The Phytochemical Society of Europe— Pierre-Fabre Award for Phytochemistry

The Phytochemical Society of Europe and Pierre-Fabre Laboratories are pleased to publish this call for candidates for the 2004 Award, to be presented to a young European scientist who has made an outstanding contribution to phytochemistry or plant biochemistry. Candidatures are invited from all disciplines within this general field. The Award aims to reward an exceptional contribution made in developing the field in which the candidate is working.

The Award consists of a cheque for 2000 euros, together with a parchment certificate. Recipients will be invited to present their research in the form of an award lecture to be delivered during one of the Society's meetings. Expenses for attending the meeting are included in the Award.

Previous PSE-PF Awardees are:

2001—Professor Robert NASH (UK)

2002—Dr Wolfgang EISENREICH (DE)

2003—Dr Virginia LANZOTTI (IT)

All members of the PSE are strongly encouraged to make a nomination. This should consist of a CV, a short summary (1–2 pages) of the significant points of the candidate's research career, the address of 2 or 3

independent referees and a letter of support. In particular, Professors and Directors of Institutes are encouraged to nominate colleagues or promising former PhD students.

Nominations for the 2004 Award should be sent before **1 March 2004** to the PSE Chairman:

Dr Richard ROBINS,
Laboratoire d'Analyse Isotopique et Électrochimique
de Métabolismes,
CNRS UMR6006,
Faculté des Sciences et des Techniques,
Université de Nantes,
B.P. 92208,
F-44322 Nantes 03, France.
