For FREE info go to <http://pb.hotims.com/20671-1>

Appreciate the benefits of building for the future. When you install an energy-efficient, cost-saving Rinnai LS Series tankless water heater, you're choosing an innovative appliance for your customer and establishing a reliable reputation for yourself. Your clients enjoy hot water when they need it, for as long as they want it. With its use of natural or propane gas and low emissions, the Rinnai saves on energy costs and contributes to cleaner air and a healthier environment.

And you get a flexible, reliable and easy-to-install water heating solution that's as beautiful on the outside as it is innovative on the inside.

Learn about the efficiency of today's first choice in tankless water heating appliances.

SECURITY & STYLE

THE BEAUTY OF STRENGTH.®

Kwikset
The Beauty of Strength.®

With over 100 years of experience, Stock Building Supply is one of the nation's leading suppliers of building materials across the nation to professional builders. From start to finish we have everything to help you make your customers' dreams come true, including a full array of Kwikset® products whose style meets today's discerning homeowner's expectations. Let Stock Building Supply assist you in the design of your next project with Kwikset® products.

Door hardware is often the first thing that visitors touch and feel when entering your house and can set the tone for the rest of your home. With Kwikset®, you don't have to sacrifice style for security. Express who you are by finding the right door hardware style and finish to complement your home. Kwikset® offers two levels of security, style and price point. Kwikset Signature Series® is the Ultimate in Strength and Style™, has premium security features and elegant accents and refinements. Kwikset® is America's Number One Selling Lockset™. It has trusted security features and some of the most recognized styles.

Fact is, there's hardly a door made that Kwikset® can't make more attractive or more secure. No wonder more people trust their doors, inside and out, to the strength and beauty of Kwikset®. Look for Kwikset® products at your local Stock Building Supply. Contact Stock Building Supply today for the brand name products and exceptional service your homebuyers demand.

Under the Blanket

The flurries have begun, and they will soon grow into a blizzard.

It happens every year at this time. The closer we get to the International Builders' Show, Jan. 20 – 23 in Las Vegas, the more we hear from vendors and public relations agencies who want those of us in the editorial field to stop by their booth. The flurries usually start with e-mails, but soon enough, we'll be inundated with phone calls and follow-up phone calls; post cards and follow-up phone calls; and packages and follow-up phone calls. In a typical year, I receive about 120 invitations.

The goal? To get information about their products into our hands so we can inform our readers. In fact, as much as I dislike this storm of PR agencies, I recognize that the great thing about IBS is the introduction of new building products and services, as well as the spotlighting of true innovation. There is no other event that provides builders

and the home-building press the chance to see, touch, hear and smell all of this in one place.

There is, of course, more to do at IBS than just wander the floor. You can also sit in great seminars with experts to help you implement market-friendly designs, close more sales and operate more efficient busi-

nesses. And, you can extol the best of the industry, such as by attending our own 25th Anniversary Best in American Living Award ceremony at The Wynn on Jan. 19. For more information, go to www.probuilder.com/bala. I look forward to seeing you there.

Paul Deffenbaugh

Editorial Director

paul.deffenbaugh@reedbusiness.com

There is **no other event** that provides builders and the home-building press the chance to see, touch, hear and smell all of this in one place.

Showing Off

Show Village 2009 will feature three innovative new homes from a unique partnership with Palm Harbor Homes and our sponsors.

BY NICK BAJZEK, PRODUCTS EDITOR

The Quiet Living Home Will Feature: >>

- Panasonic's Whisper Series of advanced ventilation fans that operate exceptionally quietly and also work to provide a cleaner, healthier home while conserving energy.
- Fiberglass doors from Plastpro, which offer an innovative alternative to the entry-door market and feature triple-pane decorative glass for excellent thermal and sound insulation. In addition, insulation within the door provides a high R-value for maximum thermal protection and also can serve as a barrier to unwanted outdoor sounds.
- Icynene soft-foam insulation that goes into walls, ceilings, attics and floors. The insulation creates an effective air-seal that minimizes air leaks to control moisture, improve air quality, bring energy savings and act as a sound barrier.
- Beam Central Vacuum Systems and Beam HEPA Air Filtration Systems that run quietly and also improve indoor air quality by reducing air pollutants.

6

Green Home Highlights: >>

Our Green Home was built to the standards of the Environments For Living green certification program, designed to assist builders in constructing energy-efficient homes. The program provides a rigorous set of requirements that treats a home as a "system of systems" that work together, with limited guarantees on comfort and heating/cooling energy use.

The program is divided into three certification standards: silver, gold and platinum. Builders follow a checklist-style guide to gain certification points. The program starts from the first planning session all the way to the final inspection.

The homes, referred to as Living-certified homes, feature a tight building envelope and a pressure-balanced, continuously ventilated interior. The standards for framing; insulation; ventilation; heat and moisture management; and mechanical systems are based on advice from leading building science experts. Selected homes are tested to ensure that builders meet or exceed the required specifications.

The Media-Enhanced Home Will Dazzle You With: >>

- Wayne-Dalton's Home Control Z-Wave unit, which gives homeowners the ability to set lighting; regulate heating and cooling settings; control security systems; and open and close electronic window shades with the touch of a button — even from remote locations.
- The new Schlage LiNK locks that allow homeowners to remotely monitor entry to their homes via any Web-enabled mobile phone or computer. Using secure wireless technology, Schlage LiNK sends a text or e-mail notification when someone enters a home. It also gives homeowners the ability to remotely lock and unlock their doors.
- Sony's HomeShare multi-room entertainment and intercom solution can deliver high-definition video to any room in the home. It also allows homeowners to access their iPod playlist from any room in the house. The system also integrates intercom communication throughout the home and can be linked to any camera monitor, which may be set up outside or inside.

BENEATH THE PALM TREES: PALM HARBOR HOMES

FOR MORE THAN 30 YEARS, Palm Harbor Homes has built a reputation for delivering customization, quality, value and customer satisfaction. It carries that history into our Show Village homes. At the 2007 International Builders' Show, Palm Harbor's model home at Show Village, the "Bimini," received the U.S. Department of Energy's first EnergySmart label for receiving a HERS rating of 57. This rating means that it is 43 percent more energy efficient than typical new homes.

The network that exists between Palm Harbor and Discovery Custom Homes, Nationwide Custom Homes and PHN Commercial Structures makes Palm Harbor the only company building to HUD, modular commercial and local building codes from coast to coast. Palm Harbor, interestingly, is the only factory-built home builder named the Gold Award Winner of the NAHB's National Housing Quality Award. The firm also picked up the DOE's EnergyValue Housing Award for best practices in energy-efficient home construction.

Visit them online at www.palmharbor.com.

NEW! SHOW VILLAGE 2009 LEARNING CENTER

This year, we teamed up with our sponsors and industry experts to create the Show Village Learning Center, which will feature seminars and demonstrations Tuesday through Thursday. Stop by while you're at Show Village! Check out the highlights below, and visit www.pbshowvillage.com for descriptions of each session.

Can Modular/Systems Built Construction Improve your Business?

Allen Mckemie, President, PHN Commercial Structures
Tuesday – Thursday, 10 – 11 a.m.

Comfort Foam: Spray Polyurethane Foam Insulation LIVE DEMONSTRATION

Tuesday – Thursday, 11 a.m. – 12 p.m.

Cost Effective Methods for Sealing the Building Envelope to Reduce Thermal Bypasses and Meet the Energy Star Home Checklist Requirements

Steve Easley, Principal, Steve Easley & Associates
Wednesday, 2 – 3 p.m.

Differentiate with New Builder Solutions: Wayne-Dalton Home Controls

Yan Rodriguez, Director, Wayne-Dalton
Wednesday, 12 – 1 p.m.

Durability

Joseph Lstiburek, Principal, Building Science Corporation
Tuesday – Thursday, 1 – 2 p.m.

Energy Efficiency

John Tooley, Senior Consultant, Advanced Energy
Tuesday – Thursday, 11 a.m. – 12 p.m.

Energy Efficiency at Virtually No Cost

Dean DeWildt, Development Leader; Doug Bibee, Res. Application Technology Leader, Dow Building Solutions
Tuesday – Thursday, 10 – 11 a.m., 3 – 3:45 p.m.

Everything Is Going Green — What Does It Mean?

Gorde Cooke, Building Science Trainer and Consultant, Building Knowledge
Wednesday – Thursday, 3 – 3:45 p.m.

Getting the Project Done!

James Seekford, Vice President, PHN Commercial Structures
Tuesday – Thursday, 3 – 3:45 p.m.

Hydroshield Technology Revolution Home of the Future

Marcel Chegade, Sales Manager, Plastpro
Tuesday – Thursday, 12 – 1 p.m.

Indoor Environmental Quality

Ron Jones, Builder and Founding Partner, Green Builder Media
Tuesday – Thursday, 2 – 3 p.m.

Proper Exterior Door Installation Saves Money and Reduces Callbacks

Bill Reiter and Bill Rouleau
Tuesday; Wednesday and Thursday, 10 – 11 a.m., 2 – 3 p.m.

Severe Weather and Closed-Cell Spray Foam: A Better Building Technology

Mary Bogdan, Senior Principal Scientist for Honeywell
Tuesday, 2 – 3 p.m.

Water Efficiency

Gary Klein, Instructor, GreenPlumbers USA
Tuesday – Thursday, 12 – 1 p.m.

What Every Builder Needs to Know about High Performance Plumbing

Carl Seville, Seville Consulting
Tuesday, 11 a.m. – 12 p.m., 2 – 3 p.m.; Wednesday, 11 a.m. – 12 p.m.

What's Green about Ventilation?

Vic Flynn, National Marketing Manager; and Don Stevens, Panasonic
Tuesday – Wednesday, 12 – 1 p.m., 1 – 2 p.m.

Why Closed-Cell Spray Foam, Why Now ... The Answer to Energy Performance

Mary Bogdan, Senior Principal Scientist for Honeywell
Thursday, 2 – 3 p.m.

ATLANTIC PREMIUM SHUTTERS

C THE FOUNDRY

B ATRIUM

D CERTAINTEED

EAST COAST STYLE A

Hurricanes and storm seasons have been as random as a craps throw. If you want your homes to stand up to the worst and meet Florida building codes and missile impact test requirements at the same time, install the Vertical Storm Bar System from Atlantic Premium Shutters. The system fits most window sizes and both the mounting brackets and bars can be removed after the storm threat.

Booth C5213

For FREE information, visit <http://pb.hotims.com/20671-251>

MAKING AN IMPACT B

Seek refuge behind Atrium's SafeHarbor impact fabric. The fabric, made from translucent, high-strength polyethylene fabric, provides an unobtrusive hurricane protection system that offers homeowners an economic impact solution. The fabric is light weight for safe and easy pre-storm deployment and rolls up or folds flat to save space. **Booth N437**

For FREE information, visit <http://pb.hotims.com/20671-252>

PERFECTION FOUND C

It's not often you can strike balance between unique design and great performance, but the Perfection Shingle from

The Foundry scores as a premium vinyl siding. It lands between the company's traditional shingle, which is a naturally-textured flat surface featuring random saw marks, and its Split Shake, which offers a more rough-hewn look. **Booth C5213**
For FREE information, visit <http://pb.hotims.com/20671-253>

SERIOUS CEDAR D

You can't beat real cedar — but you can at least look like it. CertainTeed's CedarBoards XL insulated siding is 16'8" long and is made in a double six-inch clapboard profile with extruded polystyrene insulation. The boards are molded from real cedar planks and have a rough texture. **Booth C4847**

For FREE information, visit <http://pb.hotims.com/20671-254>

DECKING OUT THE PLACE E

Turn your decks into Party Central for your customers with TimberTech's DeckLites low-voltage lighting system. The line has post cap lights, baluster-mounted accent lights, post-mounted accent and stair riser lights — all completely customizable for any situation. The only problem your homeowners will have is getting rid of the neighbors.

Booth C4219

For FREE information, visit <http://pb.hotims.com/20671-255>

FLASH OF INSPIRATION F

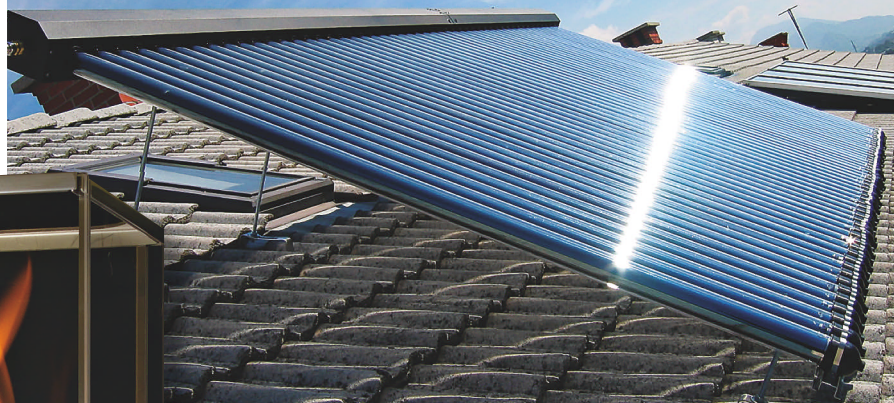

DuPont's FlexWrap RW provides builders with a unique solution for flashing

TIMBERTECH **E**

BY CRANE

recessed windows in all kinds of wall assemblies, including single- and double-stud as well as open-stud construction. The butyl-based flashing system is AAMA 711-07 and ASTM E-331 compliant and it retails with enough material to flash two recessed windows. Not a bad deal if you ask us. **Booth N513**
For FREE information, visit <http://pb.hotims.com/20671-256>

STEALING
SUNLIGHT **G**

Your roofs will never act the same thanks to Heat Transfer Products' recently unveiled 30-tube solar collector panel. The system delivers up to 39,000 BTUs per panel, per day (depending on available sunlight). Because of its construction, the panels are ideal for colder regions

or applications demanding higher outlet temperatures. The apparatus ships with a frame for easy rooftop mounting.

Booth N2617

For FREE information, visit <http://pb.hotims.com/20671-257>

SEE YOU ON THE
FLIP SIDE **H**

Trex Accents reversible boards are now available with a grooved edge to use with the company's Hideaway Hidden Fasteners to create an eerily smooth finish. The boards sport a subtle wood grain on one side and a smooth, finished look on the other. Cap it off with the company's latest railings and rail caps. **Booth N2801**

For FREE information, visit <http://pb.hotims.com/20671-258>

TWIST AND
SHOUT **I**

The Tempest Gas Torch by Travis Industries lights up any scene you stick it in. The Torch is made for outdoor living spaces, front walkway pillars mounted on deck posts or stone pillars and a variety of other applications. The trick to it is the ceramic glass housing, which directs oxygen in to help create the spiral-like presentation. Very cool (bad pun intended). **Booth C7643**

For FREE information, visit <http://pb.hotims.com/20671-259>

ALL THE LOOK
MINUS THE
MASON **J**

Featuring all the deep detail, shadowing and texture of fine, quarried stone, the BellaStone Architectural Columns from Exterior Portfolio by Crane provide a great accent alternative for fence posts, porch post railings and other landscaping. Builders on a budget won't need a mason to work the installation, either. **Booth C4219**
For FREE information, visit <http://pb.hotims.com/20671-260>

K

TRIMLINE BUILDING PRODUCTS

N

UNIVERSAL FOREST PRODUCTS

AZEK L

M

VIXEN HILL

TILE LITE K

Lighter tiles means faster cutting time, and it's going to be a heck of a lot easier on your crews' backs. The Distinction Tile by Trimline Building Products offers the look of traditional concrete and clay tiles without their heavy weight and installation challenges. The advanced composite material will give you guaranteed long-term performance.

Booth C4889

For FREE information, visit <http://pb.hotims.com/20671-261>

IT'S GOT THE EDGE L

Azek pulled all stops out of its trim boards and came back with the Edge trim profile. Edge is made with proprietary technology that creates boards that are uniformly finished. The smooth, sealed edges of each board ensure it will stay cleaner in the dealer yard and on the job site.

Booth N2963

For FREE information, visit <http://pb.hotims.com/20671-262>

PENNSYLVANIA'S PROUD PORCHES M

The latest to come out of Vixen Hill is the new Porch System, which allows you to design a three-season porch online. The company uses cedar and cypress that are milled and handcrafted in the company's Pennsylvania design center. The wood may be painted, stained or left untouched for years of continuous use.

Booth S8637 For FREE information, visit <http://pb.hotims.com/20671-263>

A JANUARY BIRTHDAY N

According to the last horoscope we looked at, Capricorns are stable, dependable and natural leaders. Not a bad name for a new composite deck line. Universal Forest Products' Latitudes Capricorn has a woodgrain pattern on both sides and resembles exotic hardwoods. The co-extruded boards come in adobe (shown) and koa and are available in 12-, 16- and 20-foot lengths in both slotted and standard planks.

Booth N1351 For FREE information, visit <http://pb.hotims.com/20671-264>

When you're building dream homes, an elevator is a natural.

And when you choose Inclinators, your design options are endless.

Inclinators invented the home elevator, and continues to be recognized as having the greatest custom capabilities of any manufacturer. Learn about ELEVETTE® (America's number one brand) and INCLINATOR® LX (featuring the most advanced home elevator technology) at our website, or by visiting us at **IBS Booth C6289 in Las Vegas.**

INCLINATOR
 Custom Home Elevators  Since 1928

**"I knew Cultured Stone® gave me
an edge in selling homes. But I was
surprised how big an edge."**

In a recent study*, home buyers said they were 50% more likely to consider buying a home that had a Cultured Stone® exterior. Yes, you read that right. 50% more likely. So if you want your homes to sell more easily, add Cultured Stone® veneer. And that's not just somebody's opinion. It's a fact.

CULTURED STONE®

The Preferred Name In Stone®

Visit Owens Corning **Booth #C5415** at The 2009 International Builders' Show® to see the latest in Cultured Stone® veneer and stop by the Show Village to see Cultured Stone® veneer in an actual installed environment.

Shown: Cedar Limestone. To find out more about Cultured Stone® products, visit www.culturedstone.com or call 1-800-255-1727.

The product colors you see are as accurate as current photography and printing techniques allow. We suggest you look at product samples before you select colors. Printed in U.S.A. December 2008. ©2008 Owens Corning. Cultured Stone® is a registered trademark of Owens Corning. *Results from a survey of 1500 home shoppers/homeowners conducted by Gilmore Research Group in December 2005.

PROSPEC/BONSAL AMERICAN **F**

ARMSTRONG

A WHITE RIVER
HARDWOODS

CONTACT
INDUSTRIES

USG **C**

SIMPLIFIED ELEGANCE **A**

White River Hardwoods took old-world style and found a way to get it at a fraction of the cost. The result is the Elegant Additions line of compact molding. The collection uses a fine-grain overlay contoured to PacTrim (primed MDF) to produce high-relief moldings. The line can be stained, painted or glazed.

Booth N1069

For **FREE** information, visit <http://pb.hotims.com/20671-265>

VANILLA WITHOUT THE FUDGE **B**

Sometimes when you read about finishes and glazes you can get a little hungry. Armstrong's new Vanilla Cream finish is available on the company's maple and

birch cabinets. The dense, opaque finish provides an excellent complement to the tight grain of maple or birch's moderate grain. **Booth C4009**

For **FREE** information, visit <http://pb.hotims.com/20671-266>

LEVEL THE PLAYING FIELD **C**

Use USG's SRB sound reduction board and SRM-25 sound mat (shown) before you drop in the flooring underlayment. The two products help dampen sound and can help builders achieve green points. Both products contain a significant amount of pre- and post-consumer recycled material and are non-hazardous and non-toxic. **Booth N1073**

For **FREE** information, visit <http://pb.hotims.com/20671-267>

WE'VE BEEN FRAMED **D**

Contact Industries has a bevy of fire-rated door frames to choose from for builders concerned with multifamily, high-rise and commercial construction. The frames are veneer-wrapped in any wood species with fire ratings ranging from 20 to 90 minutes. The frames are made in sizes up to 4-feet by 8-feet in single- and double-door openings. **Booth N1172**

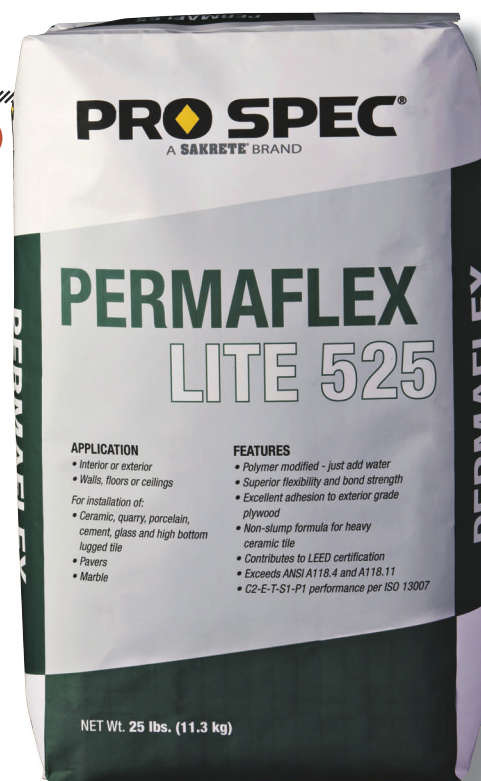

For **FREE** information, visit <http://pb.hotims.com/20671-268>

LIGHTS ON **E**

It's the simplest things that can trip us up — leaving the oven on or keeping the garage door open all night are two things several of us are guilty of. B & C Electronic Engineering's GarageAlert is a simple two-light system that burns green

[Interior]

B & C ELECTRONIC ENGINEERING

when the door is closed and yellow when it's open. The company ships kits based on the number of garage doors and the number of lights you need. **Booth S11104**

For **FREE** information, visit <http://pb.hotims.com/20671-269>

STUCCO THAT SUCKS IT IN **F**

Half the weight, same coverage. Made with a non-sag formula, ProSpec/Bonsal American's PermaFlex Lite 525 is great for most interior or exterior ceramic or stone-based masonry or tile work—even heavy ceramic tile. The lightweight formula, which provides the same coverage as a 50-pound bag, is available in both white and gray. **Booth C4622**

For **FREE** information, visit <http://pb.hotims.com/20671-270>

This year our dealers have a new offering. Bragging rights.

Years of putting our builder partners and the quality of our products first has paid-off big. We still don't have fancy offices. Or over-the-top company parties. But we have what our builder partners and their homebuyers value greatly: dealers who consistently deliver high-quality cabinetry and above-and-beyond service. And now, we've received the J.D. Power and Associates award for "Highest Builder and Remodeler Satisfaction with Cabinet Manufacturers."

**See for yourself why Quality Cabinets was awarded the J.D. Power and Associates award.
Visit the Masco Builder Cabinet Group's IBS Booth, C6343.**

Quality Cabinets received the highest numerical score among cabinet manufacturers in the proprietary J.D. Power and Associates 2008 Builder and Remodeler Cabinet Satisfaction Study.SM Study based on 1,356 evaluations from over 1,100 new-home builders and remodelers who ordered and purchased cabinets January–December 2007. Respondents were asked to evaluate their primary and/or secondary cabinet brands that they used most often. Proprietary study results are based on experiences and perceptions of builders/remodelers surveyed in March-May 2008. Your experiences may vary. Visit jdpower.com © 2008 Quality Cabinets

JACUZZI **A**

D DUPONT

DANZE **C**

B DELTA FAUCET CO.

E PROGRESS LIGHTING

A FUZION REACTOR

Jacuzzi must love its name recognition — and the company is poised to get more of it with the Fuzion whirlpool bath. The bath is the first from the company to combine wood and acrylic construction with 23 jets. The two-person model incorporates two in-line heaters, two pumps, two chromatherapy lights and two digital controls. **Booth C4413**

For FREE information, visit <http://pb.hotims.com/20671-271>

PILLAR OF THE KITCHEN **B**

Delta Faucet Co.'s been busy with R&D lately. It's evident in the new Pilar faucet, which features the company's exclusive Touch2O Technology that allows home-

owners to start and stop the flow of water with a tap on the spout or handle. The faucet also features a magnetic closure called MagnaTite and the company's Diamond Seal leak-free technology.

Booth C6343

For FREE information, visit <http://pb.hotims.com/20671-272>

MAKES SENSE **C**

Low-flow technology has come a long way in Danze's Aerial Collection. The understated collection features clean, fresh lines that are at home in America's popular traditional décor. Each lavatory faucet within the collection has earned WaterSense certification for low-flow technology. **Booth N925**

For FREE information, visit <http://pb.hotims.com/20671-273>

MOSSY GREEN IN ALL DIRECTIONS **D**

The Mossy Green, described as "Warm golden sandstone color with a subtle texture created by clear and brown recycled glass particles," is one of the latest in DuPont's Zodiaq Terra Collection of countertops. The entire suite of products contains at least 50 percent pre-consumer recycled glass. **Booth N513**

For FREE information, visit <http://pb.hotims.com/20671-274>

THAT'S PROGRESS **E**

It's amazing that you can crank so much light out of so little voltage in Progress Lighting's Westin indoor CFL lighting family. Product choices feature arching rectangular arms with strap accents and etched glass. The Westin includes close-to-ceiling, one-, two-, three- and four-light bath and vanity selections as well as other options. **Booth C7455**

A PAM FASTENING TECHNOLOGY

ILEVEL BY WEYERHAEUSER

B

C
RIDGID

D
RYOBI

FAST FASTENERS A

The expanded and improved line of the versatile P13 Series Autofeed Screw systems by Pam Fastening Technology will give contractors everything they need to get 'er done faster. The P13 combines a long extension screw gun with the ability to screw a variety of collated screws ranging in size from 1 inch to 3 inches with little tool adjustment. Screw diameters are from No. 6 to No. 12. **Booth N273**

For FREE information, visit <http://pb.hotims.com/20671-276>

OPENING UP B

We hate working around floor joists. Installing plumbing, ductwork and wiring normally requires cutting holes in the joists and takes time. Plus, if done incorrectly, it can result in red tag delays. But thanks to the open configuration of iLevel by Weyerhaeuser's iLevel Trus Joist TJO, you can run pipes, ducts and wires through the joist. **Booth C5813**

For FREE information, visit <http://pb.hotims.com/20671-277>

DRIVEN TO DRILL C

The X3 Hammer Drill/Driver will join the Pantheon of power tools from Ridgid. The combination tool has plenty of punch in the 18-volt lithium power plant. A mode selector enables a quick transition between drive, drill or hammer modes without having to change the clutch setting.

Booth C6357

For FREE information, visit <http://pb.hotims.com/20671-278>

SHIFT AHEAD D

The neat new AutoShift makes drilling and driving easier and faster on Ryobi's P814 drill kit. The set includes a P250 AutoShift drill and bit; P113 dual chemistry charger, P104 Lithium-ion battery; P103 compact Lithium-ion battery; tool bag; and an operator's manual. Sounds like a pretty complete kit to us. **Booth 6357**

CLOPAY

HAFELE
B

D
OVERHEAD DOOR

SOLAR INNOVATION **C**

TWO SCOOPS OF INSULATION **A**

Clopay is introducing 1- $\frac{3}{4}$ - and 2-inch-thick polyurethane insulation options to its Gallery Collection vintage-style steel doors. According to the company, this sandwiched model nearly doubles the thermal protection the current polystyrene insulated Gallery models offer. Insulated windows are also an option. **Booth C4609**
For FREE information, visit <http://pb.hotims.com/20671-280>

BACK TO THE FUTURA **B**

Hafele's Futura pocket door framing kit makes for a nice and easy installation. The kit is suitable for sliding doors in both residential and commercial settings where pocket doors are required, and is also ADA-compliant. The cold-formed, zinc-plated steel studs ensure a stronger pocket wall that won't warp. The exposed part of the wood header is laminated to match the color of the sliding track.
Booth N201
For FREE information, visit <http://pb.hotims.com/20671-281>

TILT FOR A BETTER VIEW **C**

Got a crazy idea window and door configuration in mind but don't think you can pull it off? Use the Tilt-n-Slide windows and doors from Solar Innovation. The windows, shown here, are constructed from a thermally-enhanced aluminum frame, which allows them to stand up to more punishment than a standard vinyl window and still maintain a thermal barrier.

GREEN THE GARAGE **D**

Eco-consciousness spreads to the garage with Overhead Door's EcoBuilt line, which includes the Verde doors. Offering the look and feel of handcrafted wood, the doors contain 88 percent recycled content and feature four styles. Several window and decorative hardware options are also available. **Booth N1112**
For FREE information, visit <http://pb.hotims.com/20671-283>

E CMI

A DOOR TO YOUR CASTLE DOOR **E**

There's a cool story behind CMI's Cashal door. The name is derived from an old city (Cashel) in County Tipperary, Ireland, which translated to "castle;" hence the arched top and two-planked interior. The Cashel ships in standard 6'8" and 7-foot heights, with 8-foot doors available in early 2009. **Booth N737**

For FREE information, visit <http://pb.hotims.com/20671-284>

ACCESSIBLE OUTDOORS **F**

Outdoor living is now more accessible, thanks to Weather Shield's Pocket Door System that allows for discreet storage of doors up to 10-panels wide into a wall cavity in either a manual or motorized configuration. Doors can be configured in lineal, bi-parting or 90-degree applications in heights ranging from 6'8" to 10 feet.

Booth C6871

For FREE information, visit <http://pb.hotims.com/20671-285>

100 SCORES A 10 **G**

Need customizable windows in a hurry? Andersen Windows & Doors' 100 Series windows should fit the bill. The 100 windows are made from the company's highly-stable, durable and patented Fibrex material, which blends sawdust and polymer for added strength. You can order single-hung, gliding, casement, awning and specialty fixed styles in more than 1,200 sizes. **Booths C581 and C587**

For FREE information, visit <http://pb.hotims.com/20671-286>

ULTIMATE STYLE **H**

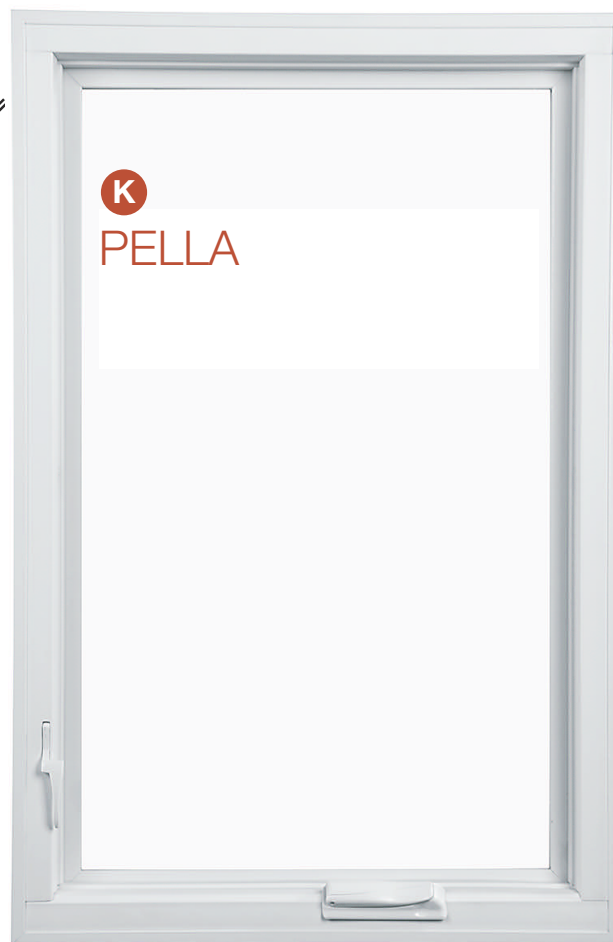

Removable interior covers and pre-drilled jamb holes make installation simple and provide a clean, finished appearance for Marvin Windows and Doors' Ultimate Casement window. The line truly steps in to deliver design flexibility. A simulated check rail and a wide bottom rail option mimic the look of a double-hung, allowing a home to keep its architectural style.

J JAMSILL GUARD

K PELLA

SCHLAGE **I**

L.E. JOHNSON

L

FORGOT THE KEYS? NO PROBLEM **I**

Just don't forget the code! The new Schlage LiNK deadbolts and locks provide keyless entry through 4-digit access codes that can be entered, activated, deleted or disabled on the lock's 11-digit push-button keypad or via Schlage's LiNK web portal or mobile phone application.

Booth C4453

For FREE information, visit <http://pb.hotims.com/20671-288>

STAND GUARD **J**

The Jamsill Guard is an adjustable sill pan flashing for exterior doors and windows and is designed to prevent water damage from window and door leaks. It is available in eight different depths to accommodate most door and window applications in either 2 by 4 or 2 by 6 construction. Added bonus: it isn't visible after it's installed. **Booth N367**

For FREE information, visit <http://pb.hotims.com/20671-289>

NEW ADDITION **K**

Pella's Impervia line now includes double-hung and casement options that can help you score Energy Star points. The windows are made from the company's Duracast material and sport Low-E insulated glass. White, tan or brown colors are available. **Booth C7233**

For FREE information, visit <http://pb.hotims.com/20671-290>

A DOOR IN YOUR POCKET **L**

Heavy duty is the name of the game when it comes to doors. The wide header section means that L.E. Johnson's new 2060 Pocket Door Frame can accept doors up to 2-1/4 inches wide. The easily assembled, structurally strong pocket door frame is designed for fast installation in 2 by 6 timber/steel frame constructed walls. **Booth N2176**

SPECIFY NISUS PRODUCTS

BORA-CARE®

REPLACES SOIL TERMITICIDES

- Applied by your pest control company as an EPA registered primary subterranean termite pretreatment.
- Soil termiticides can break down by 50% or more in one year, but Bora-Care delivers years of long-term residual protection against termites, carpenter ants, wood boring beetles and decay fungi.
- Because Bora-Care is applied directly to wood, concrete, and foundation penetrations (not to the soil), there is virtually no danger of chemical run-off into the soil or water systems.
- Soil treatments pump about 300 gallons of diluted termiticide under and around the average U.S. house. Bora-Care uses only about 3 gallons for the same house, saving time and water.
- Builders can earn **green building points** using Bora-Care.

PREVENTS WOOD DECAY

- Bora-Care kills and prevents decay fungi.
- When wood gets wet, Bora-Care stops wood decay until the wood has time to dry.

ELIMINATES FUMIGATION

- Applied by your pest control company as an EPA registered drywood termite whole house treatment.
- Bora-Care emits no dangerous VOCs (Volatile Organic Compounds).
- No one has to leave the house and materials do not need to be bagged or removed during a Bora-Care treatment.

GREEN BUILDER® MAGAZINE
**2006 OVERALL
GRAND PRIZE**
NATIONAL GREEN BUILDING CONFERENCE

BORA-CARE with MOLD-CARE®

KILLS & PREVENTS MOLD

- Certified pest management professionals apply Bora-Care with Mold-Care to wood, OSB and other cellulosic materials where it soaks in, killing and preventing mold.
- Mold-Care's active ingredient is a powerful moldicide formulated to work with Bora-Care for the additional control of mold.

PREVENTS WOOD DECAY

- Also kills and prevents decay fungi, which is not the same as mold.
- When wood gets wet, Bora-Care with Mold-Care stops wood decay and mold until the wood has time to dry.

DELIVERS RESIDUAL PROTECTION FROM GENERAL PESTS

- Bora-Care's active ingredient, Disodium Octaborate Tetrahydrate (DOT), kills and prevents wood destroying organisms, including drywood termites, carpenter ants and wood boring beetles.

Nisus Corporation specifically advises all parties that mold will eventually grow in conducive conditions. Since Nisus Corporation cannot control such conducive conditions, Nisus Corporation shall not be liable for any liabilities, claims, damages or the like in any way related to or arising in connection with the occurrence or presence of mold. For more information as well as additional warranties and disclaimers, see the product label, the *Mold and Fungi Technical Bulletin* or www.nisuscorp.com.

MOLD-CLEAN®

CLEANS MOLD & MILDEW STAINS

- Eliminates mold and mildew stains.
- Cleans and brightens weathered wood.
- Ready-to-use & pleasantly scented.
- Contains special wetting agents and detergents.
- Penetrates deep into wood pores for thorough stain removal.
- Minimizes or eliminates scrubbing.
- Perfect for water damage on all building materials.
- Available for use by homeowners, contractors and professional pest management companies.

Change your frame
of reference.

Moment frames have long been considered the expensive option when small wall sections and open floor plans make shearwalls unworkable. Simpson Strong-Tie is going to challenge that perception with the new Strong Frame™ ordinary moment frame. Now designers can choose from 196 engineered frames, in sizes up to 16 feet wide and 19 feet tall, rather than spend hours designing their own. And since the Strong Frame is the only factory-built moment frame for wood that offers 100% field-bolted connections, it is easier and faster to install. Now there is a cost-effective moment frame solution for residential, light commercial and multi-family applications: Simpson Strong-Tie® Strong Frame.

For more information call (800) 999-5099 or visit us at www.strongtie.com.
Look for the Strong Frame Special Moment Frame in 2009.

NEW from the manufacturers of BETTER-BENCH™

RECESS-IT™

REC 1414 REC 614

Products shown are produced of a corrosion resistant alloyed aluminum with an elastomeric-waterproofing and anti-fracture coating combined with an aggregate bonding base. Finished materials, ceramic tile, marble, granite, etc. can be applied immediately after product installation utilizing **standard** mastics or thin-set. No additional additives are required. Listed products are supplied with (4) multi-purpose wall fasteners which may be used with/without preinstalled wood blocking.

BETTER-BENCH™

The Shower Bench Solution

An easy to install bench-forming system that replaces the complex methods currently in use.

This fully independent supporting unit can be mounted to most vertical surfaces quickly and efficiently, saving the installer valuable time. What once took two days to complete can now be done in about an hour! BETTER-BENCH™ provides design flexibility and is ideal for new or retrofit applications. *Patented*

Maintenance-Free Cupolas and Louvers

Maintenance-Free, stock & custom cupolas from New Concept Louvers are wrapped with PVC coated aluminum and copper. Made from the same materials as our custom louvers, they never require painting like wood products. They arrive in three easy to install pieces pre-cut to fit any roof pitch, and can be ordered in stock sizes or to custom specifications. Over 400 colors are available, as well as many different weather vanes and accessories.

Building Green means Building Kleen!

KleenWrap improves indoor air quality!

Tired of subfloors that sometimes look like this?

DEALERS AND
DISTRIBUTORS
WANTED

Install KleenWrap and they can look like this!

VISIT US AT
IBS BOOTH
\$8465

**KleenWrap. It's a tough, thin, breathable material
engineered to protect subfloors during construction.**

KleenWrap installs quickly... and it protects for months.

Don't waste time and money trying to scrape and sweep
embedded mud, drywall compound, dirt and debris.
Simply remove the KleenWrap and it's gone. **Plus, KleenWrap
is 100% polyethylene so it is recyclable!**

The construction mess is gone and your subfloors are ready
for finish flooring. Ask your Dealer about KleenWrap, give us
a call or visit our website.

KleenWrap. It's about time... and money!

Woodmoor® Collection

Woodcrest® Collection

Duration® Premium Cool

Duration® Premium

When the roof complements the home, the customer compliments the builder.

Owens Corning offers a high-end laminate shingle that will complement any home you build. There's the Woodmoor® & Woodcrest® Collection that has the deep dimensions and rustic hues of wood shake. There are the Duration® Premium shingles with SureNail® Technology that boast a bold dimensional look, plus impressive durability and Duration® Premium Cool shingles, available in lighter colors that reflect the sun's rays and help keep homes cool. Whatever kind of shingle the home you build calls for, you can bet Owens Corning has it.
