^b Department of Chemistry, University of Colombo, Colombo, Sri Lanka

It is regretted that the wrong figure has been inserted at the top of page 379.

Figure 1 should have the mass fragmentation of compound **1**. However, the structures of the compounds **1** and **2** (already given on page 378) have been repeated erroneously and the actual figure of the mass fragmentation of compound **1** is missing

The correct figure is shown below.
