Available online 23 April 2004

The publishers regret that the co-author's name was missing from p. 485 of the above article. The author's names on that page should be as follows: Geza Hrazdina\*, W. Borejsza-Wysocki. The first author should also be cited as the corresponding author at the foot of that page (see the revised footnote below). In addition, the

co-author's name should be removed from the first sentence of the Acknowledgements on p. 491. That sentence should now read as follows: The author thanks H.L. Gustafson, Department of Plant Pathology for his help with the production and maintenance of the sterile apple plants.
