— Doug Walker's Small Business Moment —

On May 3rd, 2008, Doug Walker seized his moment with AT&T Small Business Solutions. At a job site in Rome, Georgia, he saw workers were ahead of schedule. Using AT&T Push to Talk he connected instantly with his suppliers to expedite building materials and keep the momentum going. The job in Rome wasn't built in a day, but thanks to Doug, it was built pretty dang fast.

Seize your moment with AT&T Small Business Solutions.

If you're in construction, you need AT&T mobile productivity tools. Access the Internet on job sites with AT&T LaptopConnect Cards. Keep scheduling on track with AT&T smartphones that connect crews, suppliers and contractors with instant access to the largest Push to Talk network in the U.S.

Without Products, No Product

Are we talking product? Or products?

Because when I speak to builders, they love to talk about the product they sell: their homes. It's natural. Homes are what attracted them to this business, and their variety and appeal are what keep their attention. In some ways, homes are the sirens that lure home builders.

Inside that product, though, are the other great things builder love to talk about: building products. There isn't a builder in the land who isn't looking for an advantage in the marketplace through the smart introduction of product selection. The variety and appeal of the products they install are a significant part of creating the home environment consumers love. Try to sell a home at almost any price point that doesn't have some kind of stainless steel appliance — it's not easy.

But is there a more daunting task than finding, identifying and selecting great products that will help differentiate your product? Is there an area that is harder to keep track of in home building than the introductions of new building products?

That's where we come in. Every month, we cover the latest product to hit the market. (Look in the back of every magazine.) We also talk about the products used in projects we feature. And, every year we provide this Buyers' Guide so you can easily reference who makes what for what. This year, we've included a supplement of the 100 Best New Products, which you can find under separate cover.

viega

1899

Viega was established in 1899 with our first product line: brass beer taps.

National Park Service trusted Viega to protect Lady Liberty.

As the first, fast and flameless way to join copper pipe, Viega ProPress® was an easy choice when it came to protecting the Statue of Liberty. No other press system delivers the quality of design and materials with the widest selections of fittings and valves for copper – water and gas – and now stainless steel.

To discover the difference Viega quality can make on your next installation, contact us at 1-877-843-4262.

Project: Fire detection system for the Statue of Liberty.

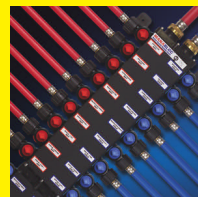

Solution: Viega ProPress fittings allowed contractors to save time and money installing a complex system in Lady Liberty.

Somewhere in Italy, a quarry worker twiddles his thumbs. With postformed laminate countertops from VT, you get all of the aesthetics of stone at a fraction of the price — so there's no need for granite or marble to take a bite out of your budget. There's also no need for the mess and elbow grease associated with resealing. And they're easily fabricated and installed by members of our VT PRO Team. For more information on our countertops or to locate a VT PRO Team fabricator, simply log on to www.vtindustries.com.

Good. Better. ProPEX.®

The Uponor ProPEX fitting system.
So advanced it even forms strong,
permanent connections with your
customers.

- Uponor ProPEX fittings are the most widely used fittings for plumbing, fire protection and radiant heating systems.
- The unique shape memory of Uponor PEX tubing forms a tight seal for a strong, permanent connection...without torches, glues or gauges.
- Uponor professionals are ready to help you create better plumbing layouts with fewer connections that minimize costs.

ProPEX fittings are available in both brass and engineered plastic (EP).

Quite simply, the ProPEX system is the answer — because quality is never a question.

To learn more, call 800-321-4739 or visit

www.uponor-usa.com

**There's a reason
frying pans are made of
aluminum, not concrete.**

***Warmboard comfortably heats homes
using the same logic.***

The thick aluminum surface of Warmboard radiant subfloor possesses the two most important properties for excellent thermodynamic performance: high conductivity and low thermal mass.

Aluminum is hundreds of times more conductive than concrete, which results in the lowest water temperatures in the radiant heat industry and reduced energy bills. Warmboard's low thermal mass permits it to heat up faster and respond more rapidly than concrete slab-based systems. This allows the right amount of radiant heat where and when it is wanted.

When thinking about high performance and efficiency of radiant heat systems, think aluminum, not concrete.

RISE AND SHINE!

From Riser to Fixture, a Complete Plumbing Solution

FlowGuard Gold®/Corzan® CPVC plumbing systems provide superior durability and will not pit, scale or corrode regardless of water quality, unlike metallic systems. CPVC systems have been installed in commercial buildings including hotels, hospitals, schools, major universities and high-rise applications for nearly 50 years. Benefits include:

- **Stable Material Costs** – projects stay on budget
- **Faster** – more efficient installations over metallic piping systems
- **Maintained Water Quality** – no concerns regarding copper leaching
- **Quiet Operation** – 4 times quieter than copper systems
- **Reduced Condensation** – significantly reduces the risk of costly drip damage to walls, structure and contents

BlazeMaster Fire Sprinkler Systems.

For reliability, ease of installation and cost-efficiency, more plumbing contractors choose BlazeMaster® CPVC Fire Sprinkler Systems.

With over one billion feet of piping system installed in over 50 countries since 1984, and with more listings and approvals than any other non-metallic fire sprinkler piping system, BlazeMaster is the most recognized and specified non-metallic fire sprinkler piping system in the world.

For fire protection that's corrosion-resistant, longer lasting, and easier and less costly to install, call 888-234-2436. Or visit our website at www.blazemaster.com.

Building Kleen is Building Green!

KleenWrap. It's a tough, thin, breathable material engineered to protect subfloors during construction.

KleenWrap installs quickly... and it protects for months.

Don't waste time and money trying to scrape and sweep embedded mud, drywall compound, dirt and debris. Simply remove the KleenWrap and throw it away. **It's even 100% poly so it is recyclable.**

The construction mess is gone and your subfloors are ready for finish flooring. Ask your Dealer about KleenWrap, give us a call or visit our website.

KleenWrap. It's about time... and money!

Tired of subfloors that sometimes look like this?

Install KleenWrap and they can look like this!

Closer to Nature, Closer to You

One of the best things you can give your child or grandchild doesn't come from a store. It's time spent with you exploring the gifts of nature, discovering that what's really important in life...is life itself.

Go to arborday.org and check out The National Arbor Day Foundation's Kids Explore Club. Your family will have fascinating adventures right in your neighborhood, and you'll gain a deeper appreciation for the wonders of nature, and for each other.

Whether you live in the city, the country, or anywhere in between, the Kids Explore Club has fun activities just right for you. Go online to arborday.org/explore, or write Kids Explore Club, National Arbor Day Foundation, Nebraska City, NE 68410.

*Gate posts should always be reinforced with steel or aluminum inserts. © 2008 Trex Co., Inc.

**Trex Seclusions® Fencing doesn't just separate yards.
It separates builders.**

Trex Seclusions Privacy Fencing not only offers beauty and privacy from every angle, it can significantly increase the value of an entire neighborhood. Like Trex® decking, our fencing won't rot, warp, splinter or buckle, so it'll never need painting or staining. It's also resistant to insects, and withstands winds up to 130 mph. The "stick-built" system can also be easily customized, racking or stepping is no problem, and the robust posts need no reinforcement.* To add value to your next project, call 1-800-BUY-TREX ext. 72, or visit trexfencing.com.

THE NEW COMMERCIAL STANDARD

GRAB LIFE BY THE HORNS

DODGE

DON'T GET US STARTED ABOUT STOPPING.

INTRODUCING THE ALL-NEW 2008 DODGE RAM 4500 AND 5500 CHASSIS CABS. Anyone who's hauled a big load knows the importance of stopping power. That's why we gave these new trucks huge 390-mm rotors, and 66-mm twin piston calipers at all four corners and a standard diesel exhaust brake. That's a bigger front rotor diameter than what you'd get on Ford or GM class 4 and 5 conventional chassis cabs. And when it's time to get started, we've got a commercial grade AISIN 6-speed automatic transmission available with a special tow/haul mode. For more information, visit dodge.com/chassis_cab or call 800-4ADODGE.

Nobody dreams of having multiple sclerosis.

Some dreams are universal: scoring a perfect 10 on your last attempt to win the Gold medal; standing on the podium as the national anthem fills the arena. Finding out that you have MS is not one of them.

Multiple sclerosis is a devastating disease of the central nervous system where the body's immune system attacks the insulation surrounding the nerves. It strikes in the prime of life and changes lives forever.

This is why the National MS Society funds more research, provides more services for people with MS, and offers more professional programs than any other MS organization in the world. But we can't do it alone.

To help make the dream of ending MS come true, visit us online at nationalmsociety.org, or call **1-800-FIGHT MS**.

Builder

Builder[®] of the Year

Tell us about the one building
company you think sets the
standard for all the rest.

First, on your letterhead, please list your name, title and contact information as well as the name and complete address of the building company you are nominating. Next, evaluate your nominee by these criteria:

Is the company...

- excellent in all aspects of home building?
- innovative in all areas of operations including design, management, building practices, marketing, community relations, customer satisfaction, productivity and profitability?
- highly reputable in the market(s) served?
- employing and retaining the brightest and best personnel?

Finally— tell us why this year is the right year for the company to be honored as the *Professional Builder* 2009 Builder of the Year.

Seated Left: David Simon, President of Operations
Seated Right: Jeff Rosenberg, President of Land
Development and Acquisition, Veridian Homes

Beauty Begins With Dependable Performance.

Introducing Tru-Defense™ Door Systems.

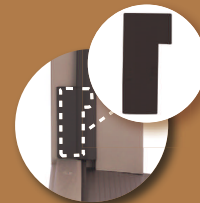

New multi-point locks
Increase rigidity for enhanced integrity and security.

New door bottom sweep
Dual bulb and fin sweep maximize water resistance.

New profiled sill
Higher profile sill sits tighter to door bottom, preventing air and water infiltration.

New corner seal pad
Patent-pending design eliminates water penetration.

Take foul weather out of the picture. Tru-Defense entry and patio door systems are engineered to keep wind out, floors dry and homeowners satisfied. And that's a beautiful thing. Get more information at www.thermatru.com/trudefense.

For FREE info go to <http://pb.ims.ca/5646-23>

Tru-Defense patio door systems also available.

To build this window, we went to the best suggestion box of all. Your job site.

The New Marvin Ultimate Replacement Casement Window

Meet the Ultimate Replacement Casement, the high-performance window created from suggestions of trade pros like you. We gave it the industry's sturdiest, most innovative hardware system—to support extra large sizes (up to 40" x 92") and provide homeowners a brand new way to clean their windows, all from inside. A narrow jamb means you can easily install a premium wood clad window, even when vinyl or aluminum has been specified.

Visit www.MarvinCasement.com or call 1-800-241-9450 for a free Ultimate Replacement Casement brochure.

TOOLS for the Turnaround

Two Strong Names Create One Conference Powerhouse...

Sunday, Oct. 5 —
Tuesday Oct. 7, 2008

Arizona Biltmore
Resort & Spa

Phoenix

Just when the housing industry needs it most, *Professional Builder* and AVID Ratings join forces to create the most comprehensive management conference for the building industry: the *Professional Builder Benchmark and AVID Leadership Conference*.

This is your conference for:

- Up-close interaction with nationally renowned experts
- Intensive tracks dedicated to leadership development, business management and customer loyalty
- Leading best practices
- Robust roundtable discussions
- High-level managerial brainstorming
- Unsurpassed networking

Meet us at the historic and architecturally stunning Arizona Biltmore Resort & Spa to discover what the best builders in America are doing right now to ready their companies for a market upturn.

AVID
RATINGS

Professional Builder Benchmark and AVID Leadership Conference

Cisneros, Howe, Jones, Sullivan Promise to Rock the Room

Four heavy hitters will come out swinging with tales from the front lines of government, technology, economics and real-estate for a high-level overview of today's business as unusual world.

Henry Cisneros

Executive Chairman,
CityView Companies

Henry Cisneros' resume is as eclectic as America. Expect his views on urban planning, workforce housing and the current mortgage crisis to challenge the way you think about your business future.

Terry Jones

Founder, Travelocity.com;
Managing Principal,
Essential Ideas

Terry Jones will share how his successful launch of Travelocity.com helped shape his world view on the power of long-term technology planning and partnerships.

Neil Howe

Founding Partner,
LifeCourse Associates
Historian. Economist. Demographer.

Neil Howe — a nationally recognized authority on global aging, long-term fiscal policy and migration — will amaze you with powerful insights into what REALLY motivates today's generation of home buyers.

Tim Sullivan

President,
Sullivan Group
Real Estate Advisors

Tim Sullivan's ideas on defining market opportunities, conceptualizing community design and honing product pricing and absorption potential will help you lead your company's successful strategic growth as the market rebounds.

The CEO Panel and the Capital Roundtable Mix It Up

Three hard-charging CEOs telling it like it is — what could be more fascinating? Unless it's the Capital Roundtable, where industry insiders sketch out the pressures on capital markets and discuss how those pressures affect the financial picture of builders planning for the turnaround. They're two important discussions, and you'll have a ringside seat.

Four Tracks Carry You Toward Insights and Answers

- Management Track
- Customer Loyalty Track – 1
- Customer Loyalty Track – 2
- Leadership Track

Single-topic, multiple sessions. Focus on what you need and come prepared to work.

Special Events

- Green Building Tour — Visit green-built homes and talk with the builders and designers
- Awards Gala Dinner — Celebrate the NHQ, AVID and Professional Builder Builder of the Year award winners
- Professional Builder Fun Night & AVID Client Dinner

An elevator is a great way to help sell your homes...

There's a huge – and growing – market of homebuyers looking to live comfortably in their homes longer. They're seeking special features that make their interiors even more exciting. A home elevator can be the competitive advantage you are looking for. And with a perceived value often higher than the actual cost, you can realize a healthy profit.

... more profitably.

America's number one home elevator brand.

- We offer the most product choices, custom features and accessory options.
- Our new INCLINATOR® LX features the most advanced home elevator technology.

It's easy to add an elevator to your homes.

- Our Elevette® and INCLINATOR® LX elevators can be included in renovation projects and new construction.
- Options include in-shaft or no shaft elevators.

- Reduced energy consumption
- Longer motor life cycle
- No hydraulic or gear oils
- Machine roomless (uses less sq. ft.)

First there was wood.
Then composites.
Now there's AZEK Deck.

► **Our decks go equally well with red wine, BBQ sauce or ketchup.**

AZEK Deck, the #1 brand of stain resistant decking, is a superior decking option that is refining - and redefining - the very notion of building a deck. Engineered with Procell® Technology, AZEK Deck virtually eliminates the shortfalls associated with wood and composite decking so you can forget the stain problems that are common with the leading decking products.

Built to withstand a houseful of household objects, homeowners can actually live on their AZEK Deck. Spilled wine, fruit punch, even hamburger grease are no match for AZEK Deck's stain resistance. And since it's scratch resistant, you won't have to worry about scuffs during installation and AZEK Deck will keep looking great for years.

AZEK Building Products has more than 20 years of experience in cellular pvc manufacturing. We make AZEK Trim, the #1 brand of trim, and AZEK Moulding. And now, we're bringing our leadership and innovation to AZEK Deck.

To see why AZEK Deck is the solid choice for building a better deck, visit azek.com or call 877-ASK-AZEK.

Trim Products

New Innovations for 2008

Allure Mouldings

- Extruded Mouldings:
Nine standard and four specialty profiles
- Produced with durable Celuka extrusion technology
- Providing design, scale flexibility and versatility on the jobsite
- "No-lift" hollow back feature

Soffit System

- Dramatically reduces labor time and improves job site efficiency
- Price per square foot is comparable to traditional edge and center bead
- Ventilated or non-ventilated options
- Convenient 32 sq. ft. coverage packs
- 48" W panel system is safer and easier to handle. Sizes 8", 12" and 16"

One-Piece Water Table

- Dramatically reduces labor time and improves job site efficiency
- Enhances home appearance
- 1 X 8 and 1 X 10 (18' length)
- Provides drip angle to shed water

Beaded Sheet

- 1/2" thickness; 4'X 8', 4'X10' sheets
- Sheets install much faster than edge and center bead boards
- Tongue-and-Groove edges

Lay-Flat™ Casings

- 3/16" X 1 7/8" rabbet spans window/ door nailing flanges, permitting flat installs
- Ensures flush face surfaces and tight board joints at corners

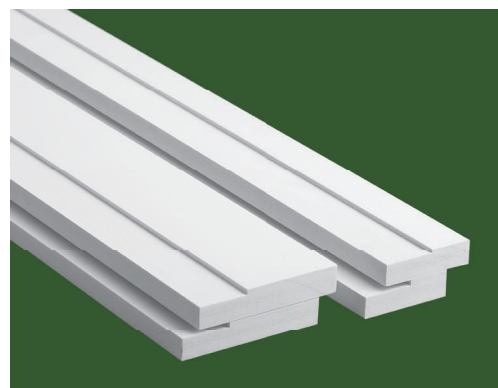

KOMA PVC Trim Advantages

- #1 Trim in surface durability
- Moisture and insect resistant
- Impervious to salt
- UV stability
- Easy to nail, glue, route or cut
- Superior paint adhesion
- Workable with same tools as wood
- Spot sanding blend
- Thickness consistency

THEY'LL LOVE HOW IT CAN FUEL THEIR ENTIRE HOME.

Many homebuyers understand the benefits of cooking with propane. But they might not realize that once propane is installed for the kitchen, it's easy to expand it throughout their homes. From tankless water heaters, dryers and furnaces to fireplaces and grills, clean-burning propane gives off less than half the greenhouse gas emissions of electricity. To help your clients get the performance, comfort and efficiency of propane inside and out, visit buildwithpropane.com.

NATURE KNOWS.

**The finest, most authentic wood-grained
fiber cement siding made is also green.**

CertainTeed's patented formula uses more than 30% pre-consumer recycled fly ash, a majority of wood fiber from sustainably managed forests, and a manufacturing process that conserves water and energy.

Install CertainTeed FiberCement and get a product that is not only stronger, more durable and attractive, but friendly to the environment.
