies on the biogenesis of some simple amines and quaternary ammonium compounds in higher plants. Iso-amylamine and isobutylamine
- J. D. MOLD, R. E. MEANS and J. M. RUTH: The higher acids of flue-cured tobacco. Methyl and cyclohexyl branched acids
- V. K. BHATIA, S. R. GUPTA and T. R. SESHADRI: C-Glycosides of Tamarind leaves
- P. BENVENISTE, L. HIRTH and G. OURISSON: Utilisation des tissus de plantes cultivés *in vitro* pour l'étude des produits naturels (1). La biosynthèse des sterols dans les tissus de tabac cultivés *in vitro*—I. Isolement de sterols et de triterpenes
- P. BENVENISTE, L. HIRTH and G. OURISSON: Utilisation des tissus de plantes cultivés *in vitro* pour l'étude des produits naturels (1). La biosynthèse des sterols dans les tissus de tabac cultivés *in vitro*—II. Particularités de la biosynthèse des phytostérols des tissus de tabac cultivés *in vitro*
